

## **An Understated Dominance by Marina Vittori Chapter 2017**

Chapter 2017

“Earthly liquid? Is it really spiritual liquid? Oh my god!”

Looking at Kevin Snow dancing, the people around him were stunned at first, and then looked ecstatic.

Everyone was so excited that they dropped the jewelry in their hands, rushed forward as quickly as possible, and began to drink the spiritual fluid in the pool.

As warriors, they naturally know the value of spiritual liquid.

Those are gold, silver and jewels, far beyond comparison, and a once-in-a-lifetime wealth.

It is no exaggeration to say that every sip of spiritual liquid is equivalent to eating a thousand-year-old ginseng.

Not only can it greatly improve your cultivation, but it can also extend your life, improve your physique, and even reshape your meridians, making you completely reborn.

How could such a treasure not be exciting?

At this moment, everyone no longer cared about their image, they were all lying on the edge of the pool, holding the spiritual liquid in their hands and drinking it.

The greedy look was like a person who had been thirsty for three days in the desert and suddenly saw a sweet spring.

I can't wait to suck it dry in one gulp.

“This full pool of spiritual liquid is enough for our major forces to enjoy. It's not in vain that we worked hard and took the risk to get here.”

Lily Zhang sighed while drinking water.

The words seemed excited, but in fact they were somewhat suggestive.

Among the several forces present, only Margaret was the dominant one. She was afraid that the other party would become greedy and swallow up a pool of spiritual liquid.

After all, spiritual liquid is different from ordinary gold and silver jewelry.

For those who are rich and wealthy, gold, silver and jewelry are nothing.

However, the spiritual fluid that can improve one's cultivation and prolong life is a treasure that wealthy people seek after even their wealth is spent.

So what she just said was to remind Margaret that one person couldn't swallow so much spiritual fluid, so it would be the wisest choice for all parties to share it equally.

"Yes! If you can take part of the spiritual liquid and bring it back to the sect, it will definitely increase the sect's power to a big level!" Kevin Snow smiled excitedly.

After taking a few sips of the spiritual liquid, he couldn't hold it anymore.

Because the spiritual energy in the body is too rich, it cannot be digested for a while. If you drink it again, you will probably explode and die.

The other warriors also felt something strange.

Although I still had some unfinished thoughts, I had to stop.

As the saying goes, bite off more than you can chew, so don't overwhelm yourself when you finally discover the treasure.

Some warriors who drank the spiritual liquid began to meditate and practice honestly, digesting the surging spiritual energy in their bodies.

"Could it be these spiritual liquids that caused the reaction in the Sky Eyes?"

Margaret took a sip of the spiritual liquid and drank it gently. He felt that his whole body was smooth and his body was overflowing with spiritual energy.

The bottlenecks in her previous cultivation seemed to be loosening.

If she drank a few more sips, she had a hunch that she should be able to break through to the middle stage of Grand Master.

But the current environment was obviously not a good time for a breakthrough, so she chose to endure.

Judging from the value, the spiritual liquid in this pool is indeed extremely precious, enough to cause violent vibrations in the eyes of the sky.

Although the Dragon Source Qi was not found, if the spiritual liquid could be brought back, it would be enough to create a powerful personal guard.

“Wait... there seems to be something underneath this spiritual liquid!”

At this time, Dustin suddenly said something coldly.

At this moment, he was staring directly at the pool. He could vaguely feel that there was another breath under the spiritual fluid.

It is very obscure, very weak, and difficult for ordinary people to detect.

“Is there something? What is it?” Margaret was slightly startled.

The rest of the people also looked over, with expressions of curiosity and anticipation.
