Chapter 2170

Chapter 2170

"Greetings, Mister Wolf!" Henry and the others hurriedly got up when they saw Leon coming over.

"No need to be polite," Leon said with a smile, motioning for them to take their seats.

"Mister Wolf, thank you for accepting me and Sherlyn. You even prepared a safe space for us to stay. I don't know how to repay you for what you've done for us," Henry said gratefully.

He constantly been pursued by Scarlet Death for years, and was forced to bring his granddaughter around everywhere, constantly fleeing. They lived a nomadic life, and no forces were willing to accept the two of them!

Yet, Leon did not only accept them, he even arranged for such a nice place for them to stay!

Other than that, Leon even taught him an Ultimate Power Class Method, helping him get to the Almighty State. It put a ray of hope in his original grim and dark life!

He was filled with gratitude for Leon!

"Henry, we're all family here. There's no need to be so polite. Also, Scarlet Thief is still around. The two of you should try to stay by my side as much as possible. Don't move around alone. Once Scarlet Thief is gotten rid of, the two of you can live a free life," Leon did not forget to say.

He already arranged for Oliver and Abraham to spread the news about Henry. Scarlet Thief could appear at any moment to seek revenge on Henry for taking his eye!

For safety's sake, he deliberately reminded Henry to make sure he and Sherlyn were on high alert, in case anything happened!

"Getting rid of the Scarlet Thief? I wouldn't dare to dream of that!" Henry smiled wryly.

He knew how strong Scarlet Thief was. He did not think that Leon could deal with the man!

As for himself, as long as he made sure to work hard, he might be able to get stronger than Scarlet Thief in three to five years. Then, he would be able to get revenge!

However, before that happened, he was probably too weak to face Scarlet Thief!

"That might not be true," Leon smiled vaguely.

He knew very well that the southern region's Dragon Corps already asked the eastern region's Dragon Corps for help. They planned on working together to kill Scarlet Thief!

He also made plans in secret, planning on luring Scarlet Thief over!

With him and the Dragon Corps both acting, he did not think that Scarlet Thief was long for the world!

However, before the plan succeeded, he did not want to tell Henry anything. Otherwise, it would look bad if both he and the Dragon Corps failed!

"That's right! Mister Wolf, are you planning on accepting even more experts at the Semi Almighty State and above into Cynthion Group? I have a suitable candidate I would like to recommend," At that moment, Henry suddenly thought of something and spoke up after some hesitation.

"Oh? Who is he? Where is he right now?" Leon looked happy when he heard that.

He was already enemies with the Southern Boss and the Hiltons. He desperately needed experts at the Semi Almighty or Almighty State to work for him. It would solve the security problem of Cynthion Group and Elegante!

It would prevent his opponents from going after the girls and hurting them!

At that moment, he only had Henry with him who was strong. It was hard for Henry to be in both companies at once!

If Henry could recommend another expert at that level for him, it would be great!

He would want nothing more!
