

# The Ex-Husband's Revenge By Dragonsky

Chapter 2188

Chapter 2188

"Thud!"

Leon's Earthly Plunder and the Scarlet Thiefs Fiery Serpent crashed into each other with a deafening, earth-shattering slam.

With that, the Fiery Serpent tore Leon's attack apart and barreled straight toward Leon!

However, Leon remained calm, and with a dart, he angled himself so that the Mirror of Sovereign, which was strapped to his chest, would take the brunt of the Scarlet Thiefs attack.

At the same time, he moved out of the Earthly Plunder and instead employed his signature Double Attack, sending a surge of Intermediate Overlord energy speeding straight toward the Scarlet Thiefs chest!

"What on earth is going on?" the Scarlet Thief was stunned by this. He was under the impression that Leon was just a naive little twat, and his Fiery Serpent would surely take him out as easy as ABC!

He never once imagined that not only did Leon get away unscathed, he was even able to unleash another attack on him!

He did not see this coming at all!

Not only that, he put so much strength into his Fiery Serpent

that he was yet to regenerate the energy required for retaliation, and so he could not even dodge Leon's attack as it sped toward him!

Without warning, Leon's Double Attack crashed into the Scarlet Thief's chest, sending his entire body propelling backward like a kite without its string, finally landing in a crumpled heap on the ground!

A wave of excruciating pain shot into his chest as he doubled over, spitting out a mouthful of blood. It was clear he suffered some serious injuries.

Thankfully, Leon was only at the Intermediate Almighty State, and combined with the fact that he had his defenses up, Leon's attack did not prove to be fatal.

If not, he would have been crippled or perhaps even died from taking Leon's Double Attack to the chest!

'Leon defeated the Scarlet Thief? How can this be?' Henry and Chandler could not believe their eyes. Knowing that the Scarlet Thief was already at the Intermediate Almighty State and even learned a special Platinum Martial Technique, neither of them thought a young man in his mid-twenties would stand a chance against him!

After all, the Scarlet Thiefs power would place him as one of the best Almighty Warriors in the town, with no one even being able to match up against him apart from the Southern Boss and Arthur Thompson!

This was unbelievable!

None of them would have believed this to be true if they did not see it with their own two eyes!

"This can't be true! This is impossible," The Scarlet Thief leaped to his feet, stifling the excruciating pain in his chest. He remembered full well that Leon was only at the SemiAlmighty State at most, which was a far cry from his Intermediate Almighty State!

He could not understand how Leon not only managed to hold up against his attack but even turned the situation around and retaliate!

This was akin to a miracle!

The Scarlet Thief could not even begin to accept what happened!
