

## The Charismatic Charlie Wade Chapter 3669

Orrin Sun's words made Charlie instantly alert.

The identity and situation of the Wanlong Temple are indeed special. In the mainstream world, mercenary organizations like this will always be given a gray tone. If the people are asked to choose a label between good and bad, then every servant In the eyes of the masses, the Bing Organization is undoubtedly bad.

Right now, the outside world did not know about the fact that he had incorporated the Wanlong Temple, but it could not be a secret forever, and there would be a day when it would be known to others.

At that time, people's aversion to mercenary organizations will also be imposed on him.

So Charlie hurriedly asked Orrin Sun: "Uncle Orrin (Sun), do you have any good suggestions about Wanlong Palace?"

Orrin Sun smiled slightly and said seriously: "I have an idea, which may not be good or mature, and if I really want to land, I must make certain sacrifices. Whether it is feasible or not depends on your choice. If you don't dislike it, Then I will probably talk to you."

Charlie nodded and said humbly: "Your life experience and personal abilities are much stronger than mine, and I believe your approach must be much better than I could think of!"

Orrin Sun smiled and said, "You don't need to shoot flattery. I will probably talk about my thoughts with you."

As he said, Orrin Sun sat up straight and said seriously: "In my opinion, the greatest value of Wanlong Palace lies in his combat effectiveness. If combat effectiveness is used in the field of mercenaries, the benefits will naturally be higher, but it also faces what I just said. The problem is that the social response and public reputation are poor. In this case, you may wish to change Wanlongdian's future business strategy so that it can still make money from its own combat power. Cooperation, from the perspective of sufficient justice and sufficient legal principles. On the other hand, I think we can explore the field of international security. International security has developed rapidly over the years, and the reputation in the eyes of the people is very positive!"

"International security?" Charlie asked hurriedly, "Uncle Orrin (Sun), what are the main areas of international security?"

Orrin Sun smiled and said: "You must now vigorously develop ocean shipping, ocean shipping is one of the main areas of international security!"

"Piracy is rampant in Somalia and other regions. Although many countries have escort fleets, after all, the demand for international logistics is too great, and it is impossible for every ship to be guaranteed in place, so international security is very popular in this field;"

"Commercial ships that generally pass through the areas of piracy activities will employ several international security personnel. These international security personnel are responsible for protecting the ships to safely pass through the areas of piracy activities. They can also fight back when they encounter pirates on board. Gradually evolved into a rigid demand industry;"

"Ten Thousand Dragons is strong and strong. If you mobilize thousands of people to specialize in this field, you will definitely have no problem in your own strength. And now that you have YS Shipping, you can still meet your related needs to a large extent in the future."

Speaking of this, Orrin Sun said again: "I will tell you one more point. Now the countries with the highest global economic development are actively cooperating with third world countries, especially in infrastructure construction;"

"There are already many companies that undertake infrastructure construction in some backward areas in Asia, Africa and Latin America, and there will be more and more in the future!"

"Their roads, railways, telecommunications, transmission grids and even water conservancy construction basically rely on overseas companies, and their own countries have poor economic development and poor public security. It is difficult to ensure the safety of the employees of these overseas companies in the local area. "

"At this time, international security personnel are also needed for effective protection, not only to ensure the safety of overseas employees, but also to ensure the progress of local projects. The people on both sides have a very good impression of this kind of international security. In our words, it is the masses. Solid foundation!"
