

Magic Doctor: CEO Lady's Humble Husband

Chapter 331

When Fade Chen came to the office, he saw a middle-aged man with glasses rubbing his hands anxiously on the sofa. Quin Lin saw that Fade was there, so she did not beat around the bush and explained the matter directly to him. She said, 'Fade, this is Shinnie Sun's father, Edward Sun.' 'Second Uncle Sun came to ask us for help on Shinnie's behalf this time,' Quin said. Hearing this, Fade couldn't help but frown and said, 'Ask us for our help? Did Shinnie encounter any trouble?' Edward patted his head blaming himself for this matter and said, 'It's all my fault. It's all my fault. I didn't listen to what Shinnie said at that time, but now it turned out like this. It's all my fault!' 'Second Uncle Sun, don't worry. Tell me what happened,' Fade said in a hurry. Edward told Fade what had happened in a hurry. He seemed reproachful of himself, and anxious as well. Since Fade caused a scene at the Sun Family's residence that day. Shinnie was ostracized by Nathaniel Sun and Yannie Sun at that time because she had spoken up for Fade and Quin. Shinnie, an unimportant member of the family, was pushed aside by Nathaniel and Yannie, who were two main members of the family. Naturally, she had no ability to defend herself against this, so she could only endure this situation. However, Nathaniel and Yannie became more and more aggressive in trying to push her out. In the beginning, they only deducted some food and basic supplies from Shinnie's family. In the end, they simply became more arrogant and directly isolated Shinnie from the other members of the family, and even secretly

ordered someone to beat her up. Being bullied like this, Shinnie felt that she couldn't stay at home anymore. Therefore, she thought about the suggestion that Fade and Quin had given her, asking her to stay with them and leave the Sun Family. Therefore, Shinnie told her father Edward about this matter. She wanted to leave the Sun family and move out. Although Edward was not valued by the Sun family for many years, he still felt loyal to the Sun family. After all, as the most powerful family in Long City, they were quite famous. Therefore, he did not agree with Shinnie's request, but only regarded her complaints as a childish joke. However, Edward did not expect that Nathaniel and Yannie would become more aggressive and excessive in their actions. They started to create small conflicts and then directly hit Shinnie. Several times when Shinnie came home, her cheeks were red and swollen. Obviously, she had been beaten. Edward now believed that his daughter had been bullied, so he went to find the elders of his family to demand justice. AS a result, he did not expect that the seniors of the family had already made a decision before he came to tell them about this issue. They said that they would find a family for Shinnie and arrange a marriage for her. Edward didn't agree at that time, saying that his daughter was only 19 years old. She was too young and she was not ready for a marriage at that time. However, the seniors of the family said that the issue had been decided. Age was not a problem. They would handle the matter of the marriage first. Such a domineering attitude naturally caused Edward and Shinnie to become dissatisfied. But at that time, Edward still held on to a last glimmer of hope, hoping that the family's introduction of the other family was good. He thought maybe they could find a good marriage for his daughter. After all, it was very common to have an arranged marriage in a large family.

But it didn't take long for Edward's last expectation to be completely shattered by the seniors of his family. They had found someone for Shinnie. The person chosen by the seniors of the family for Shinnie was actually a rich playboy. Since he was 15 or 16 years old, he had begun to mess with other women and had messed with countless women. Moreover, this playboy's temperament was quite irritable. He was violent and would hit people when triggered. He had two successive divorces, and both his former wives died because of venereal disease. No matter how Edward was reluctant to part with the Sun family, he would not allow them to push his daughter to such a guy. This was equivalent to pushing Shinnie into a bottomless abyss and causing her to perish. Therefore, Edward resolutely expressed his disapproval to the seniors of the family. Unexpectedly, the seniors of the family ignored his opinion and said that the matter had been decided. They said that they were ready to arrange for the meeting between the two sides and settle the matter. Edward knew that there was no room for negotiation. He thought of what his daughter had mentioned before, of her intention of leaving the Sun Family. So he finally made up his mind that his family would leave the heartless Sun Family. Just as Edward was secretly preparing to leave, and ready to drop everything and flee, He learned that his daughter Shinnie was taken by one of his family members. He had just gotten home, when they said that she was going to meet the other party. Edward was anxious at that time and asked about the place where the family members were meeting, but the family members didn't give him any information at all. Even Shinnie's cell phone was taken away, and he couldn't get in touch with her at all. Edward, who was helpless and anxious, thought of Quin and Fade who were mentioned by his daughter. Therefore, he had made his way to Fei Enterprises

Holdings Inc. After hearing all of this, Fade quickly began to think about the matter. If it was an ordinary meeting, it would not be a big deal. However, with the strange attitude of the Sun Family and the bad reputation of the other party, it was hard to guarantee that no accident would happen during this meeting. Therefore, the most important thing to do now was to find out where they were going for this meeting, and bring Shinnie back as soon as possible. Thinking of this, Fade couldn't help but ask Edward, 'You don't know the location of this meeting at all?' Edward shook his head and said, 'I've been busy preparing to leave the Sun family these few days and didn't pay much attention to this matter. In addition to that, they deliberately hid the location from me, so I didn't receive any news at all.' He didn't know the location, so he could only start to search for information from the other party. Hence, Fade asked, 'How much do you know about the other party of this meeting? If he is from another city, he should be staying in a hotel, since he came for this meeting today. We should be able to find the relevant clues through this.' Quin nodded and said, 'I'll contact the Dai family right away. They are in the catering and hotel business, so they should be able to find some clues in time.' Edward thought for a moment and said, 'The other party is from another place, and he comes from a family named Zhan in the south. I heard that the family is very powerful and can be on par with the Sun family, so the high-level family members want to arrange for Shinnie to marry into that family in exchange for some benefits.' 'In the south, the family surname is Zhan, and this person has been married twice..' Quin said. She was ready to start the search by gathering information. But at this moment, Fade's gaze froze and he immediately said to Quin, 'Dear, there's no need for a wide-scale search just let the Dai family

search for half an hour or so for restaurants and accommodation near the five-star hotel in the city center.' 'How did you know so much about this?' Quin asked in surprise, but she still sent out the information like what he said. Fade said in a low voice, 'I just had lunch over there, and I met a rich man named Zhan.' 'What a coincidence!' Quin and Edward said in unison..

Chapter 332

Soon, the Dai family's investigation yielded some information. Indeed, forty minutes ago, a man named Quintus Zhan had gone for a meal in the western restaurant of the Five-star Hotel. He had met with some members of the Sun family, including Shinnie Sun. 'We found her!' Edward Sun and Quin Lin said, and they were happy. But then, another message came, which caused the two of them to become nervous again. Five minutes ago, Quintus and Shinnie had finished their meal. Later, Quintus had directly booked a luxury suite in the hotel. Some staff members witnessed Quintus entering the suite with Shinnie 'Oh no, Quintus is going to bully Shinnie!' Quin said, and her face suddenly fell. A playboy booking a hotel room in the daytime and taking Shinnie there. It could not possibly be a positive situation. Edward was also anxious. He gritted his teeth and said angrily, 'If Shinnie is hurt, I will fight with them.' He did not only mean Quintus, but also the members of the Sun Family who had brought Shinnie for this meeting. They had accompanied Shinnie

to meet him. Now Shinnie was brought into a hotel room by Quintus. Without the consent of the Sun Family, how could he have done this? Thinking of this, Edward gritted his teeth again. He had a deeper understanding of the indifferent attitude and arrogance of this large family. Fade Chen's face fell and he said, 'It's good that it's not too far away. I'll go first, and you can come later!' Then, Fade rushed out of the office. He didn't use the stairs or wait for the elevator. He jumped out of the window in a flash, as he had looked down from the window and saw that there were not many people around. His body quickly fell from the tall building, and a layer of inner energy rose from within Fade to protect him. At the last few meters, he controlled his body and slowed down, falling into the green grass. Then, Fade's legs seemed to be on fire, and he walked like he was on wheels. His figure left a shadow as he directly crossed houses, canals, and roads, rushing to the hotel in almost the shortest straight line. Along the way, Fade's quick movements caused some passers-by to feel dizzy, and they felt a shadow flying past them. Some people thought that they were seeing things, some people thought that they had run into a ghost and screamed and hid in their houses; Some people thought that they were filming a show and shouted for Fade's signature; Some people even thought that Fade was an alien and took out their cell phones to take a video of him excitedly. However, Fade was too fast, and they only managed to get a blurry image. In the end, in less than ten minutes, Fade, who was rushing madly, came to the five-star hotel. After he asked about the location of the room, Fade's figure rushed up the stairs like lightning and rushed to Suite 818 on the eighth floor. In Room 818 at the moment, Shinnie put her hands on her chest and looked at Quintus in horror. He was rushing toward her. She said

in a trembling voice, 'What, what do you want to do?' 'This time, the Sun Family did a good job. They actually got such a fresh little beauty for me. I have to enjoy myself,' Quintus said. He licked his tongue, and an evil smile appeared on his face. He said to Shinnie, 'Little beauty, I've brought you to a hotel room. Don't you know what we are going to do?' Shinnie's face suddenly turned pale. She held the pillow with both hands to block her body and said, 'I, I am not familiar with you. You can't do anything..' 'What do you mean by not being familiar with me! I've met you today, and the date of your wedding has been fixed. You belong to me already, so there's nothing that I can't do!' Quintus said. The evil smile on Quintus face became more intense, and he had already taken off his clothes. Shinnie started to panic, and she kept stepping backward. 'We, we are not married yet. We can't do that. Don't come over, don't touch me,' she said. 'Little beauty, I didn't expect you to be so pure. You're still a virgin!' Quintus said. His eyes lit up and they seemed to sparkle brightly. 'Don't worry. I'm experienced and skilled. I won't hurt you,' he said. He licked his tongue and rushed toward Shinnie. Shinnie was so frightened that she screamed and rolled to hide on the other side of the large bed. Quintus didn't manage to grab her, and he fell on the bed, stretching his arms to hold Shinnie. Shinnie panicked and hit Quintus hard with the pillow in her hand. She rolled down from the other side of the large bed. Then, she ran to the door and wanted to leave. Quintus failed to grab Shinnie several times, which immediately caused him to be angry. With a cold expression, he got down from the bed and walked toward Shinnie. Shinnie panicked and tried frantically to open the door. All of a sudden, her arm was grabbed by Quintus, and he pulled her directly and they fell on the bed. In an instant, Quintus took off

his trousers. He glared fiercely at Shinnie and said, 'I was just suppressing my anger at noon just now, and now you still want to provoke me. I'll show you what being a man is.' As he said this, Quintus threw himself at Shinnie like a ferocious wolf pouncing on a panicked little white rabbit. Shinnie was so terrified that she struggled and shouted, 'Don't come over and don't touch me, otherwise our Sun Family will not let you go. My cousins haven't gone far away, and they will return here.' 'Your Sun Family?' Quintus sneered. 'Don't you know what happened? I brought you to the hotel to book a room, and the Sun Family agreed with me and they have left already. Otherwise, do you think they still don't know anything about this after you have been here for so long?' he said. Hearing this, Shinnie's pretty face couldn't help but turn pale, and a desperate expression appeared on her face. 'Little beauty, don't be so unhappy, just smile! Don't worry, I will let you enjoy this very much. I promise that you will miss me and desire me in the future, and you will never be able to leave me again,' Quintus said. He rushed up with a smile and was going to tear off Shinnie's clothes. At this time, with a loud bang, the thick door of the hotel was kicked open, and then a figure rushed in. Quintus, who was on cloud nine, was frightened and he trembled. When he turned his head and saw someone coming in, he instantly shouted angrily, 'Who the heck dares to ruin my enjoyment? I'll kill him...' As a result, before he could finish his words, there was a loud sound. Quintus's face was slapped directly, and his cheeks quickly became red and swollen. 'How dare you hit me. I..' Quintus shouted. Immediately, he was startled when he saw the person in front of him. He cried out in surprise, 'How can it be you?' At this time, he also recognized that the person who had rushed in was the bracelet owner he had

just encountered in the private room. At that time, he had failed to buy the bracelet, but he was slapped in the face by Fade when he showed off his wealth. In the end, he was full of anger. At this time, he wanted to vent his anger, but he was interrupted by this guy again. For a moment, Quintus's face was full of anger. 'It's you again. You've ruined my pleasure,' he said. 'That's good!' Fade said. He slapped the other side of Quintus's face. He glared at him fiercely and shouted, 'You are looking for death for bullying my sister!'

