

## The Ex Husbands Revenge

The Ex Husbands Revenge Chapter 2531-“Jensen, are you going to make me your enemy for this guy’s sake?” Felton’s expression darkened and he glared sharply at Jensen.

“Mister Fermer, I’ll repeat this: I have no intention of opposing you! Mister Wolf hasn’t done anything to you, yet you undermined him. You are out of line here.

Mister Wolf offered me a pill and if you intend to harm him, I won’t stand idly by!”

Jensen said calmly.

“Why you! Very well! Jensen, Renee, you asked for this.

Since you two insist on protecting him, don’t blame me for not showing mercy!”

Felton was utterly enraged by the fact that Renee and Jensen kept protecting Leon.

Not wanting to waste more of his time, he waved his arm and commanded his guards, “You two will deal with Hugh. Destroy him and feed him to the hounds! I will handle Jensen and Renee!”

Renee and Jensen’s statuses rivaled that of his and on top of that, Renee was the woman he was interested in.

If he had any other option, he would not choose to hurt her.

However, Renee and Jensen both insisted on protecting Leon so he could only keep them under control while his bodyguards took care of Leon.

This was his best option. So long as he stalled Renee and Jensen, his two guards could take care of Leon and resolve everything.

“Yes, sir!” the guards responded.

Without hesitation, they fired up their true energy and charged at Leon.

“How arrogant!” Leon lost his patience and was about to attack when Renee beat him to it.

“Don’t you dare!” Renee scoffed and extended her arms to launch two waves of true energy at the guards to stop them from harming Leon.

“Renee, it’s me you need to deal with!” Felton was prepared for this and sent his powerful true energy at Renee.

“Oh no!” Renee paled.

Though she reached the Initial Emperor State, she was still weaker than Felton in the Intermediate Emperor State.

She dared not to take his attack directly, nor could she dodge because Leon was right behind her because she did not want to give them a chance to hurt Leon.

Just as she hesitated, Felton’s attack reached her.

“Miss Morrison, allow me to help!” Jensen reacted swiftly and darted toward Renee.

He extended his arm and launched a powerful attack to fend off Felton’s attack.

The Ex Husbands Revenge Chapter 2532-Baam!

Following a deafening sound, the combined attack launched by Renee and Jensen clashed with Felton’s true energy.

Though both of them reached the Initial Emperor State, they just reached this level while Felton long reached the Intermediate Emperor State.

As their attacks clashed, Felton remained completely still while the other two backed away under the pressure of his energy.

“He’s good!” Their expression darkened once they steadied themselves.

Initially, they thought they could stand a chance against Felton now that they both reached the Initial Emperor State. However, a casual blow from Felton could easily overwhelm them and his strength surpassed what they imagined.

Even if they fought together, there was no way they could defeat him.

“Mister Wolf, Felton is too strong and we can’t beat him! Miss Morrison and I will stall him, so run while you can!” Jensen snapped out of it and shouted at Leon.

Leon was Felton’s ultimate target. Though they could not beat Felton, they should be able to stall him.

All they needed to do was keep Felton occupied for some time so that Leon could get away.

“Yeah, Mister Daglesh is right! Hugh, run!” Renee urged.

She agreed with Jensen and realized that they could not defeat Felton.

At the moment, they could only stall to buy Leon time to escape.

So long as he succeeded in escaping, Felton would not dare to do anything to the two of them out of fear for their families.

That way, all issues would be resolved.

“Trying to run? Not happening!” Felton scoffed and saw right through what they were thinking.

Launching another attack at Jensen and Renee, he shouted at the guards, “What are the two of you doing? Destroy Hugh! IV “Yes!” The guards snapped out of it.

They paused earlier and refrained from attacking Leon because Renee and Jensen were in the way. Now that Felton was blocking them, the guards no longer had any concern.

Not daring to hesitate, they immediately circled around Renee and Jensen and each launched a powerful attack at Leon.

“Oh no!” Both Jensen and Renee paled.

They wanted to hurry to Leon’s rescue but were both hindered by Felton. It took them all their might to withstand Felton’s intensive attack, so they could not possibly save Leon.

“Guards! Go fend off those two people and help Mister Wolf escape!” At the very last moment, Jensen shouted at his bodyguards while fighting Felton alongside Renee.

The Ex Husbands Revenge Chapter 2533-“Yes, sir!” The guards did not delay and both launched their attacks at Felton’s bodyguards, attempting to force them into giving up.

“Get out of the way!” Felton’s expression darkened.

The guards were about to finish Leon off, so Felton would not allow anyone to interfere. He waved his arm and sent off a wave of powerful true energy that overwhelmed Jensen’s guards instantly.

“Oh no!” Jensen’s guards were both shaken.

They were just ordinary guards who ran errands for Jensen. Hence, they were Intermediate Emperor State Felton was in.

Hence, there was no way they could withstand Felton’s attack.

Baam! Baam!”

Following two deafening sounds, the two were sent flying by Felton’s true energy and slammed hard onto the ground.

As soon as they landed, a sharp pain pierced through their chests and they each spat blood before lying sprawled on the ground.

