Chapter 2081

Chapter 2081

"What? Do my ears deceive me? Did you just say you want to challenge me?" Leon could not believe his ears!

He was not the only one shocked by this; the audience was equally as stunned by Rodney's audacity!

None of them ever imagined that Rodney would have the audacity to challenge Leon to a duel instead!

This worked incredibly in Rodney's favor, the audience immediately shifted their attention onto the duel instead of the ring.

"No, you didn't hear me wrongly! You're just a scaredy-cat that won't rise to the challenge!" Rodney declared with a contemptuous sneer.

This was the main reason he and his father attended the sales drive in the first place; to find an opportunity to challenge and bring down Leon!

Now, seeing that their plans to bring down Roanne failed, he decided to shift his attention to Leon instead!

Although he already witnessed Leon's true display of power before, he possessed a piece of Emperor Weapon that was more than capable of defeating Leon!

It would be perfect if he could seize this opportunity to defeat Leon once and for all!

"What do you mean, I won't rise to the challenge? Well, I

accept your challenge!" Leon sneered.

He and the Southern Boss never once saw eye-to-eye, not to mention the fact that the Southern Boss and Rodney ganged up against him multiple times before.

Leon could not understand how Rodney dared to challenge him to a public duel, but all he knew was that this was the perfect opportunity to not only teach Rodney a lesson but to avenge Roanne as well!

"What?" Angus and Yuri were both shocked to hear Leon accepting Rodney's duel.

"Please don't act rashly, Mister Wolf! Rodney is not an opponent to be underestimated, not to mention he possesses a piece secret weapon with him that's highly likely to be an Emperor Weapon! It's not sensible to fall for his trap!" Angus quickly tried to talk Leon out of this. Although he got to know Leon very well, he was yet to witness Leon in action before and thus was not sure of how powerful Leon was.

However, considering how young Leon was, he could make an educated guess that Leon was probably only at the Emperor State at most!

Rodney, on the other hand, was one of the Southern region's youngest and brightest, and thus would not be an easy opponent!

Not to mention that Rodney was now in possession of an Emperor Weapon that managed to defeat even Roanne, who was already at the Intermediate Emperor State!

He was certain that Leon would not be able to put up a good fight against Rodney, and so it came as a shock to him to hear Leon accepting Rodney's challenge to a duel after some provocation!

There was no way he could allow Leon to go through with this!

"My father is right! Mister Wolf, I will gladly take your place! He ambushed Roanne just now, and he deserves to be punished for being a cheat," Yuri quickly piped up. He, like Angus, did not think that Leon would be a good match for Rodney at all.

However, it was different for him; Yuri was always a better and more powerful fighter than Rodney was, and although Rodney possessed an Emperor Weapon, Yuri was well aware that weapons like these were often limited to only three uses.

As long as he remained cautious during combat, he could easily outsmart and overpower Rodney!

"There's no need! Thank you for your concern, Uncle Angus, and Mister Thompson, but I'll be fine! It's just Rodney, after all! Don't worry, I promise that I'll do everything in my power to avenge Roanne's defeat!" Leon replied calmly, the determination on his face so apparent that no one could convince him otherwise.