Chapter 333

Quintus Zhan was stunned by the slap. He held his face, looked at Shinnie Sun, and looked at Fade Chen. He said, 'Your sister? She, she is from the Sun Family, you...' At this moment, Shinnie was absolutely petrified. When she saw Fade there, she couldn't help but cry. She threw herself into Fade's arms and held him. Her body trembled and she sobbed, saying, 'Brother Chen, you are here. I, I.' Fade patted Shinnie's back and comforted her softly, saying, 'Shinnie, don't be afraid. I'm here. No one can hurt you anymore.' Subsequently, Fade looked at Quintus coldly and said in an icy tone, 'Do you want me to take action, or you do it on your own?' Quintus was so frightened that his body trembled. He quickly waved his hand to explain, 'She, she is my fiancée. I didn't force her. Hearing this, Shinnie quickly denied his words and shouted, 'I am not your fiancée. I, I was just here to meet you. My cousin said that if you are not suitable for me, then I can forget

about it. I said that I don't agree to you, but you tricked me into going into the hotel room and want to ..' Quintus quickly explained, 'I did it because I got the hint from your Sun Family, I..' Fade snorted and said, 'You don't have to explain anything to me. Since you have done such a thing, you have to bear the consequences!' As he spoke, a bright light appeared in Fade's hand, which was aimed between Quintus's legs. The light surged out and was about to shoot out. Seeing this, Quintus was frightened and panicked. He trembled and covered his important body part in a hurry. He shook his head desperately and said, 'No, don't. I admit that I was wrong, I was wrong. Please, I beg you, don't do this!' Fade pressed Shinnie's head with his left hand and buried her in his arms. Then, his right hand shook gently, and with a swish, a ray of light burst out and hit the important part of Quintus accurately. Immediately, he let out a miserable howl. He fell to the ground, rolling and said intermittently, 'You, you crippled me. We, the Zhan Family, will not let you go. We won't..' Fade was too lazy to listen to this guy's nonsense so he kicked Quintus and knocked him out. Then, he held Shinnie, who was sobbing, and walked out of the room. Ten minutes later, Edward Sun and Quin Lin also arrived at the hotel. They gathered around Shinnie who was crying and comforted her. Shinnie calmed down and told them what had happened. It turns out that in the morning when Shinnie was packing up and preparing to leave the Sun family, her cousin Yannie Sun had come to Shinnie's room. She said that she had something to talk to her about. Yannie often bullied Shinnie, so when Shinnie saw her, she was naturally a little vigilant. But this time, Yannie's attitude was very gentle, and she even deliberately tried to please her. She indicated that she already had been going to leave the Sun family. Now that she had

thought about what had happened in the past, she apologized for her behavior of bullying Shinnie, and said that she hoped to be forgiven by her. Shinnie, who had always been kind, immediately became softhearted after hearing her cousin's apology. Later, Yannie took the opportunity to talk about the meeting. Shinnie naturally would not agree to this ridiculous marriage. However, Yannie said that the people from the Zhan Family had arrived. If they learned that Shinnie was unwilling to marry into their family and left directly, they might hold a grudge against the Sun Family. So she hoped that Shinnie could meet the other party and make things clear before leaving the Sun Family so that the sense of hostility from the Zhan Family would not be so strong. Hearing this, Shinnie felt that this was quite reasonable. After all, she was also a member of the Sun Family. It was best to clarify the situation with a meeting and avoid any misunderstanding between the two families. Therefore, Shinnie agreed to Yannie's request. Hence, she came to the hotel with Yannie to meet with Quintus. As a result, when she came to the meeting, Yannie's words had changed. She did not mention anything about cancelling the engagement. Instead, she enthusiastically matched Shinnie and Quintus together. Quintus was also very generous at the table, showing that he was very fond of Shinnie. Shinnie thought that the other party was too enthusiastic at the moment, so her cousin was too embarrassed to mention about the cancellation of the engagement. She wanted to make things clear in order to avoid any misunderstandings. Hence, after lunch, she promised to go into the room with Quintus. As for her safety, Yannie promised to wait for her outside the door. But to her surprise, Yannie was totally in cahoots with Quintus. Quintus did not change his old habits at all. When he saw Shinnie's beautiful face, he couldn't help but try to force himself on Shinnie as soon

as she entered the room. AS a result, that's how everything happened. After learning about what had happened, Fade, Quin and Edward were so furious that they were about to burst into rage At this moment, Edward had made up his mind to leave the Sun family In this case, Fade simply decided to take them directly to the Sun family to clarify the situation. He would also bring up the matter of Yannie, Nathaniel Sun and the others that were trying to bully Shinnie. Therefore, Fade and Quin brought Edward and Shinnie all the way to the Sun family. AS they approached the Sun family's residence, Shinnie couldn't help but feel nervous. Her eyes flickered, and her hands and feet were also trembling slightly. Seeing this, Fade patted Shinnie's head and said with a smile, 'Don't worry, Shinnie. Don't be afraid. With Brother Chen here, they won't dare to do anything!' 'Alright!' Shinnie said and nodded. There was a hint of firm determination in her eyes. Many people were sitting in the living room of the Sun Family's residence as Fade and the others moved toward them. Everyone was deep in discussion, and the atmosphere was very lively. Harvard Sun, the patriarch of the Sun family, sat in the seat of honor, and Susanna Yang, his wife, sat beside him. Nathaniel, Yannie, and the other members of the Sun family sat below them. Harvard looked at Yannie with a smile on his face and praised her saying, 'Yannie, you've done a good job this time!' Susanna smiled and said, 'Yannie has a detailed mind and planned well. She has succeeded in causing Shinnie to meet with Quintus. As long as they get to know each other more, the marriage will be settled. This time, she has achieved success.' Yannie smiled and said, 'Thank you for your compliments, uncle and aunt. It's just a small matter, and it isn't worth mentioning.' Nathaniel said at this moment, 'We have dealt with Shinnie. What should we do with

Edward then?’ Hearing what he said, Harvard sneered and said, ‘Edward is a descendant of the Sun family, and he was well respected for so many years in the family. Now that we are asking him for some favors, he wants to leave our Sun family. He is simply ungrateful.’ Susanna snorted, and there was a stern look in her eyes. She said, ‘Such an ungrateful person can’t remain with us for a long time. After Shinnie’s matter is settled this time, Edward will be driven out directly, and all his properties under the Sun Family’s name will be taken back.’ ‘Yes, that will be the case!’ Harvard said and nodded. He added, ‘We no longer need a family member who is unwilling to contribute to the well-being of our Sun Family to remain with us.’

Chapter 334

Hearing Harvard Sun’s words, everyone could not help but nod. They thought that Shinnie Sun and Edward Sun should be willing to sacrifice themselves. Then, Nathaniel Sun’s eyes lit up and he said excitedly, ‘This marriage with the Zhan Family is a huge advantage for our Sun Family.’ When the advantages were mentioned, the eyes of all the people there suddenly lit up, and their tones also became excited Harvard nodded and said, ‘Yes, indeed. The Zhan Family is very powerful in South Hanover City. More importantly, the military background of the Zhan Family is absolutely a huge force, which will be of great benefit to our Sun Family in the future.’ Susanna Yang nodded and continued, ‘This time, we have promised them that Shinnie will get married to

Quintus Zhan. The Zhan Family has promised to collaborate with the Sun Family in business. In the future, they will also put in a good word for our family in the army.’ ‘In my opinion, the most important thing from this relationship with the Zhan Family is their connection to the army. In this aspect, the Sun Family is vulnerable. Since the return of our elder, our Sun Family has developed rapidly and advanced rapidly in the martial arts. We have become the most powerful family in Long City and the strength of our martial arts skills has reached its peak.’ ‘Now, it is important for us to expand our relationships and make more connections. The Zhan Family members are not the real military members, but they have a close relationship with the army. For our Sun family, this is a good starting point to build something.’ Nathaniel said. He acted as though he had a well-thought out plan. He smiled and spoke with fervor and confidence, looking extremely confident and happy. Harvard nodded and said, ‘Nathaniel’s words make a lot of sense. Next, we will collaborate with the Zhan Family. Building a good relationship with the military will be the next mission of our Sun family.’ They were eagerly discussing the benefits gained from the Sun Family’s cooperation with the Zhan family this time, as well as their future development prospects. But they seemed to have forgotten that the so-called benefits would depend on the happiness of a young girl’s life. They were a group of cold blooded human beings. In their eyes, they only thought about the benefits and nothing else. As Edward heard their discussion, he had already walked to the door at this moment, looking extremely gloomy. He was so furious that he kicked open the door of the living room and walked over with vigorous strides. Shinnie, who was biting her lip and had a determined expression, followed Edward and entered the

room. Their entrance interrupted the discussion in the room, and then they looked at the two people who came in with surprise. ‘Shinnie, why are you back?’ Yannie Sun looked at Shinnie in surprise. Hearing these words, Edward’s head was about to explode. He stepped forward, slapped Yannie’s face, and shouted coldly, ‘How dare you ask this question. As Shinnie’s cousin, you actually deceived her and pushed her into the mouth of the evil wolf. Are you still human?’ Yannie didn’t know the last time she was slapped in this manner. She suddenly got angry and stood up. She confronted Edward and said, ‘As unimportant members of our family, you have been eating our Sun Family’s food and stayed in our residence for so many years. What’s the problem with sacrificing Shinnie now?’ ‘Why don’t you sacrifice yourself instead of Shinnie!’ Edward shouted angrily. Yannie glared at him and said, ‘I am an important family member. You all are just unimportant members.’ ‘You...’ Edward’s eyes suddenly turned scarlet, and his eyes were full of anger. There were many family members and relatives of the family in the room. When they heard this, their faces couldn’t help but change. Seeing that things were not going the right way, Nathaniel pulled Yannie down. He got up and said with a smile, ‘Uncle Edward, you think too much about this matter. It’s not as bad as you think. It’s a good thing that we let Shinnie join the Zhan family!’ ‘After all, the Zhan Family is the second largest family in South Hanover City, and they have a lot of power behind them. Even compared with our Sun Family, they are not too far behind. It is her fortune that she can marry into such a powerful family. After all, not everyone has the opportunity to be the young madam of the Zhan Family.’ Nathaniel’s shameless expression caused Edward to become even angrier. ‘You’re right. Who doesn’t know this? The Zhan family is really

powerful, but don't you know what kind of person Quintus is? He is a playboy with a strange temperament. Asking Shinnie to marry such a person is pushing Shinnie into the bottomless abyss to suffer, isn't it?' 'What's more, Shinnie is now an adult. She has her own ideas, and who she has feelings for. You can't force her to marry someone she doesn't like,' Edward roared angrily, Shinnie also sobbed and said at this moment, 'It's, it's not that I don't want to contribute to the family. It's just that I don't like that person, and I don't want to go to the Zhan Family.' Edward's roar and Shinnie's faint sobbing suddenly caused the atmosphere in the room to tense up. Some of the members of the Sun Family lowered their heads and looked sullen at this moment, contemplating the issue in their mind. At this moment, many people looked at Edward and Shinnie differently. They felt their pain. If this kind of thing could happen to Edward and Shinnie, then it could also happen to them. The sound of chattering broke the silence all of a sudden. Harvard, who was a senior in the Sun Family, noticed this and his face fell. He snorted and said, 'Everyone keep quiet!' All of a sudden, the scene simmered down. Then, Harvard glared at Edward and said in a deep voice, 'Edward, Shinnie, as members of the Sun Family, you are unwilling to contribute to the family due to your own selfish interests. Do you still think that you are right?' 'You have to know that the matter of contributing to the family is greater than the will of Heaven!' 'Now, I'll give you one last chance to accept the family arrangements. I can pretend that nothing happened just now. Otherwise..' Harvard snorted heavily, and his tone was pressurizing Edward's eyes were full of disappointment when he heard this. He shook his head and smiled, saying, 'I'm so stupid. I have been waiting for a long time, and I was hoping that you may

consider the benefits of having us as your family members.' 'I know that I am wrong now. In your eyes, we are not family members at all. We are just tools that you can use.' 'Tools!' Harvard frowned. 'I'm doing this for the sake of my family. You.. 'Don't spout nonsense!' Edward shouted and interrupted Harvard's words. He yelled, 'You're talking about the benefits for the family, but in fact, it's only the benefits to the important members. You intend to sacrifice the interests of other unimportant members for the family and for yourself. I want to ask you, do you think that we don't belong to this family? Are our interests still considered to be part of the interest of the family?' Hearing such shouting words, Harvard's face also changed. Many members and relatives of the family shifted their expressions at the moment. As they thought about Edwards words, the expressions on their faces kept changing..