“Die!” The two guards were right in front of Leon and started their attacks.

“Oh no!” Renee and Jensen’s hearts sank at the sight.

They were both busy fighting Felton and could not hurry to Leon’s rescue.

The guards that worked for Jensen were already defeated by Felton and Leon was left vulnerable to Felton’s guards.

If they were not mistaken, there was no escape for Leon unless there was a miracle.

The two could only watch as the attacks darted toward Leon in despair.

Ariella felt exactly the same. Leon gave her a pill that helped her through the bottleneck of her training, and she remained grateful for that.

Seeing that Leon was in danger, she desperately wanted to help. However, she Overlord State.

They were far stronger than her and she could not help Leon even if she wanted to.

“It’s time to die. No one can save you now!” Contrary to Renee, Jensen and Arie I la’s reaction, Felton sneered and looked at Leon as though he was already dead.

He did not know how strong Leon was, but he knew that Leon was merely the vice president of Cynthion Group and not someone from a powerful family.

Judging from Leon’s age, Felton assumed he was weak and no match for the guards.

If he was not mistaken, Leon would be severely injured or die from the attacks and there was no other possibility.

However, reality was cruel and what happened next shook them all.

The Ex Husbands Revenge Chapter 2534-Know your place!” Leon scoffed.

Just as he was about to fight back, he recalled something.

After defeating the Southern Boss, he and his confidantes all trained and made progress in their training.

reaching the Peak Overlord State.

Overlord State and slightly weaker than him.

Despite all the tricks he had up his sleeves, he only needed to use his true energy to take care of the guards and there was not even a need to use spiritual energy.

On top of that, he mainly focused on training his spiritual energy so far and neglected his growth in true energy.

Since he was now facing enemies of a similar level, he decided this was the perfect opportunity for him to gain more experience and reach the Peak Overlord State as soon as possible.

With that thought in mind, he did not use his spiritual energy and launched two waves of true energy at the two guards.

Baam! Baam!

Following two loud noises, their attacks clashed.

Though Leon's true energy was on the same level as the guards, his physique was incredibly strong after all that he went through.

Along with the treasures he possessed, he was practically invincible so the guards could not possibly beat him.

As their attacks clashed, Leon remained still while the two guards were forced to back away under the pressure of Leon's true energy.

Leon took the opportunity to attack and charged at the guard that was closest to him.

"Oh no!" The guard paled.

He just steadied himself and was in no position to dodge Leon's attack.

In a rush, he launched a desperate counterattack in an attempt to stop Leon.

Baam!

As they clashed, Leon's true energy tore through the guard's defense and slammed against his chest, sending him flying.

As soon as the guard landed, he spat blood and slumped on the ground.

"Know your place, brat!" The other guard snapped out of it and launched an attack from behind Leon.

Based on the earlier exchange, he could tell that Leon was on the same power level as him. Now that Leon was attacking the other guard, his back was left in the open and this was the perfect chance for the guard to attack.

Not missing the opportunity, the guard charged forward without hesitation, knowing that he would be able to avenge his comrade.

Unfortunately, he underestimated Leon.

From Springfield City to the southern region, Leon experienced different battles and near-death experiences. In terms of strength and skills, he rivaled the likes of the Southern Boss so there was no way that this guard could harm him.

The Ex Husbands Revenge Chapter 2535-“You are the one who should know your place!” Leon scoffed and leaped into the air to dodge the attack.

Then, he turned to land a powerful kick that aimed for the guard’s neck.

“How swift!” The guard was shocked by the powerful true energy Leon wielded.

He initially thought that he could apply great damage with the element of surprise. To his bewilderment, Leon was swift enough to dodge his attack and launch a counterattack.

Leon’s movements were smooth with no excessive moves, which surprised him.

The guard was still on the momentum of his initial attack and had no time to dodge. At the very last moment, he rolled off the ground to distance himself from Leon.

However, Leon’s attack had a wide range and the guard was one step too late.

Though he managed to avoid taking the blow on his neck, Leon’s true energy struck in the chest and he was instantly sent flying.

Baam!

Paling, the guard spat blood and sustained internal injuries like the other guard.

“What? How is that possible?” Felton was shocked and could not believe what he was seeing.

To his knowledge, Leon was just a vice president of the Cynthion Group who was not from any influential family.

State, making them fairly formidable amongst the younger generation.

Apart from some of the direct descendants of powerful families, these guards' strength was unrivaled.

Considering Leon's age, Felton assumed that the guards could easily take care of him. To his bewilderment, the guards ended up getting defeated instead.

This was so surreal that he was shaken to the core.

Naturally, he was not the only one who was shocked. Renee, Jensen, and Ariella all felt the same way.

Due to Leon's humble background and young age, they all assumed that Leon was weak or not even a martial artist.

At the very least, there was no way that he could survive the guards' attack.

To their surprise, Leon turned out to be a rather formidable martial artist who defeated the guards with ease.

This caught them by surprise and they instantly realized why Leon remained composed the entire time. Leon was never one to be bullied without fighting back and they all underestimated him.
