

Alphas Deaf Mate Chapter 79

Rachel

Hanging up quickly tossing my phone on the bed I began pacing back and forth.

I think that was Oscar Im not sure but it sounded like him why did he have Nick's phone?

Dam it what am I gonna do now, They can track my phone and find me here s**t.

Grabbing the bag from the closet I start throwing all the clothes I had with me in it. I'll have to stay at the cabin where that incompetent witch girl is. Doing a quick over the room making sure I didn't leave anything that would lead them to me I grab my bag and head into my car tossing my bag in the back seat I jump in taking off.

I make a quick stop to pick up a new phone as I passed through town making sure no one saw me tossing my old phone out the window as I drove I couldn't risk them using it to find me.

Pulling up to the cabin it's the same as I left it getting out I walk up to the front door and unlock the paddock swinging the door open. I stepped in I could hear her moving around in the room down the small hall.

She pops out looking at me.

"Something wrong?" She looked confused I don't ever come here unless it is to get the potion or threaten her with not ever seeing her sister again.

I don't answer and walk to the other room pushing the door open I go in setting the bag on the bed.

"Change of plans, Stop working on that potion for right now I have something else for you to work on,"

Autumn

I wasn't sure what I was feeling right now with all this going on. Then finding out about that potion Rachel had hidden and what it could possibly do to me,

“We will be alright, don’t forget we are not a normal wolf.” Gems’ voice is strong.

“I know Gem but still I just can’t believe she would go that far, I’ve never done anything to her I don’t understand why she hates me so much,”

“Sometimes there’s no reason for thins people do, but what I do know is she’s not going to get away with it,”

I didn’t say anything I believe what she said and by how Reins what dealing with it all I knew he would find her.

Thinking back to the clinic when her voice came threw the phone he became so angry I thought we would have to sedate him but Gem was able to calm him.

I didn’t like using my ability on Nick but it was a relief to know he was telling the truth I don’t think I could handle anymore being dumped on me.

It seemed as if everything was moving so fast when I think back to how it was when we first moved here to now first finding out my family are werewolves to me being one as well, then learning about mates and being mated to the Alpha to my special abilities and regaining my hearing.

I wouldn’t change anything that’s happening or want something different I just want all this to end and be happy in my life here with Reins and my family.

I was lost in my thought I didn’t hear Reins come behind me.

Jumping a bit when he placed his hand on my shoulder.

“Sorry, I didn’t mean to scare you,”

“It’s okay, I was just thinking.”

He wraps his arms around me kissing my temple.

“What were you thinking about,?”

“Just everything,” I say looking up at him.

He sits in front of me he cups one of my cheeks.

“I’ll find her I promise, she not gonna get away with what she did,”

“I know I believe you I just wish this was over,”

“It will be,”

I then noticed how he was dressed,

“Are you guys leaving now?”

“Yes, I wanted to come to see you before we left maybe have you go wait with your mom and dad,”

“I want to go with you guys,”

“I would love having you by my side but I can’t have you in danger, I won’t be able to think straight I’ll be too worried, I don’t want anything to happen to you,”

He leans forward placing his forehead against mine.

“I don’t want to be away from you, and I have a bone to pick with her myself,”

“We will bring her back here she will be put through a trial, she went against her Alpha and tried to hurt my Luna that’s a heavy punishment in the werewolf world.”

I nod my head knowing he wasn’t gonna budge on this.

“You want me to take you to your parents?”

“Yeah, I don’t want to be alone right now,”

Reins

Taking Autumn to her parents was harder than I thought as her dad was insisting he was coming to help.

He wasn’t fully healed yet his strength wasn’t a hundred percent and I knew Autumn couldn’t handle it if something happen to him again. I ended up using my Alpha command on him to keep him there,

Meeting up with everyone Zach seemed relieved that his dad wasn’t with him.

“He tried coming didn’t he?”

“Yeah had to command him to stay,”

“He is stubborn like that, especially seeing how he’s been protecting her since she was small,”

“I can understand him, but Autumn couldn’t deal with it if he was hurt again,”

He nods his head.

“Yeah, I’ll agree with you on that, plus he’s still not strong enough yet,”

“Well with Oscar and them going with us I prefer him here with Autumn,”

“Do they have a guard?”

“Yes, I have Morgan and her mate standing at the door,”

“That’s good, You ready?”

“Yep let’s get this done,”