Chapter 335

Seeing how bad the situation was turning out, Susanna Yang stood up and pointed at Edward Sun, saying, 'The main members of our family have made greater contributions to the family. Naturally, our interests should be guaranteed first. As for the unimportant members, they have lived by the generosity of the Sun family for so long. Isn't it normal for you to repay us now?' 'Normal?' Edward sneered. 'I don't deny that the Elder has made outstanding contributions to the development of the family. But I would like to ask you, are the so-called contributions of the

important members of the family really that big? 'Isn't Yannie twenty-six years old this year? Ever since she graduated from college, has she worked in the family's company or even help deal with the family's internal affairs? No. After graduation, she returned home. She ate, drank, and was waited on by the servants every day. She purchased truck loads of cosmetics and skin care products, spending millions of yuan.' 'My little Shinnie, who hasn't even graduated yet, is already helping out in the family company. Even if she isn't an official employee, she tries not to trouble the servants at home, and tend to her own matters. I wish to ask you, is your contribution really greater than ours?' Yannie Sun heard him and her face suddenly turned pale. She quickly explained, 'You're just spouting nonsense, didn't act this way!' Nathaniel Sun immediately got up and tried to explain, 'Yannie has been helping me to do business. She is one of my private secretaries. You may not see her contribution, but there is no denying it.' Edward sneered and said, 'Your secretary? Let's not talk about Yanni first. What have you done yourself? Three years ago, with his position, Harvard gave you 50 million yuan for you to start a company. In the end, you lost all the money. After just one year, you took out 30 million yuan again to make an investment. However, you still lost everything.' 'As for the other relatives and members of the family, such as Sammie, who worked hard in the family's company and won the top position three times, he only got the position of deputy director. Don't mention investments of huge amounts, even his application for prioritizing his work in the family was rejected as well.' 'Is this the business you are talking about? Is this your contribution to the family?!' Edward said. Nathaniel's face fell, and he wanted to defend himself. But at this time, Harvard Sun shouted directly,

‘That’s enough, Edward. I know that you have a grudge against the family, but you have to stop making up nonsense.’ He directly ordered him to stop speaking on this topic, because the more Edward went on the more unstable the people in the family would become. If he didn’t control this, it would very likely cause internal conflict in the end. Edward was speaking the truth. No one had called out these matters before, as perhaps they were used to it, so it seemed normal to them. But at this moment, when he exposed these facts directly, many family members and relatives felt that it was indeed unfair, so they started to think about the matter. ‘Tell me, what are your intentions here?’ Harvard stared at Edward and said coldly. ‘Are you changing the subject? Have I hit a nerve, and are you afraid now?’ Edward sneered and said disdainfully. Then he looked on as Harvard’s expression darkened and he said coldly, ‘Well, since I have decided to leave, there is nothing more to say. Your Sun family can do whatever you want! Your lives have nothing to do with me anymore. I declare now that our family will officially leave the Sun family.’ Many people knew that Edward wanted to leave the Sun family. But at that moment when he officially announced this, many were still shocked. The moment Edward finished his sentence, he felt relieved and relaxed. He turned around, smiled at Shinnie and said, ‘Let’s go!’ With this, they turned around and were about to leave. But at this moment, Harvard shouted coldly, ‘Wait, are you going to just leave like this?’ Edward stopped and looked back at Harvard. He sneered and said, ‘Master of the Sun family, what’s wrong? I can’t even leave the Sun family now?’ Harvard said in a deep voice, ‘You can leave the Sun family, but Shinnie must stay.’ ‘What are you talking about?’ Edward’s face changed and he said in a low voice, ‘That is impossible!’ Harvard

pounded the arm of his chair and said in a deep voice, 'The marriage of Shinnie and Quintus has been decided. This marriage can't be changed. It must go on.' 'This matter is what you've planned and tried to accomplish. Little Shinnie and I have never agreed to this,' Edward shouted. 'This is the decision of the family. It's not up to you to disagree,' Harvard shouted. Edward was so angry that his cheeks turned red. He said coldly, 'We won't agree to this. Are you going to force us then?' With this, Edward took his daughter's hand and was ready to leave. But Harvard shouted, 'Hurry! Stop Shinnie!' Suddenly, with a loud sound, many family servants rushed out and stood in front of Edward and Shinnie with stern expressions. 'You.. you've gone too far,' Edward said. He turned around and glared at Harvard angrily. Harvard was expressionless and he said coldly, 'The rules of the Sun Family will not be violated! Get Shinnie!' As soon as he finished speaking, several servants suddenly rushed toward Shinnie, At this moment, a faint voice sounded. 'Such a large family, trying to bully a young girl. Where's your shame?' While they were talking, a figure appeared out of nowhere. 'Pap, pap'. He knocked down several servants and then appeared in front of Shinnie. The crowd was shocked when they saw the figure, and their faces were filled with shock. Nathaniel, Yannie, and Harvard had extremely resentful expressions on their faces. Nathaniel gritted his teeth and said, 'Fade, it's you!' Yannie said ruthlessly, 'Fade, how dare you come to our Sun Family's residence!' Harvard's expression darkened and a sense of shame and anger welled up in his heart. The incident where he was hurt by this guy at home some time ago was still vivid in his mind at the moment, like a movie appearing in front of him. At once, Harvard shouted in a deep voice, 'Fade, this is our Sun Family's business. Do you

want to intervene in this matter?’ Fade Chen said lightly, ‘Shinnie has already left the Sun family. She is no longer a member of your family, but my sworn sister. As her brother, you have bullied her, so I will naturally show up here.’ ‘You... you really want to go against our Sun family!’ Harvard said, and he glared at Fade. At this moment, he was both angry and a little worried. After all, when he had fought with Fade the last time, he had lost. The boy in front of him was actually a Black level master. But now, the Elder had not returned yet. If he really fought with him, it would be a bit troublesome. Fade sneered when he heard this. He stamped his feet and a wave of inner energy spread out, sweeping across the entire room. Then, Fade shouted in a clear voice, ‘Let me ask you, is the Sun Family really planning to go against me?’.

Chapter 336

‘You..’ Harvard Sun’s expression changed greatly, and the expression on his face became ferocious. He clenched his fists so tightly that he couldn’t wait to rush up and fight Fade Chen, but he couldn’t move his feet. Seeing this, Fade sneered and then said to Shinnie Sun and Edward Sun, ‘Let’s go!’ With that said, the three of them turned around and went out the door. Seeing that the three of them were about to leave, Harvard, Nathaniel Sun and the others’ eyes suddenly became gloomy. It was a great shame for the Sun family for their people to be taken away by an outsider just like that. His anger and thirst for vengeance caused Nathaniel to be unable to tolerate the situation any longer. He shouted,

‘Come on now. Let’s fight together. Kill them both, except for Shinnie!’ Suddenly, there was a loud noise surrounding them, and more than a dozen martial- artists rushed over. Many of them were at the middle and late stage of the yellow level. It was obvious that these people were the backbone of the Sun Family. In an instant, rays of energy from their palms and their cries surrounded Fade and Edward. Edward didn’t have much skills in the martial arts, so his expression couldn’t help but change when he saw this. Shinnie was also scared, and her pretty little face suddenly turned pale. Seeing this, Fade smiled faintly and said, ‘It’s okay. I’m here. They can’t hurt you!’ While speaking, Fade waved his hand, and a red flame rose directly from his hand, forming an arc. Then, it suddenly spread out. A strong burst of fire suddenly knocked all the warriors down to the ground. More than a dozen members of the Sun Family, who were strong and skilled, fell to the ground at the same time. They started groaning and wailing. In an instant, they had lost their will to fight. Then, Fade looked coldly at Nathaniel and said in an icy tone, ‘Didn’t you just say that you wanted to kill me?’ Nathaniel felt a chill all over his body and he shivered. He couldn’t help but take a few steps back and said, ‘, I didn’t.’ ‘Humph! At this time, you are still lying! It seems that I have to teach you a lesson, Fade snorted. He stretched out his right hand, curled his index finger and middle finger, and turned them into the shape of a sword. A blast of light burst out and he directly slashed in the direction of Nathaniel’s legs. When Nathaniel saw this, he couldn’t help but turn pale with fright. He quickly launched several rays of inner energy to block Fade’s attack. At the same time, he retreated in a hurry and shouted, ‘Dad, save me!’ Although Harvard knew that Fade was powerful, he didn’t expect such power from him. With

just one move, he had defeated all of the clan's strength, and even attacked his son. 'Stop!' he said. At this moment, he had come to his senses. Seeing what was happening, he couldn't help but shout, and then he rushed toward Fade. But his movements were still too slow. Fade formed the shape of a sword with his fingers, and inner energy surged. The energy turned into a sharp sword, which came over directly, smashing Nathaniel's inner defense in an instant, and then sliced his legs. With a crackling sound, the bright sharp sword slashed through Nathaniel's legs instantly, cutting his legs as he tried to escape. His body lost support, and he fell heavily to the ground. Blood gushed out, and then there was a miserable scream. Harvard instantly became furious. He stared at Fade with scarlet eyes and shouted coldly, 'You'll pay with your life!' Susanna went berserk. She hugged her son, and she was distressed. She glared at Fade with an angry expression, and her eyes were full of scarlet light. She said resentfully, 'Harvard, kill him. I want you to kill him! He hurt Nate. Kill him for me!' Harvard roared angrily. It was as though he had turned into a ferocious tiger, and he threw himself at Fade with a fierce look on his face. He seemed to exert all of his strength every time he attacked. His inner energy, which was at the early stage of the Black level, burst out and suddenly transformed into a strong force, surging rapidly within the house. With the sound of crackling in the air, he rushed madly toward Fade. Seeing this, Fade stood on the ground in an indifferent manner. With a cold light on his face, he looked up to meet Harvard's attack. Harvard's attack was extremely fierce, but Fade only flicked his fingers lightly and countered his moves gently. In an instant, Harvard's attack was defused. Finally, he launch his palm at Harvard, and a strong wind suddenly blew toward Harvard like an incoming

