

The Ex-Husband's Revenge By Dragonsky

Chapter 2182

Chapter 2182

"Tsk, what nonsense! How dare two pieces of trash as you act so cockily toward me?" the Scarlet Thief scoffed and cast Henry and Chandler glances of disdain.

He knew that both Henry and Chandler were only in the Advanced Power class, which meant that they only attained the Semi-Almighty State or the Initial Almighty State at most!

He, on the other hand, was already at the Intermediate Almighty State, which was leaps and bounds ahead of them!

"You! Don't speak too soon, Scarlet Thief! One of us will meet our death today, and I have a feeling it's going to be you!" Henry and Chandler snarled.

With that, the two of them channeled their energies, intending to unleash their wrath on the Scarlet Thief and avenge their loved ones' deaths!

"Wait!" all of a sudden, Leon stepped out, stopping them right in their tracks.

Neither Henry nor Chandler could understand why Leon decided to stop them, but out of consideration that they both owed Leon one, they decided to obey Leon's command and paused.

"So it turns out you're the infamous Scarlet Thief!" Leon was a little surprised. Although he planned this and intended to lure the Scarlet Thief out of hiding, he never once thought his plan would succeed so soon!

However, unbeknownst to him, this was all the Southern Boss' doing; it was he who revealed Henry's whereabouts to the Scarlet Thief, enabling him to trace him all the way to Chandler's house!

Otherwise, the Scarlet Thief would not have materialized so soon!

"Who are you, punk?" the Scarlet Thief turned to stare at Leon coldly. From what the Southern Boss told him, he could vaguely guess Leon's identity, but he did not want to jump to conclusions just yet.

"I'm Leon Wolf, president of Cynthion Group!" Leon declared calmly.

"Haha, so it's you!" a glimmer of excitement flashed through the Scarlet Thief's eye.

When the Southern Boss first shared the information with him, they came to an agreement that the Scarlet Thief would help him get rid of Leon Wolf!

After that, the southern boss would give him a hefty reward as compensation as well as help him evade the Dragon Corps' capture!

As for getting his hands on the Platinum Martial Technique, now that he became the most wanted criminal on the Dragon Corps' list, he had nowhere else to hide and was planning to escape to the Eastern region!

If the southern boss was willing to help him escape or even provide him a hiding place, he would be able to evade the Dragon Corps' capture, and would not have to run away on his own!

This was why the Scarlet Thief agreed to work with the southern boss and bring Leon down!

"I can't believe you've been helping Henry all along, you punk! You must have a death wish! No worries—I'll send all three of you down to hell together since that seems to be what you want!" the Scarlet Thief snarled, the fiery rage reigniting in his eyes.

Then, without another word, he unleashed a surge of powerful energy, sending it barreling straight toward Leon!

Leon was so young that he was certain Leon would not be able to put up a good fight against him. Therefore, he would first get rid of the weakest, then take his sweet time tearing Henry and Chandler apart!
