

The Ex-Husband's Revenge By Dragonsky

Chapter 2123

Chapter 2123

"The Fifth and Sixth Guardians, huh?" Leon's lips curled into a contemptuous sneer.

He fought Rodney, the Fifth and Sixth Guardians in the Scammells Mansion before and recognized them right away.

Though he never met the Third Guardian, he could assume that the Third Guardian worked for the Southern Boss as well and that since the Third Guardian seemed to be the other two's superior, he was likely more powerful than the Fifth and Sixth Guardians.

"It's the work of the Southern Boss!"

Contrary to Leon's composed demeanor. Iris, Snow, and the others felt their hearts sinking as they realized their assumption earlier was right.

Iris saw the Fifth and Sixth Guardians as well and knew they were formidable martial artists.

Though there were only three of them and appeared to be outnumbered, everyone on Leon's side was too weak to be of any help apart from Leon himself and Henry.

It was obvious that Leon was at a disadvantage and the women simply could not be as optimistic as Leon.

"Leon, you probably didn't expect to see us again so soon! You dared to cross our boss by taking advantage of the Thompsons' and the Hughes' support during the sales drive!

Know your place! Now that the Thompsons and the Hughes are gone, it's time for you to die! Let's see who's going to come to your rescue this time!" The Fifth and Sixth Guardians sneered as they looked at Leon mockingly.

"You speak like the three of you can so much as harm a hair on me. What a joke! I can still take care of scums like you even without help from the Thompsons and the Hughes!" Leon scoffed.

Considering his current strength, he might hesitate if the Southern Boss planned an ambush on Leon along with all his guardians. However, the Southern Boss only sent three men and two of which were only in the Semi-Almighty State, so they were hardly a threat to Leon.

"Enough chit-chatting! You have one chance to come with us and hand Cynthion Group over. Do that, and we might consider letting you live, or you will die today!" The Third Guardian said viciously.

The Southern Boss specifically asked that they captured Leon alive if possible to obtain all confidential information about Cynthion Group.

If Leon obliged and handed Cynthion Group over, the Third Guardian could consider showing mercy; but if Leon refused to give up, the Third Guardian was prepared to execute the Southern Boss's order and eliminate Leon once and for all.