brick wall. This move directly smashed everything in its way, and then Harvard was slammed into the wall with a loud sound. Harvard felt as though his body had been pressed by a mountain. His bones were broken, his internal organs were damaged, and breathing become difficult for him. Streams of blood gushed out of his mouth. Harvard was defeated in one move again. The Sun family members' expressions in the room could not help but change at this moment, and their faces were full of horror. They couldn't help but step back, and they were frightened out of their minds. Fade shook his head, put the back of his hand away, and then stepped forward, ready to leave. At this moment, Susanna looked at her son whose legs were cut off and her husband, who was seriously injured. She went completely crazy. She waved her hands and rushed toward Shinnie like a maniac, saying, 'I will kill you, I will kill you, you bitch. It's all because of you that my son and husband has become like this. I will tear your face apart.' At this time of madness and anger, Susanna still retained some sense of rational behavior and knew that it was impossible for her to defeat Fade. Therefore, she targeted Shinnie. However, she didn't expect that this would cause Fade to become angrier. Seeing her in this state, Fade snorted. He stretched out his hand and pulled Shinnie into his arms to avoid Susanna's madness. Then, he reached out his hand and slapped Susanna directly, sending her flying. Then, Fade looked around and looked at the Sun family. He said coldly, 'Anyone else?' Upon hearing this, everyone quickly lowered and shook their heads. They did not dare to look into Fade's eyes, let alone make any sound. Seeing that no one responded, Fade snorted and turned to leave. One person against the whole family! This was truly shocking! Just as Fade was about to walk out of the room, everyone heard the sound

of footsteps moving quickly toward them. It seemed that a lot of people were coming here. When everyone saw this, they couldn't help but look puzzled. Then, everyone couldn't resist looking at Harvard, as if they were wondering if he had asked for help. But at this moment, Harvard spat out a mouthful of blood, and his face seemed doubtful. Obviously, he was not aware of the reason behind the sudden appearance of these people. 'Master, Master..' Just as everyone was confused, a servant rushed in. As soon as he noticed the scene in the room, he was scared and froze on the spot. He didn't know what had happened. Harvard asked weakly, 'What happened?' After hearing Harvard's voice, the servant suddenly came to his senses and quickly said, 'Master, Master Quintus has brought a team here. They said they were going to deal with Fade.'

Chapter 337

Harvard Sun's face lit up when he heard that. But when he saw that Fade Chen was still standing at the door, he didn't dare to say anything. He could only say, 'Alright then!' At this time, Edward Sun and Shinnie Sun were stunned and looked nervously at Fade. Fade's eyes darkened and he said coldly, it seems that haven't given Quintus Zhan enough lessons yet.' 'Let's go, I'll go outside and meet him now!' Fade said. He strode out, with Edward and Shinnie following him closely behind. In the living room behind him, Harvard and the others saw Fade leave and heaved sighs of relief. Then, when they thought of Quintus's appearance, they

couldn't help but smile and whispered to themselves, 'Master Zhan has brought some people here. That fellow is finished.' Some of the family members were still a little worried and said, 'Fade seems to be very strong. Can Master Zhan defeat him?' Before Harvard could speak, Susanna Yang's eyes were full of resentment, and she said, 'Master Zhan is no ordinary person. His ancestors all come from the military, and they practice authentic assassination skills. Even if they are now separated from the military, they have a profound relationship with the army, and their strength is not weak.' Hearing this, the Sun family members heaved sighs of relief and seemed to be in better states. Harvard added with a gloomy face, 'Besides, even if the people brought by Master Zhan are not strong enough, they have high statuses, and Fade can't do anything to them. They are people with military backgrounds or bureaucratic backgrounds. No matter how strong he is, he wouldn't dare mess with officers, would he?' Hearing the master's words, the Sun family members, who were immersed in great shock and fear, felt relieved at this moment, and their moods seemed much better. Harvard gritted his teeth and said, 'Count the number of people here. Let's go out and have a look.' Susanna said fiercely, 'After Master Zhan has won, we must beat him to death. We must avenge Nate.' While they were talking, Fade walked out of the door of the Sun family's residence with Edward and Shinnie, only to see that forty or fifty people were gathered at the door. Although these people were wearing casual clothes, their neat queue, fierce eyes, and motionless postures all showed that they had undergone rigorous military training, and at a glance, they were all people that had trained in real combat. In front of this group of people, Quintus was sitting in a wheelchair, with a bandage on his lower body and

his eyes full of resentment. He stared at Fade fiercely, gnashed his teeth and said, 'You left me less than a man. Therefore, I will take your life!' Fade looked at him coldly and said in an icy tone, 'It seems to me that the punishment that I gave you before this was too light. I have to remove more from your body!' His words struck a nerve with Quintus, causing him to become instantly furious. He gave the order and shouted, 'Go ahead! Kill him! Hit him hard!' In an instant, all these people took action. Looking at their movements, they were trained very strictly. They cooperated with each other in a professional manner. Almost in the blink of an eye, they formed a circular line and surrounded Fade. One of the captains shouted. In an instant, a team of five people attacked Fade. The wind coming from their fists was violent, and the first blow was aimed at a vital part of his body. It was definitely a move aimed to kill him. As soon as the attack began, the captain gave another order. A team consisting of five men with daggers in their hands rushed out and fiercely attacked Fade's vital parts. When Fade saw this, he stretched out his hand and patted it. Several beams of light surged out, stirring up a strong force, which directly sent them flying. But it was obvious that this group of people had rich combat experience. After a small team was slapped away, the rest of the teams immediately replaced them, and they launched continuous attacks on Fade. At this time, when Harvard and the others came out of the room and saw such a scene, they couldn't help but smile in happiness. They gritted their teeth and said fiercely, 'Beat him. That's good. Strike him hard. Eliminate Fade.' 'The Zhan family is indeed worthy of their reputation. Although they are not from the martial arts circle, their strength is not inferior to any other martial-arts family!' 'This engagement with the Zhan Family must not be broken, The Sun

family commented with joy. At this time, Quintus also felt the pleasure of getting revenge. He was so excited that he wanted to go forward and hit Fade severely. At this moment, Fade looked at the people who were besieging him. His eyes turned cold and he said coldly, 'I'm going easy on all of you only because you are soldiers. However, since you chose to work for these kind of people, don't blame me for going all out!' As he spoke, a strong gust of inner energy suddenly burst out from Fade's body. It roared like wind and directly blew away several attackers who were close. Before they could steady themselves, Fade jumped up high and raised his arms. His inner energy turned into a huge curtain and fell from the sky. Then, there was an explosive crash. This huge curtain fell from the sky and pressed down on these 50 people. It was as if they had been smashed by a heavy hammer. In an instant, many people felt a blast on their chests. They spat out mouthfuls of blood and their faces turned pale. They stumbled and fell to the ground. All of them could not stand still anymore. Just like that, all of the forty to fifty people had lost their abilities to fight. Witnessing this scene, the members of the Sun Family, who were smiling at the door, felt their emotions changing dramatically. They couldn't help but take a few steps back, and some timid people even ran straight back into the house. As for Quintus who was excited just now, when he saw this, his expression was completely stiff, and he couldn't believe what was happening in front of him. It was not until Fade walked toward him coldly that he suddenly came to his senses and showed a horrified look. He patted the wheelchair and shouted in a hurry, 'Hurry up, take me away, hurry!' However, before the person next to him could make a move, he was directly sent flying by one of Fade's slaps. Then, Fade looked at Quintus coldly. He pointed his

fingers into the shape of a sword, and a ray of light appeared on his fingertips. He gestured toward Quintus's body and said in a frosty voice, 'What do you think? What should I cut off this time?' Hearing his words, Quintus trembled and waved his hands in horror, saying, 'No, don't. I, I was wrong. I won't dare to do this again.' Fade shook his head and said coldly, 'For some people, verbal promises are not effective. We must allow them to see some blood. Only then will they know what powerful people they are facing.' While speaking, Fade's eyes fell on Quintus's ears, and the light on his fingertips shook around his ears. He said, 'If you won't listen to me, it's not very useful for you to keep your ears. I'll help you to remove them!' Quintus was shocked and he shouted, 'No, don't!' However, by the time he spoke, the light on Fade's fingertips had started to move. At this time, the sound of a screeching car wash accompanied by the sound of a gunshot. 'Stop!' someone yelled. Hearing this sound, everyone turned their heads and saw a military green jeep coming toward them. A serious-looking man in his forties leaned out of the car window, holding a gun in his hand. He pointed it at the sky and shouted..

- **Chapter 338**

The green military jeep suddenly braked and stopped beside Quintus Zhan. The serious-looking middle-aged man jumped out of the window and stood in front of Quintus with a gun in his hand before the car could become steady. He asked with some concern, 'Master Zhan, are you alright?' When Quintus saw the man here, he immediately heaved a sigh of relief and said, 'Captain Huang, you are here. Stop him, he wants to kill me!' Captain Huang's gaze immediately froze. He looked at Fade Chen and said sternly. 'You're the one who wants to kill Master Zhan?'

While they were talking, the sound of rapid braking came from behind Captain Huang. Several jeeps came roaring over, and dozens of young men with serious expressions came down. They were all soldiers. Captain Huang waved his hand, and this group of people immediately surrounded Fade, with fierce looks in their eyes. They seemed like sharp arrows that were about to be unsheathed, and they were ready to launch into a deadly attack at any time. Captain Huang's eyes became even colder. He stared at Fade and shouted coldly. 'I'm asking you a question right now!' Fade did not answer him. Instead, he looked at the middle aged man and frowned. He said coldly, 'Are you all soldiers?' Captain Huang snorted and took out a certificate. He waved it in front of Fade and said arrogantly, 'I am Yigor Huang, the Commander of the Special Warfare Group in Jiangnan District, and these are my soldiers.' 'Since you are soldiers, then you are army members in charge of defending the average citizens. Since when did the Special Warfare Group become a private armed force of the Zhan family? Or are you going against the rules?' Fade shouted coldly. Captain Huang's eyes darkened when he heard this. He yelled sternly, 'Kid, you're quite sharp-tongued!' 'However, You don't know that Master Zhan is not an ordinary person. He is a soldier and has the rank of a major,' Yigor sneered and said. 'Therefore, if I protect Master Zhan, I am protecting the chief as well. It is no more than a regular matter,' he added. 'You dare to attack the chief of our army. This criminal and law-breaking behavior of yours is the reason for us to prosecute you!' Yigor threatened Fade, with a fierce look in his eyes. However, at this moment, Fade did not show any fear after hearing these words. He just nodded slightly and said, 'I see! It turns out that this guy is only a nominal officer.' 'I think that having this kind of person in the army is

simply an insult to the reputation of the army,' Fade said disdainfully 'Come and arrest him.' Yigor commanded. His eyes darkened, and they were filled with anger as he gave the order. Suddenly, more than a dozen people surrounded Fade and were about to take him down. Seeing this, the Sun Family members who went out to watch the fight suddenly showed a happy look of revenge on their faces. 'This is great, they're going to arrest scoundrels like Fade !' 'Humph, let's see how arrogant he can be!' 'He's looking for death! Who told him to provoke Master Zhan? He is a fellow who is good for nothing !' 'I think he won't take action! After all, he can't fight against those people?' 'Take action? I am still looking forward to see him take action. You know, he is facing soldiers from the military. If he takes action, it means that he is declaring a war against the army. No matter how strong he is, how would he dare take the risk and commit such a huge crime?' 'That's right. Even if Captain Huang and the others are not powerful enough, their identities are not something that can be ignored by anyone. Isn't this the advantage of having a bureaucratic identity?' The Sun family discussed excitedly. At this time, Yigor's subordinates had gathered around Fade and were about to take action Fade snorted coldly and raised his arm to strike the soldiers around him. They were pushed backward. Then he snorted again and walked toward Quintus. Upon seeing this, Captain Huang shouted angrily, 'How dare you attack us!' Then, he raised the gun in his hand and pointed it at Fade. Seeing this, Fade's eyes turned cold. With a flick of his right hand, his movement directly turned into a beam of light and he grabbed the pistol in Captain Huang's hand. Then, he pinched it slightly and threw it to the ground. Captain Huang and the others looked down and saw that the solid pistol had turned into a deformed piece of

