

The Ex-Husband's Revenge By Dragonsky

Chapter 2058

Chapter 2058

"It's the Southern Boss! I can't believe he's personally appearing at Cynthion Group's sales drive. They are quite impressive!"

Everyone's expressions changed at the Southern Boss' appearance.

Even though Cynthion Group's Energy Nurturing Pills had tremendous influence, they were just useful for those below the Almighty State. The pills were not effective on those at the Almighty State at all!

It meant that Cynthion Group's influence was restricted!

Whether it was in terms of power and influence or anything else, Cynthion Group was far from being at the level of the Southern Boss or the Thompsons!

Yet, despite the Southern Boss' power, he attended Cynthion Group's sales drive!

It was a bit unbelievable!

Other than that, most of those in attendance were only third-rate ancient martial arts families or some of those that were just above average!

The Southern Boss was the king of the underworld, his power and influence could not be measured!

Even the Thompsons and the Hiltons would need to be wary of the Southern Boss!

That left nothing to be said for the other families!

Suddenly, they were completely shaken by the Southern Boss. All of them could not help but take a step back as they made a path for the Southern Boss and the others.

The Southern Boss, Rodney, and the others walked right in front of Leon.

"So you're the Southern Boss!" Leon met the Southern Boss' cold expression calmly as he spoke.

He never met the Southern Boss before and did not know the man.

However, from the exclamations around him, he immediately knew who the other person was!

Of course, if he met the Southern Boss before this, he would have been shaken by the Southern Boss' presence!

However, at that moment, his power already reached the point where he was unbeatable by those below the intermediate Almighty State. Even the famous Poisonwielder died to him!

There was no way he would be afraid of the Southern Boss!

"Brat, do you think you're allowed to refer to my father like this?!" Rodney shouted angrily as he glared at Leon.

"Rodney, stop trying to act strong in front of me! You were captured for a few days by the Dragon Corps. Did you already forget about that?!" Leon said mockingly, immediately hitting Rodney where it hurt.

"You-"

Rodney was rendered speechless. He looked at Leon hatefully.

The last time, he was about to deal with Leon personally at the Scammells. Yet, he ended up being captured for questioning in the name of assisting the investigation in the end. He was confined by the Dragon Corps for a whole week!

In the end, Leon not only foiled his plan to deal with the Scammells and Cynthion Group but even caused him to be confined for so long for no reason!

His hatred for Leon was at its limits!

Only when the Dragon Corps stopped showing any movements did he and the Southern Boss relax!

Other than that, the father and son pair already guessed that Leon was very possibly the person behind Cynthion Group!

With Leon already showing himself in public and Raphael revealing Leon's status in public, they're guess was proved right!

The two of them deliberately come to Cynthion Group's sales drive to find a chance to deal with Leon. They wanted to seize control of Cynthion Group!
