

The Ex-Husband's Revenge By Dragonsky

Chapter 2095

Chapter 2095

"Thank you, Mister Wolf...1

Angus, Alan, and Elder Westwood were overjoyed and thanked Leon sincerely.

Not only did Leon agree to their requests, but he had also given the Cleansing Pills to them freely, which surprised them.

Though 14 million meant nothing to any of the families, Leon's gesture of goodwill did not escape their attention.

Leon shot a look at one of the staff, who brought the Cleansing Pills to the three.

"The Cleansing Pills are gone just like that..."

The others were extremely disappointed.

Since Alan and Arthur had both helped Leon to fight against the Southern Boss, they all knew that Leon was close with the Hughes and Thompsons, so it seemed normal for Leon to give the Cleansing Pills to the families that helped him in the past.

Though they were disappointed, they also knew that there was nothing much they could do.

"Damn it!" Yonas's expression darkened.

He had proposed to purchase a few Cleansing Pills, but Leon turned him down. However, as soon as Angus stepped in, Leon agreed to the request and even gave the Thompsons two Cleansing Pills as gifts.

Yonas could not help but feel disrespected.

Though Angus was also a member of the Thompsons, Yonas 1 grandfather was the leader of the family, which meant that the control over the family was held tightly within the hands of the second bloodline. Hence, Yonas had always been competing with Yuri to be the heir.

Since Leon had made an exception for the first bloodline instead of Yonas, he felt insulted.

"Alright. That's it for the Cleansing Pills! We will begin selling the Supreme Pure Energy Pills! There are a total of one hundred and ten pills available, and the price remains the same as the Advanced Pure Energy Pills: three million dollars for each pill, and every family is limited to purchasing up to three pills..." Leon announced.

"I want three Supreme Pure Energy Pills!"

"Me, too..."

The others instantly fought for the chance to purchase the pills.

The Supreme Pure Energy Pills could guarantee the breakthrough to the Emperor State for Semi-Emperors and enhance the chance for martial artists in the Emperor State to get past the bottleneck of their training.

The Supreme Pure Energy Pills' effect was almost as powerful as the Cleansing Pills. Since they were all disappointed in not obtaining any Cleansing Pills, they were determined to purchase the Supreme Pure Energy Pills.

"Please stand in line. First come, first served..." Leon said.

Not daring to waste any time, the crowd formed a long line, and the Supreme Pure Energy Pills were sold out.

Cynthion Group proceeded to sell their premium Energy Nurturing Pills and first-grade Energy Nurturing Pills, along with other alchemical pills.

The Energy Nurturing Pills were great aids for martial artists in their training and had long become something crucial to all families in the southern region, so thousands of Energy Nurturing Pills were instantly sold out.

With that, the second sales drive for Cynthion Group ended with great success.

Apart from that, Leon announced that Cynthion Group was looking to hire a few martial artists in the Semi-Almighty or Almighty States.

The news instantly spread through the entire region.

Since most martial artists in the Semi-Almighty States were loyal to their own families, they could not possibly work for Leon. It would be rather challenging for Leon to recruit martial artists of that level.