scrap iron. They couldn't even see the shape of the pistol at all. Seeing this, he couldn't help but be shocked and took a few steps backward. As for Fade, he walked toward Quintus, put his fingers together, and a ray of light burst out. He chopped down on Quintus left ear with a loud crash. Suddenly, a miserable scream rose up to the sky, and blood gushed out. Quintus covered his ears and let out a blood curdling scream. He fell down from one side, and the wounds between his legs became exposed. Blood oozed out, and the bandage was dyed red. Captain Huang's expression turned extremely gloomy and shocked when he saw this. His voice was like coarse sand as he glared at Fade and said, 'How dare you injure Master Zhan? You will pay with your life' 'All of you, prepare for battle and load your guns!' Captain Huang shouted and ordered. Suddenly, with a crashing sound, dozens of guns were aimed at Fade, and the atmosphere suddenly became tense. The Sun family saw this, and they were just shocked by Fade's sudden attack. At this moment, they couldn't help but smile. 'I didn't expect that guy to be so stupid. He really did it!' 'He has a death wish! He's trying to get himself killed! Captain Huang has said that Quintus is an active commander with the rank of major, and it's stupid of him to take action 'Now, I'd like to see how he'll end up!' 'No matter how strong he is in the martial arts, does he dare to confront the army? Hehe.' 'It's a pity that our Sun Family won't be the one to kill this guy, otherwise, humph!' With the sarcastic remarks of the Sun Family and the furious gaze of Captain Huang, Fade looked at Captain Huang and said blandly, 'Do you want to arrest me?' Captain Huang snapped, 'You deliberately hurt innocent soldiers and disrespected the army. Not only are we going to arrest you, but we're also going to bring you to justice and send you to the military court.' 'Is that so?'

Quintus transferred armed forces illegally and attacked me too. Why don't you investigate him as well?' Fade asked faintly. Captain Huang shouted coldly, 'That's not true. Don't try to weasel out of this. You'll surrender immediately, or we'll shoot you.' 'Shoot me?' Fade shouted coldly with his eyes darkening. Then, he said coldly, 'You're just bullying the weak while fearing the strong. If he didn't have any special background, what kind of commander could he be? If he wasn't one of the Zhan family members, would you have sent so many fully armed soldiers to arrest a single person?' 'Now that you're trying to argue, there's no meaning to our discussion anymore. Get on the ground immediately and raise your hands above your head, or we'll shoot,' Captain Huang shouted. Fade shook his head and reached into his pocket. Captain Huang was shocked. He held another pistol and shouted at Fade, 'Stop! Raise your hands above your head!' Fade didn't pay attention to him at all and continued to stretch his hand into his pocket. Captain Huang gritted his teeth, pulled the trigger in his hand, and the bullet flew straight at Fade..

Chapter 339

The bullet flew with the sound of a whistle toward Fade Chen's heart and was about to penetrate his body. But in this moment, Fade stretched out his left hand, pinched the air with his two fingers, and actually caught the bullet easily. Witnessing such a scene, all the people present were stunned. They couldn't believe what they were seeing and couldn't help rubbing their eyes.

Captain Huang's face also changed dramatically in an instant, and the gun in his hand also trembled slightly. At this time, Fade finally took something out of his pocket with his right hand. Captain Huang was once again shocked when he saw this. He raised his gun and shouted, 'Prepare..' However, before he could finish speaking, Fade showed what he had in his hand and said coldly, 'Look at what I have in my hand clearly, and then decide whether you want to shoot or not!' Captain Huang took a closer look and suddenly trembled. His eyes widened and he was full of disbelief. He stuttered, 'You, you, you are also a soldier. A member of the Stealth Team, and also, a General.' 'So how? Do you need to check the authenticity of my badge?' Fade asked. Captain Huang shook his head quickly. As an experienced soldier, he certainly knew how to judge whether the badge was authentic or not. In particular, a special badge from the Stealth team was even more difficult to counterfeit. Therefore, as soon as Fade took out the badge, he could be sure that it was real. Captain Huang immediately looked embarrassed and nervous. He quickly put away his pistol, saluted Fade, and shouted, 'Greetings, Chief!' Seeing his soldiers still in a daze, Captain Huang quickly shouted, 'Why are you still in a daze? Come and greet the chief.' The soldiers then put away their weapons, stood up and saluted him. They said in unison, 'Greetings, Chief!' This time, the Sun family members who were initially ready to watch the drama unfold, became completely dumbfounded. They did not expect that Fade, who was confronted by Captain Huang's team, would have this badge. In a blink of an eye, his identity had changed and he was now a soldier of the army, and he had the rank of General as well, which was at least higher by one level than everyone on the scene. For a moment, the smiles on the Sun family members' faces were

completely frozen, and their laughter was stuck in their throats. They didn't know what to do, and their faces looked strange. As for Quintus Zhan at this moment, he looked at Fade with a pained and earnest expression, and his face was full of disbelief. Fade snorted and put away his badge. He glanced at Quintus coldly and said in an icy tone, 'People like Quintus will not remain in the army in the future.' Then, he turned to Captain Huang and said coldly, 'As for you, when you go back, report your mistakes to your superiors and prepare to be punished.' 'Yes, Chief!' Captain Huang and the others saluted and shouted, with their faces full of bitterness. Then, they dragged Quintus away and left quickly. Fade glanced at the dumbfounded Sun Family, then left the Sun Family, along with Shinnie Sun and Edward Sun. Just after Fade left, the Sun family fell into chaos. Harvard Sun was lying on the bed with injuries. He was still spitting out blood and unconscious. Young Master Nathaniel Sun's legs were cut off and he was still in the hospital for treatment. Even if he survived, he would be disabled and had no future left in the path of martial arts, In addition, the matter of Edward and Shinnie leaving the Sun Family had caused many other relatives to feel uncertain at this moment. They also harbored in their hearts the intention of leaving the Sun Family After all, half of the Sun Family had been destroyed by Fade, and the other half was still in chaos. Coupled with the unexpected identity of their opponent, Fade, who was also a Major in the army, this caused the Sun Family to feel even more afraid. Just as the Sun family was in a state of panic and chaos, A silver-haired elder, with a crutch in her hand, wandered back to the Sun Family's residence. Looking at the towering house of the Sun Family, the elder smiled and whispered to herself, 'Looks like I was worrying too much. She has been away for so long, and she

is likely to have died. It seems that the unusual movement of the jade pendant this time is just some accident.' 'Although it took a lot of time for me to go out this time, I am almost certain that she is dead and will never come back. I Francesca Sun, won't need to worry about her anymore,' she thought to herself. Thinking of this, the silver-haired elder couldn't help but reveal a hint of a smile at the corner of her mouth. Then, she thought of something again. With her eyes darkening, she said to herself in a cold voice, 'Since I'm back, it's time to settle the previous grievance. A young kid, with a jade pendant, was here at the Sun Family's residence causing trouble, and he even hurt my son and grandson. This is a great insult to the Sun Family, and my Sun Family will definitely reclaim our honor.' While they were talking, Francesca came to the front of the house. Suddenly, she felt that something was wrong. The door of her house was closed tightly in broad daylight. She could faintly hear the chaos and quarrels in the house, as well as the footsteps of many people. She could feel the discord inside the house. 'What's going on?' Francesca thought, and she frowned. She pushed the door open and walked into the house. Then, she saw the scene in front of her, which made her frown and show an expression of dissatisfaction. At this moment, many doors of rooms in the Sun Family's residence were opened, and some of the members of the Sun Family were fighting for the things in the house. Some of them were moving wooden chairs, some were holding the porcelain items from the Qing Dynasty, and some were even carefully scraping the gold foil on the candlestick and other items. Many of the quarrels were caused by the fight over these items. Some people even fought over these objects, and these issues caused the Sun Family to be in a state of chaos. 'What are you doing! Stop!' Francesca shouted. Her aging

voice suddenly sounded like thunder and exploded in everyone's ears. The members of the Sun Family, who were going wild and panicking, were suddenly shocked and stunned. Then, they turned to look at the silver-haired elder who had come in. Immediately, many people were frightened and they knelt on the ground. 'Elder!' 'Greetings Elder!' 'Elder, you're back!' Francesca glanced coldly at the people kneeling on the scene and said in a cold voice, 'Wait a minute. Go and punish yourselves first. I won't be the one to do this.' 'Yes, Elder!' Everyone said in unison. In front of this Elder, they didn't dare to rebel at all. Francesca, who was leaning on a crutch, came to the bedroom area at the back with a frosty expression. Walking into her son's room, Francesca saw Harvard lying in bed in a coma. Suddenly, her face fell. 'What's going on?' she asked. Susanna Yang, who was taking care of Harvard, turned her head and saw that the elder had return. She was shocked and then overjoyed. She knelt down on the ground and cried, 'Elder, you are finally back. You have to claim justice for Harvard and Nate! You have to claim justice for the Sun family. We...'. 'Don't cry. Get up and speak clearly!' Francesca frowned and shouted coldly..

Chapter 340

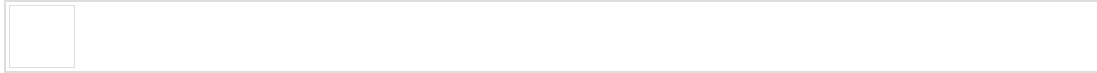

Susanna Yang told Francesca Sun the whole story while sobbing. Of course, Susanna exaggerated when she was describing how vicious Fade Chen was and how domineering he was to the Sun family. Francesca listened to Susanna and she was livid. After

Susanna finished talking, Francesca slammed her walking stick on the ground, smashing the solid tiles, Francesca was consumed by a strong murderous intent. Francesca's reaction sent shivers down Susanna's spine. Her teeth chattered in fear. Francesca calmed herself down when she realized that she had frightened her daughter-in-law. Then, she said coldly, 'Please go to the pharmacy and get me a few items. I want to cure Harvard's injuries.' 'Yes, Elder!' Susanna said respectfully. The whole residence of the Sun family was brightly lit throughout the night. After receiving treatment from the Elder, Harvard Sun was not in a critical condition anymore. Unfortunately, the two consecutive injuries had caused irreversible damage to Harvard's internal organs. It was almost impossible for Harvard to make any further progress in the martial arts. In fact, luck was on his side for him to be able to keep the previous strength that he had, which was at the early stage of the Black level. Even though the Elder had collected a lot of precious herbs, she couldn't do anything for her grandson, Nathaniel Sun. This was because Nathaniel's legs were cut off. Therefore, she could only stabilize his condition to reduce his pain. The Elder did not rest after dealing with her children and grandchildren. She held a family meeting on the next day. She even asked all the local and foreign supervisors of the Sun family to attend this family meeting. The Elder asked Susanna to tell them what had happened to the Sun family. After that, she told everyone about her decision before anyone could talk about it. She said coldly, 'These people hurt my son and grandson. Therefore, they must pay the price.' 'From now on, the Sun Family will attack the business of Fei Enterprises Holdings Inc, both inside and outside the city, at all costs,' The Elder continued. Many supervisors of the Sun family were shocked by this

decision. Both sides might suffer great losses from this fight. Although the Sun family was powerful, Fei Enterprises Holdings Inc had developed rapidly. Therefore, it was definitely not an easy task for the Sun family to attack Fei Enterprises Holdings Inc. It was highly likely that this would impact the Sun family negatively. However, this was an order from the Elder. There was no room for negotiation. Also, no one dared to disobey her. After that, the Elder glanced across the crowd and said in a low voice, 'At the same time, we must ask all the influential families in Long City to choose between Fei Enterprises Holdings Inc and the Sun family. They've no other choices.' The Elder continued, 'Well, I'll give them three days to make the decision. They'll become our enemies if they don't make any choice.' 'Also, please send a letter to Fade on my behalf. I want to challenge him for a fight at Green Peace Lake after three days.' After saying this, the Elder got up and left immediately before anyone could express their thoughts. Long City burst into an uproar as word on the decision of the Sun family spread out. All the upper-class people were agitated. They didn't expect that the Elder from the Sun family, who had been keeping a low profile, would suddenly get involved in the business field. Also, she wanted to attack Fei Enterprises Holdings Inc, which was now a famous company. Moreover, she would only stop attacking Fei Enterprises Holdings Inc when one side had lost. There was no room for any negotiation. The influential people in Long City panicked and did not know how to make the decision. Everyone saw the Sun family's determination when various chambers of commerce of the Sun family launched wave after wave of ferocious attacks. Therefore, they made a decision immediately. Most of them stood on the side of the Sun family. This was because the Sun Family was an influential family in Long City for many decades. Also, the Elder of the Sun family,

