Chapter 2060

Chapter 2060

"Angus, it's you! Who are you to dare to lecture me?! Do you have the right to do that?!" The Southern Boss' eyes froze as he looked at Angus with disdain.

Even though he was considered to be in the same generation as Angus, he was hailed as a rare genius among geniuses in his oath!

His talents in martial arts were even better than Yuri and Rodney's!

It was because of that, that he was able to establish the Spears by himself, slowly growing until he became the king of the southern region's underworld, standing above all his peers!

Angus was far from being at his level, so it was true that Angus had no right to argue with him!

"He doesn't have the right, but surely I do!" Arthur said coldly.

After that, he unleashed the aura around his body. A wave of power that was at the advanced Almighty State immediately pushed out at the Southern Boss!

"You-"

The Southern Boss' expression changed. He could not help but pull back his aura that was pressing down on Leon, redirecting it to stand against Arthur's immense pressure.

"Arthur, are the Thompsons going to make an enemy out of me for Leon?!" The Southern Boss said with a sinister glint.

"So what if I am?! Southern Boss, I don't mind telling you this. Our family owes Mister Wolf a lot. He's a treasured guest of ours! If you decide to go against the codes of honor and insist on going against him, then we'll be the first to oppose you!" Arthur said in a threatening manner. His voice was incredibly firm, leaving no room for doubt!

Leon did not only cure Roanne's Third Degree Block but even risked them to save Roanne from Asmodeus!

Even though Roanne was not his grandchild, they were still related by blood!

As the head of the Thompsons, he was always someone who repaid his debts. He naturally remembered what Leon did for them!

There was no way he would stand aside and watch as the Southern Boss wanted to oppose Leon!

"Very well, your family is asking for it!" The Southern Boss scoffed in frustration.

He never got along with the Thompsons in the first place. With the Thompsons opposing him in public, it was enough to deeply anger him!

However, Arthur was at the advanced Almighty State just like he was!

Furthermore, he only made a breakthrough not too long ago, while Arthur got to that level a few years ago. Arthur was someone who stood on top of those at the same level!

In terms of power and skill, the Southern Boss was not at Arthur's level. He was still no match for Arthur!

Even if he hated Arthur and the Thompsons, he was forced to just swallow that anger!

"I can't believe the Thompsons are supporting Leon publicly like this!"

"I guess this guy must be capable!"

Looking at that, the surrounding crowd was quite surprised.

With the power of the Southern Boss and the Spears, the Thompsons did not care about making an enemy out of the Southern Boss for the sake of Leon!

It was obvious that Leon's relationship with the Thompsons was not something to be underestimated!

Suddenly, they were forced to look at Leon in a different light. At the same time, they finally understood why Leon dared to act so arrogantly in front of the Southern Boss. Leon was not some easily killed livestock as they thought. He had a certain level of ability and confidence!

They just underestimated Leon too much!

Of course, the Thompsons were the head of all the major families in the southern region. Their power and wealth were a bit higher than the Southern Boss.

With the Thompsons protecting Leon, it was not very possible for the Southern Boss to do anything to Leon!

However, before they could even finish their thoughts, something happened the next moment!