Francesca Sun, was the top expert in Long City. Fei Enterprises Holdings Inc had developed rapidly. Quin Lin, who was in charge of the business, was very talented. Also, Fade had great achievements in the martial arts. However, most people still felt that Francesca was better than Quin and Fade. Therefore, most of them chose to stand on the side of the Sun family. Various companies, especially those belonging to the Dai family, the An family and the Qian family from the Long City Enterprise Council felt anxious when most of the people had made their decisions. These three families were forced to join the Long City Enterprise Council recently after losing to Fade. However, there was a conflict between Fade and the Sun family again. They were forced to choose between Fade and the Sun family. This was a difficult decision for them to make. They would definitely choose to stand on the side of the Sun family without hesitation if this happened before they had joined the Long City Enterprise Council. However, the Long City Enterprise Council had just been established recently. They had invested a lot of manpower, material resources and financial resources. They were waiting to receive some rewards from this. Unexpectedly, the conflict between Fade and the Sun family had occurred before they could even receive any rewards from the council. Charles Wu, who had always been supporting Fei Enterprises Holdings Inc, didn't hesitate much. He was determined to stand on the side of Quin and Fade. Everyone in the enterprise council was panic-stricken. They all had different thoughts. Also, their businesses were attacked and suppressed. Quin was also busy in these few days. She had a lot of meetings. She was so busy that she looked haggard now. The business field had burst into an uproar. However, the martial arts circle was full of excitement because Francesca wanted to challenge Fade. One of them was an experienced master who had been famous for

decades. She was also the top martial arts master in Long City. On the other hand, Fade was new to the martial arts circle. However, his martial-arts skills had developed rapidly and he had never been defeated. This was a rare battle because it was really hard to tell who would be the winner. The martial artists from Long City and the other states nearby came to Green Peace Lake. This caused the villagers and merchants near Green Peace Lake to make a small fortune. They all started to make money from accommodations and restaurants. The government was alerted by this battle. Therefore, government servants were sent to the Sun family and Fei Enterprises Holdings Inc to make peace between these two parties. However, the Sun Family had a resolute attitude and had no intention of making peace with Fei Enterprises Holdings Inc at all. The government had no better way to settle this issue. Therefore, they could only increase the number of security measures at Green Peace Lake to make sure that things would not become worse. Fade was calm when Long City burst into an uproar. After receiving the letter from the Sun family, he did not make a public speech. He accompanied his wife, Quin, to hold meetings every day in order to appease his subordinates who were anxious. The heads of the Dai family, the An family and the Qian family had gathered in front of Quin's office at noon. They were very anxious and wanted to discuss with Quin regarding the enterprise council. They actually believed in the strength of the Sun family more. However, they had invested a lot in the enterprise council. Therefore, they had not made any decisions until now. Quin did not soften her attitude. She had already made things clear a long time ago. The most important thing now was whether they believed in Fei Enterprises Holdings Inc and Fade. They had to make their own decisions!.

Chapter 341

The three of them stood in front of Quin Lin's office. They looked at each other anxiously. Finally, the patriarch of the Qian Family hesitated slightly and took a step forward. He seemed to have decided on his choice. The patriarch of the An Family and the Dai Family both stared at him intently. At this moment, the sound of a faint yet clear voice was heard ringing beside everyone's ears in Long City. 'It is time now. Anyone who does not select the Sun Family will be seen as enemies of the Sun Family.' As soon as these words were spoken, the Qian Family patriarch, who was at the entrance of the office and ready to enter, couldn't help but tremble and almost fell onto the ground. At this moment, the patriarchs of the An Family and the Dai Family had also pale faces, and cold sweat oozed from their foreheads. They couldn't imagine how terrible it would be for their families to become the enemies of the Sun Family. Concurrently, many people found themselves in this dilemma everywhere in Long City. With the announcement of Francesca Sun, the Long City businessmen were completely divided into two halves. Those that chose to support the Sun Family could not help but heave a sigh of relief. Thinking of the benefits they had gained from this situation, they could not help but smile. As for those businessmen who did not choose to support the Sun Family, or were indecisive, they felt as though they had been struck down. This announcement had named them as the enemies of the Sun family. They felt dizzy and their faces were extremely pale. There were not many people who firmly

believed in Fei Enterprises Holdings Inc, or put their trust in Fade Chen. Even if they chose to do so, they had to accept certain defeat, because no one could believe that Fade would be able to defeat the elder of the Sun Family, the top expert in Long City just as the patriarchs of the An family, the Qian family and the Dai family were about to faint at the doorstep of Quin's office, the door opened. Fade walked out with ease, his hands in his pockets and whistling. Before leaving, he did not forget to kiss his wife and said with a smile, 'Honey, don't worry. Just wait for the good news of my victory!' After that, Fade glanced at the three people at the door. His body seemed to sway gently, and in a flash he had left swiftly and disappeared. Seeing Fade with such self-assurance, the three of them, who almost fainted, regained some confidence. At this time, as Francesca made the announcement, it seemed like she was declaring a war. The atmosphere at Green Peace Lake became lively and full of excitement. Incoming martial artists had gathered around the lake. The surrounding area was bustling with people. As they gazed at the vast lake, they were filled with anticipation and exhilaration. Looking around, one could spot many well-known martial artists and warriors from around town. At this time, they were all crowded around the lake. They were all ready to watch this rare battle, which happened maybe once in many decades. As the crowd continued to buzz, there was no lack of discussion about who would emerge victorious or who would suffer defeat. Some people even started to place bets on the winner. However, these bets were mostly one-sided. Ninety five per cent of the placed bets were people who were betting on Francesca's success. The remaining five percent were people who bet on Fade's victory. They were mostly people who wanted to increase the odds for

themselves in gaining some profit. After all, the odds of betting on Fade's victory were one to fifty. If someone invested ten thousand, it might turn into five hundred thousand if they won. Almost all the martial artists and warriors present did not lack in wealth. Therefore, there were some people who placed bets on Fade's victory. Of course, everyone was very rational and had calculated the risks. They put in around ten thousand each, or a few thousand, but none of them placed bets valued more than one hundred thousand in his favor. In a stark contrast, bets were placed on Francesca around the amount of a few hundred thousand, a few million, or even more than ten million. The amount of money placed on Fade paled in comparison. Some people couldn't help but tease the bookie who was involved, telling him that he would surely make a loss. The bookie seemed to take it in his stride. He said with a smile, 'When one gambles, there will be winners and losers. Anyway, if I knew exactly who would win or lose, I can't be a bookie right?' Although he spoke in a relaxed tone, the bookie still seemed rather worried.

According to the current betting statistics, Francesca had reached nearly one billion in placed bets, while Fade had only reached around two million. Although the amount which he needed to pay if Francesca won was considered low, he would still need to come up with more than one billion. Therefore, the bookie desperately tried to recruit people to place bets on Fade. 'Mr. Chen's nickname is Lunatic Chen, and he is great in skill and strength. Don't you want to place bets on him that he will win?' Unfortunately, no matter how frantically the bookie urged and persuaded the people around him, everyone still swarmed to bet on Francesca.

Suddenly, a group of young men and women clad in designer clothing could be seen coming over. With confident smiles on

their faces, they strutted with an air of exclusivity. At the sight of this group of people, the bookies's eyes lit up. This group of young men and women were all outstanding martial-artists of the younger generation. For example, the young man wearing red was Logan Huo of the Huo family. The woman with a pair of beautiful eyes was Naomi Ying, the daughter of Lord Ying. And behind them were many others who were upcoming young talents. They were all descendants of well-known families, so naturally they did not lack in wealth. Their similarity to Fade was due to the fact that they were all upcoming young talents. Perhaps they would appreciate this similarity and place bets on Fade to emerge the victor. As he thought of this, the boss couldn't resist calling out to them. 'Gentleman Huo, Miss Ying, everyone, would you like to have some fun and place some bets?' Upon hearing his voice, several of the young people glanced at each other and smiled. After discussing for a while, they came over. The boss was filled with joy. He quickly made his sales pitch, 'All of you are upcoming young talents of Long City's martial- arts circle. I am not sure of your opinion on this upcoming battle. Fade seems very young, just like you. His odds are not bad. Do you want to place bets on him?' Gentleman Huo, who was at their helm, interrupted the boss. He said with a smile, 'Boss, there is no need to try to make a sales pitch. Although Fade is powerful, he is no match for Francesca ,who is the top master of Long City. This time, he is bound to lose.' While speaking, he directly took out a bank card and said in a clear voice, 'I will place a bet of one hundred million that Francesca will win!' Hearing this, the boss was stunned. He originally wanted to recruit them to place bets on Fade to emerge victor, in order to reduce the loss for himself. But he didn't expect that they would place such high bets on Francesca. A hundred

million was a lot, and his loss instantly became steeper. Seeing the hesitation of the boss, Gentleman Huo said, 'What's wrong? Old Mr. Hu won't let us have fun and place bets?' With so many people present, Old Mr. Hu did not want to ruin his reputation. He could only grit his teeth and grimace. Even if it was a huge loss, he had to accept it. 'What are you talking about, Gentleman Huo? Since my small stall is open for business, you are considered my guest. Naturally, I will not refuse.'

Chapter 342

While speaking, Old Mr. Hu collected Gentleman Huo's bank card and then gave the receipt to Logan Huo. At the same time, he prayed in his heart that the rest of them would not bet on Francesca Sun anymore. Even if they wanted to, they should bet less! However, things went opposite to his wishes. As soon as Logan finished placing his bet, Naomi Ying, who was beside him, immediately took out a bank card and came over. 'Old Mr. Hu, I'll also pay 100 million to bet on Francesca,' she said. 'Hehe, 100 million yuan is money that I have saved for many years. This time, I'll put down all my money and earn some pocket money so that I can buy make up or something.' Naomi said with a smile. She was pretty certain of winning the bet she had placed on Francesca. At this moment, Old Mr. Hu felt like crying, but no tears appeared. The odds on Francesca were 1 to 1.1. That was to say, if Naomi placed a bet of 100 million and win, he would lose 10 million yuan. Although Old Mr. Hu smiled bitterly in his heart, he quickly

finished the procedures. As a result, the young masters and young madams behind them also placed their bets. Although they were not as generous as Logan and Naomi, they also bet tens of millions of yuan on Francesca. In the blink of an eye, the amount placed on Francesca was 500 million, pushing the total amount to 1.5 billion. However, the amount placed on Fade Chen was only two million in total. Old Mr. Hu made his own calculations. If this situation continued like this, he would lose almost 150 million yuan. Suddenly, his heart seemed like it was bleeding. The few of them, including Gentleman Huo, did not care about Old Mr. Hu's feelings. At this moment, they began to discuss about the battle with smiles on their faces. 'In my opinion, there's no point in this battle! Logan said. Naomi nodded and said, 'That's true. Fade is bound to lose He has no chance at all.' 'If it weren't for the fact that this was the first time for the Elder of the Sun Family to come forward in so many years, there wouldn't have been so many people.' 'Fade is too stupid. In order to gain fame, he actually agreed to fight with the number one master of Long City. He is looking for death!' These young masters and madams shook their heads with disdain. With their words, they looked down on Fade. Some people around them couldn't bear to listen to their words, and at this moment, they couldn't help shouting, 'Even if Fade is not as good as Francesca, he is not as bad as you say he is!' 'Yeah, after all, he is the famous Lunatic Chen from Bay City He defeated the Old Master of the Wan family. Other than that, the talented disciple of the Third River Clan, Yacob Cui, also died in his hands.' 'I even heard that Harvard Sun, the patriarch of the Sun Family, was defeated by him. That's why the Elder of the Sun Family is now challenging him now. 'For someone like him, his strength can't be underestimated!' Hearing the voices of the

crowd, Logan snorted disdainfully and said in a clear voice, 'Ridiculous, you actually took all these false rumors seriously. You all are so stupid!' These words immediately caused the faces of the people around him to fall, and they glared at Logan one after the other. If he was not the young master of the Huo family, many people would have beaten him up immediately at this moment. 'Why did you say that these news are rumors? Many people have spoken about it, and many people have witnessed these things with their own eyes. How could it be fake?' Someone asked discontentedly. Logan snorted, glanced at the crowd disdainfully, and said, 'There are many people who have heard of these things. Even if someone did claimed to have witness it, does that mean it is the truth? Are there not enough fake news?' Seeing that some people were still unhappy, Logan snorted coldly and continued, 'Tell me, how old is Fade? At most, he's less than 25. According to you guys, he killed Shancus Wan, killed Yacob, and even defeated Harvard. Then, it means that his strength has reached at least the early-stage of the Black Level.' The crowd nodded. Indeed, according to his battle history, Fade's strength should be at least at the early stage of the Black Level. Immediately, Logan laughed and said, 'A young man at the early stage of the Black Level who is less than 25 years old. Do you believe this? You have to know, we are already the top young talents in the province, and our strength is only between the late stage to the peak of the Yellow Level.' 'This..' Everyone couldn't help but be stunned. They looked at each other and then shook their heads. When Logan saw this, he smiled and said, 'You have no experience in this matter right? Don't even mention a twenty five-year-old Black Level master, if someone can reach the Black Level before forty years old, he'll definitely be considered a

genius.’ ‘Rumor has it that Yacob, who was killed in his 30s, was between the peak of the Yellow Level and the early stage of the Black Level. You have to know that he was a talented disciple trained by the Black Level masters of the Third River Clan.’ ‘A core disciple from such a powerful clan hasn’t even reached that stage yet. Do you think that Fade, who came from a small place like Bay City, possesses such strength?’ ‘Well..’ There was another silence. Even if they believed in Fade’s abilities, they couldn’t help but feel uncertain when they heard Logan’s words. At this moment, Naomi smiled and said, ‘Even if Fade has really reached the early stage of the Black Level as you said, who is his opponent now? The number one master of our province, Francesca, an elder who has reached the late stage of the Black Level more than a decade ago.’ ‘Even if she has not made any progress in the past ten years, do you think that Fade, who is at the early stage of the Black Level, can defeat Elder Sun who is at the late stage of the Black Level?’ ‘Moreover, it’s very likely that Elder Sun has reached the peak of the Black Level. Fade is certainly no match for her. Hearing Naomi’s words, the few people who believed that Fade still had a chance of survival were also disappointed. There was no hope for Fade to win at all. At this moment, some people who had placed bets on Fade felt like crying, but no tears appeared. It seemed to them that their money was wasted and they didn’t have a chance to get it back. Old Mr. Hu, who was next to them, also felt like crying, but no tears appeared, as he listened to their analysis. Initially, some people wanted to try their luck and placed bets on Fade to win, but after the analysis of Logan and the others, no one placed bets on Fade. Instead, many people added money to bet on Francesca to win. ‘It’s over, it’s over. This time, it’s going to be a big loss, a big

loss! Old Mr. Hu thought to himself. His heart was bleeding, but his reputation was on the line. He had to continue with his business. Just as Old Mr. Hu looked bitter while Logan and the others looked proud, suddenly, a burly middle-aged man strode over, took out a bank card, and handed it to Old Mr. Hu and said, 'I'll bet a hundred million.' Hearing this, the blood in Old Mr. Hu's heart began to flow. Another one hundred million on Francesca, and he would lose another ten million again. However, he had to continue his business. Old Mr. Hu wanted to cry, but no tears appeared. He took the bank card and said, 'A hundred million for Francesca to win, I'll give you the receipt. Then, just as Old Mr. Hu finished speaking, the man opposite him shouted, 'Boss, you got it wrong. I'm not betting on Francesca, but on Fade to win.'

Chapter 343

'What?' Old Mr. Hu doubted his own ears. 'Did you say that you were betting a hundred million on Fade Chen to win?' The people around him all looked at the burly man in surprise, with puzzled looks on their faces. The burly man nodded and said in a deep voice, 'Yes, I am betting 100 million on Fade to win. What's wrong? Can't I place a bet?' Old Mr. Hu was stunned, and then he was overjoyed. He quickly said, 'Yes, of course you can. I'll give you the ticket right away.' The excitement caused Old Mr. Hu's hands to tremble. After all, the hundred million yuan this person placed on Fade was bound to be a loss. He will make a hundred

million yuan just like that. Although it was not enough to make up for the loss of the placed bets on Francesca Sun, it definitely would help fill the large gap. It was absolutely good news for him, and that was why Old Mr. Hu was so excited. The people around him heard his words and could not help but try to dissuade him from this decision. 'Brother, don't be impulsive! Are you that silly to bet on Fade?' 'Yes, big brother. If you want to bet, you can do so for ten or hundred thousand just for fun. Do you need to bet such a huge amount? You will go bankrupt!' 'Brother, hurry up. Change your mind before the boss gives you the ticket! It's still not too late.' People in the crowd tried to persuade him one after the other, but the burly man was unperturbed. On the contrary, he said resolutely, 'No, I firmly believe that Fade can win. I'm sure that I'll make a lot of money.' When the crowd saw that they couldn't persuade him otherwise, they couldn't help but shake their heads and sigh in a low voice, saying, 'Another desperate gambler!' 'No matter how crazy a gambler is, they must at least see that they have a chance in the situation! There is no chance at all in this current situation. How can this be a good gamble? This is simply giving away money!' 'Just wait. In a while, he will be crying as he goes home.' Even Logan Huo and Naomi Ying, these talented young masters and madams, couldn't help shaking their heads at this moment. They looked at the middle-aged burly man with disdain and snorted, 'Stupid guy, you deserve to lose!' At this time, Old Mr. Hu had already processed the betting ticket and handed it to the burly man. He asked with a cautious look, 'Are you sure you want to bet 100 million on Fade? Don't you want to make any other changes? Once the ticket leaves my hand, you can't go back on your words.' 'I know!' The burly man replied. He simply reached out his hand and took the ticket. He flicked it in

his hand and then stuffed it into his clothes. He seemed to be quite cautious. Seeing this, everyone shook their heads and no longer looked at this stupid and crazy guy. However, what they did not see was the confident and joyful light in the eyes of this burly man at the moment, and the soft mutterings in his mouth. ‘Hmm, all of you are idiots. Mr. Chen’s strength is not something that you can figure out just like that. Don’t mention a Black Level master, even if an Earth Level master is here, they may not be able to fight against Mr. Chen, Francesca is bound to lose.’ If someone was familiar with him, they would realize that this burly man was Uncle Wei, or Jimmy Wei, who had defeated everyone in Bay City Due to Kevin Huang’s revenge, Jimmy knew that he was not strong enough and hadn’t experienced enough, so he decided to venture out into the world. Finally, after Fade had destroyed the Wan family, Jimmy then handed over Long Enterprise to his nephew, Tom Wei. He then ventured out into the world. During the period of his travels, Jimmy had broadened his horizons and enhanced his strength. Now, he had reached the peak of the Yellow Level, which was not far from the Black Level Just when all the people were discussing about the upcoming battle, Gasps were heard, and then the whole place quieted down. Suddenly, everyone’s eyes couldn’t help but look toward the same direction. Then, everyone saw the crowd making way and splitting into two sides. An old woman with silver hair and a walking stick was walking slowly toward the lake, step by step. When the old woman passed them, everyone became silent all of a sudden. Everyone gazed at the woman who looked like an ordinary old woman in front of them, but they did not dare to make any sound. In the old woman’s seemingly weak body, everyone could feel a sense of a majestic and powerful aura surging. This inner energy

caused them to feel excited and fearful, and this aura was the reflection of Francesca's strength. Therefore, everyone observed Francesca quietly as she walked toward them step by step. She walked all the way to the lake, but her footsteps didn't stop, as she stepped directly into the lake. Seeing this, everyone could not help but squint their eyes, as if they were worried that the old woman would fall into the water and drown. In everyone's view, the old woman's footsteps were on the water. She did not sink at all. Even her walking stick still seemed to be just like how it was on the ground. She walked forward step by step, as if she was walking on solid ground. Witnessing this scene, everyone could not help but gasp, and their eyes were full of shock and envy. 'How, how did she do that?' 'Could it be that this is the unique technique of floating on the water?' 'Obviously, it's not the unique technique of floating on the water because the technique allows one to float over the water at a very fast speed, and you just have to utilize your muscles in your body to do it. Many Late-stage Yellow Level masters can do that. However, Elder Sun's technique is obviously different. She is moving slowly on the water step by step, which is much more difficult.' 'How, how does she do that then?' 'Look, there seems to be a layer of inner energy surging under Elder Sun's feet.' As someone said this, everyone immediately narrowed their eyes and looked at Francesca's feet. As expected, they found that there was a layer of energy under her feet, forming a wall and holding her body on the water. This method sounded easy when explained. However, it was extremely difficult to accomplish. After all, to hold yourself up on water like this, one had to save up a lot of powerful inner energy. Moreover, it was also extremely difficult to control inner energy in the form of air and form a solid wall. Then, under

everyone's gaze, Francesca walked step by step to the island in the middle of the lake. On the island, Francesca sat cross-legged on the grass and began to close her eyes to rest. The quiet crowd just now began to chatter in low voices at this moment, and they were discussing the amazing entrance of Francesca. Time went by, and five minutes passed. Ten minutes passed, and fifteen minutes passed. The scene was still quiet, and no one could see Fade at all. Then, there was a buzz of discussion on the scene. But this time, the topic of discussion was about Fade. 'What's going on? Why hasn't Fade arrived yet?' 'Elder Sun, the number one master in Long City, is already here. A junior like him is still being a poser. Damn it!' 'In my opinion, perhaps he's scared and has escaped.' 'That's very likely to be true! After all, maybe he got used to being pretentious, but became scared to death when he saw the current situation.'

- **Chapter 344**

The crowd was getting more and more impatient, and some people even started to curse Fade Chen. Even Francesca Sun, who was on the island in the middle of the lake, opened her eyes at this moment. She looked into the distance and frowned slightly. Just when everyone's dissatisfaction was about to reach its peak, there was a stir among the crowd. Then, they heard a young person's voice shouting, 'Excuse me! Excuse me, I need to go in!' 'I'm sorry, brother. Please let me pass.' 'Brother, I'm not here to jump the queue and squeeze in. I'm here to compete.' 'Really. I'm not kidding! I'm Fade!' The crowd listened to the conversation, and passing through the chaotic crowd was a young man in casual clothes in his twenties. At this moment, he was squeezing around in the crowd and explaining something to the people next to him

All of a sudden, the people on the scene were completely dumbfounded 'Is that a troublemaker?' 'He said that he is Fade. Is that true?' 'How could this guy be Fade? At least, Fade should be a master at the peak of the Yellow Level!' Amidst the doubtful voices, someone displayed a photo with their cell phone and said with certainty, 'I'm sure that he is Fade. It's really him!' 'Yes, it's him. I'm also sure. I've seen him before. Let him in!' Upon hearing the shouting in the crowd, those who were skeptical about this made way for Fade to squeeze in. At this moment, everyone looked at Fade, who was soaked in sweat and dressed in casual clothes, looking like an ordinary college student. Their eyes were full of doubts and disbelief. 'Is, is he really Fade?' 'Don't even mention the Black Level, Do you think that he knows any martial arts?' 'Are you kidding me? How could a person like him compete with Elder Sun? That's a complete insult to Elder Sun!' Fade didn't pay attention to what they said at all. He looked at the island in the middle of the lake and confirmed to himself that Francesca was there. He nodded and said, 'It's a good place to fight. The view is clear and it's convenient for fighting.' As he spoke, Fade strode toward the lake and then walked into the lake. The crowd saw this and could not help but be shocked. 'Does Fade also want to use the technique that Elder Sun used?' 'Has he reached that level? Don't fail and fall into the water later. He will be a laughing stock.' 'No matter what, the atmosphere of his entrance was way worse than Elder Sun's. He's not at the same level at all!' While the crowd was discussing this, Fade stepped into the lake. Then, with a crash, half of Fade's leg stepped into the lake. All of a sudden, the people at the lakeside were speechless. Some of them covered their eyes and couldn't bear to see what was happening, 'F*ck, I was worried that he would know

Elder Sun's technique. It turns out that he is planning to swim there!' 'Is Fade a clown who is here to have fun?' 'Is he here for the martial arts competition or here for the circus?' 'Even if he uses a boat, it's still better than being in such a sorry state! While the crowd was talking about this Fade was still moving forward in the water. His legs were almost fully immersed in the water, as he moved forward with difficulty. At the lakeside, the disdainful Logan Huo, Naomi Ying, and the other talented disciples looked even more disdainful when they saw this. 'It seems that I have overestimated Fade just now. Initially, thought that he would at least have the strength of the late stage of the Yellow Level. But now it seems that it would be good enough if he was at the middle stage of the Yellow Level.' 'Haha, now you understand. Fade's so-called reputation and battle history are all a hoax.' 'It's a pity that we were named with him as the top ten young talents of Martial Arts in Long City just now. Now that seems like a complete insult to us.' 'There's no need to watch anymore. The result has been decided a long time ago.' 'Old Mr. Hu, get the money ready now. There will be too many people waiting to redeem their earnings, and we will have to queue up later,' Someone shouted to Old Mr. Hu, who was managing the bets. Old Mr. Hu's face was livid, and he couldn't wait to close the stall and run away. He thought that Fade would lose, but he didn't expect that Fade would be so weak, and so much worse than Francesca. The whole time, the surroundings were filled with disdainful laughter, sarcastic booing, cursing rage, and shaking of heads. It seemed that only Jimmy Wei, who was squatting next to the stall, was staring at Fade in the lake at this moment. With a smile on his face, he sneered, 'These short-sighted people don't know how to observe the situation, but have already started to

judge him indiscriminately.' 'Mr. Chen's technique is even more brilliant than Francesca's' Jimmy thought to himself. He stared at Fade's legs, and the light in his eyes became brighter. He seemed extremely excited. At this time, Fade had achieved half the distance from the island and was about to arrive at the island in the middle of the lake. Amidst the chaotic crowd, some masters finally realize something unusual and gazed at Fade with a frown. As they stared intently at him, their faces immediately shuddered, and then they became extremely shocked. In disbelief, they stared at the somewhat thin young figure in the water. They had discovered that half of Fade's thighs had seemingly sunk into the water as he was swimming toward the island in the middle of the lake. But taking a closer look, Fade was still walking toward the island, step by step, and he looked casual in movement. Every step Fade took was not immersed in the water, but he stepped directly on the water and caused the water to sink. That was why it seemed as though Fade was immersed in the water, But if one observed the situation carefully, it could be seen that after every step Fade took, there was no sound of water rising up. The whole water surface was like a layer of sponge, which after being stepped down on would then bounce up immediately. Every time Fade lifted his foot, the pants and shoes on his legs were not wet at all, which was the best proof of this. At the thought of Fade's entrance, some masters on the shore couldn't help but be shocked. They didn't know how Fade could do this. They were figuring out how Fade caused the lake water to become like sponges under his feet This kind of control of strength was even better than Francesca's wall of energy under her feet. 'How did he do that?' 'I can't determine his level of strength at all.' 'He's too scary, this young man.' 'Maybe he can really defeat Francesca.' The eyes of some of the masters who had seen what Fade was doing started to

burn with excitement. However, a lot people did not notice anything unusual about Fade. Even if they did, they would only think that Fade was a loser and would not understand the reason behind his actions. Thus, amidst the laughter and sarcasm of the crowd, Fade reached the island with such a bizarre entrance..

Chapter 345

When Fade Chen stepped onto the island in the middle of the lake, Francesca Sun, who was sitting cross-legged, opened her eyes. With a flash of light in her eyes, she looked at Fade and spoke in a low voice, 'You're here!' Fade didn't seem to care much about her. He looked around the island and put his hands behind his back. He nodded and said, 'The environment on this island is good! It's a good place to build a villa or something of that sort! You can rest here and relax.' Hearing his words, Francesca's eyes narrowed slightly, and a trace of anger flashed across her eyes. She pounded the ground with her walking stick and shouted in a deep voice, 'Boy, you are being too arrogant.' Fade's eyes sank. He looked at Francesca and said, 'The Sun Family is the one who is being arrogant. They bully the weak and intimidate others with their power. They force others to do things according to your ways. Do you think that no one dares to rebel against you?' 'Rebel?' Francesca sneered, and there was a hint of fierceness in her eyes. 'Whoever dares to rebel, I will just kill them. In this province, no one dares to rebel against the Sun Family.' Hearing this, Fade shook his head and said, 'Do you think that the Sun Family's strength can overcome everything?' 'Is that not so?!' Francesca

replied and laughed. 'Or, do you think that you can rebel against the Sun family?' she asked. 'Whether I can or not, let me just try,' Fade said coldly, Francesca's face froze, as she held the walking stick in her hand and shouted coldly, 'Come on then!' Suddenly, a strong gust of energy burst out of Francesca's body. At this moment, her slim body became completely straight. The strong gust of energy was like a gust of wind, blowing outward with a whirring sound. The trees and the water waves around them were also shaken by this gust of wind. Seeing this, the eyes of the people at the lakeside couldn't help but light up and they were excited. 'The fight is about to begin!' 'Elder Sun has made her move. With this kind of inner energy, she is indeed worthy of being called the number one master in Lor City!' 'Guess how many moves Elder Sun will need to defeat Fade?' 'How many moves? In my opinion, she can defeat him with ten moves.' 'You've overestimated Fade. I think she'll definitely be able to beat him within three moves.' In the midst of everyone's discussion, Fade was facing Francesca's explosive energy and put his hands behind his back. He raised his palm and faced the strong wind emanating from Francesca's body. He suddenly clenched his fist into the shape of a claw and grabbed onto it. Suddenly, there was a crackling sound in front of Fade, as if the air was broken by Fade's claw. Something in the air seemed to have exploded and was blocked by Fade's fist. Seeing this, Francesca's face changed slightly and said, 'It seems that you are stronger than I thought. You can find where my energy condenses in the attack in such a short period of time. Not bad, not bad!' In fact, at the moment of Francesca's outburst, the attack had already been launched. It was an invisible guest of energy condensed by her internal aura which had rushed toward Fade. As

Francesca launched her inner energy, she covered up the fluctuation of her internal aura. Many people couldn't detect this attack, so when they fought with Francesca, they didn't even have time to make a move and would already be struck down. In the end, they would be defeated and some even died. With such a strange move that caused many hearts to palpitate violently, Francesca defeated many masters in Long City and gradually became the top master in Long City. At this time, many masters at the early stage of the Black Level did not notice the attack, but Fade had noticed it immediately and destroyed the incoming energy with one gesture, which caused Francesca to feel slightly surprised. However, it was just a small surprise for her. After all, this was just like an appetizer for her, and the real attack was yet to come. Francesca raised the walking stick in her hand and waved it in the air a few times. In an instant, the walking stick rolled up several waves and rose into the sky from the green lake, turning into several water dragons. They roared and rushed toward Fade. The water dragons roared, with a sense of oppressive and surging aura, and they rushed ferociously toward Fade. Fade focused his attention, and his right arm moved away. He swept horizontally and slashed outward. In an instant, a crimson ray of light shot out from Fade's arm. The ray of light spread out in an arc and slashed at the dragons. The water dragons roar madly and rushed toward Fade recklessly. They pressed down on him with a powerful aura and ferocity. The crimson light cut the water dragons into half. The water dragons in the air were suddenly suffocated, and their movements seemed to slow down. Their initial fierce attack stopped suddenly. Then, they exploded with a bang, turned into countless drops of water, and transformed into vast mist in the air. At this time, Francesca's face did not show

any panic. Instead, she smiled and whispered, 'Do you think that my attack is only at this level?' While speaking, Francesca held her walking stick, drew a few circles in the air, and then waves of energy surged out. Instantly, a gust of cold wind was launched out. The mist over the island quickly condensed and turned into a vast expanse of white ice crystals, surrounding the island and making it hard for others to see what was going on inside. These white ice crystals quickly condensed and turned into sharp icicles as long as index fingers. As Francesca waved her hand, the icicles along with the whistling wind instantly pierced through the air and rushed toward Fade. The sharp icicles were like sharp arrows with unstoppable momentum, and they could pierce through anything that was in front of them. Witnessing this scene, the people at the lakeside couldn't help but inhale a breath of cold air and felt extremely shocked. They didn't expect that Francesca had reached such a level, and this move was so fierce. Many people thought to themselves, that if they stood in Fade's position at this moment, how could they resist this attack? Even if they racked their brains and thought of various methods, the final conclusion caused their faces to become pale. They had no way of resisting this move at all. Whether they resisted her or dodged the attack, they couldn't block the sharp icicles all over the sky 'Boy, this is the punishment for offending the Sun Family!' Francesca spoke. Her eyes were icy and her voice was frosty. Seeing the dense icicles pouring over him like raindrops, Fade was not in a hurry at all. He withdrew his right hand to his body, and then put his palms together. Then, he focused his eyes and launched his palms forward with a loud clap. In an instant, everyone could only feel a stream of red light surging out. Immediately, a hot red flame rushed toward the icicles. The crimson red flame carried an

incomparably warm aura, instantly sucking the icicles into it. The searing hot flame immediately melted the icicles and caused them to evaporate. Then, the icicles all over the sky suddenly turned into a cloud of water vapor, whirring and rising, completely covering the island in the middle of the lake, until people couldn't see what was happening there clearly..
