

The Ex Husbands Revenge

The Ex Husbands Revenge Chapter 2551-“What!” The Western Boss was utterly stunned.

There were no shortcuts to training as martial artists. To his surprise, Cynthion Group produced pills that could enhance martial artists' power and even get them past multiple barriers.

This completely contradicted what he knew and he would never believed it if he did not hear this from his son.

“I didn't expect these alchemical pills to work so well. I suppose I've underestimated them!” The Western Boss narrowed his eyes and gasped.

With his experience, he could tell that the alchemical pills that could help martial artists past the bottleneck of their training had great potential. Whoever had control over the supply would control most of the martial artists.

Instantly, he realized he underestimated Cynthion Group.

“Felton, you just said that someone from Cynthion Group injured you. What happened?” The Southern Boss changed the subject, his expression cautious.

He knew that Cynthion Group was based in the southern region and there was no branch here in the western region. Yet, someone from Cynthion Group appeared in the area and even injured Felton.

This alerted him.

“Oh, here's the thing!” Felton proceeded to explain the conflict he had with Hugh in the bouquet and how he was injured.

“This Hugh injured you?” The Southern Boss frowned and fell into silence.

He crossed paths with Leon multiple times in the southern region and he assumed he knew everything about Leon and the Cynthion Group. However, he never heard of Hugh.

Naturally, he did not know that this was just a fake name Leon used to avoid alerting him.

“Wait, that’s not right! Felton, you reached the Intermediate Emperor State a long time ago and there aren’t that many people your age around who can beat you. How did this Hugh manage to defeat and injure you? Is he stronger than you?” Contrary to the Southern Boss’s reaction, the Western Boss was taken aback.

He initially thought that Felton was outnumbered or perhaps Leon hired someone formidable to fight on his behalf.

However, according to what Felton described, Hugh defeated him without any help.

This was unbelievable and he could not figure out how he managed such a thing unless his power level surpassed the Intermediate Emperor State.

But that seemed impossible.

With Felton’s talent considered, even Hugo and Yuri would not be able to injure Felton to this extent, let alone a mere vice president of a small firm.

Hugh was young and came from a humble background, so he would have to be exceptionally talented if he managed to reach the Intermediate Emperor State or above.

If this was true, his talent would surpass even Hugo and Felton.

The Ex Husbands Revenge Chapter 2552-Felton said.

Based on Leon’s speed and explosive power, he could tell that Leon was in the at such a young age, so Felton refused to believe that he would reach the Semi Almighty State.

his speed with some sort of tricks, as this was the only possible explanation.

amongst the younger generation from the southern region. And he is just a vice president. It seems like there is a lot more to Cynthion Group,” the Western Boss said.

The western region was abundant with rare herbs that could help martial artists with their training. With the aid of these herbs, the younger martial artists from the western region were slightly stronger than those in the southern region.

However, the two most brilliant martial artists in the younger generation, Hugo and Felton, merely reached the State rose in the southern region.

On top of that, this man was merely a vice president of the Cynthion Group and not someone from a powerful family.

This was practically a miracle and the Western Boss began to take Cynthion Group more seriously.

The Southern Boss fell deep into thoughts and realization dawned on him. He narrowed his eyes sharply and said, "A vice president? I'm afraid he's more than that. I suspect that he is the chairman of Cynthion Group, Leon Wolf."

Though Leon used a fake name, the Southern Boss was experienced and soon noticed something odd.

He knew a lot about Cynthion Group and never heard of the name Hugh.

On top of that, most younger martial artists would find it challenging to reach the In the southern region, Rodney and Yuri were two of the most brilliant youngsters, but neither of them reached this level.

reason.

this matched with what the Southern Boss knew about Leon.

Since Leon and Hugh were both from the Cynthion Group and had similar names, this seemed too much of a coincidence.

It only took him some time to figure out that Hugh was likely Leon.

The Ex Husbands Revenge Chapter 2553-"What?"

"Hugh is Leon?"

Both the Western Boss and Felton were shocked.

“Yeah! I can’t be certain, but I’m pretty sure about this!” The Southern Boss nodded.

younger martial artists in the southern region.

Leon was the only one who had the power to defeat Felton, who was in the Intermediate Emperor State.

Hence, he had to be using Hugh as a fake name.

Still, this was just a speculation and he could not be certain when he did not meet Hugh in person.

“I see!” Realization dawned on Felton.

He was baffled that a mere vice president could pay over 200 million on herbs without hesitation. If Hugh was Leon, it would all make sense.

Considering Cynthion Group’s influence, it would not be hard for Leon to pull out such a large amount of money.

On top of that, there were plenty of alchemical pills in Cynthion Group, with some even capable of getting martial artists past multiple barriers of their training.

With the aid of these pills, it would make sense that Leon surpassed the After what the Southern Boss said, Felton thought back to what happened in the bouquet and became certain that Hugh was Leon.

“How dare he? He lied about his name and came to the western region. I wonder what he is up to!” Felton’s expression darkened.

He learned from the bouquet that Leon came to the western region to build a branch for the Cynthion Group. However, if that was truly the case, he could have done so with his actual identity. There was no need to hide his name, so Felton could not understand what he was up to.

“Damn it! That brat is probably coming for me!” Felton’s words made the Southern Boss realize something and he immediately paled.

He was too busy guessing Hugh’s identity and did not think through why Leon lied about his name.

However, he was reminded of Felton's words.

Leon might already know that the Southern Boss ran to the Western region.

Therefore, he decided to hide his name to track the Southern Boss down and eliminate him.

If that was the case, he was in grave danger.

He knew quite a lot about Leon after their last battle.

treasures and tricks. Even the Four Apostles ended up perishing in Leon's hand.

To make matters worse, Leon possessed extremely powerful Potential Energy Forces and Leon could easily destroy him if he managed to track him down.

Feeling chills down his spine, the Southern Boss could not remain composed and the only thought in his mind was that he needed to leave the western region as soon as possible.

If Leon found him, he would surely perish.

The Ex Husbands Revenge Chapter 2554-State, so why are you so scared of him?" The Western Boss was shocked.

and his strength was almost unrivalled in the western and southern regions.

to Felton, which was miles away from the power level the Southern Boss was in.

The Southern Boss was once a powerful figure, yet appeared to fear Leon and this baffled the Western Boss.

"Just? Western Boss, you are underestimating Leon. He may only be in the formidable than you imagine. No one can defeat him..." the Southern Boss said in fear.

All the tricks Leon pulled when he fought the Southern Boss had deeply traumatized the Southern Boss and he could not help feeling scared even just from recalling what happened.

“He is just a brat. How formidable can he be? It’s not like he can defeat someone on a higher level! I think he and the Thompsons just gave you a good scare!” The Western Boss scoffed in contempt.

There were great gaps between levels and no matter how talented one was, defeating someone of a higher level would be impossible.

Since both the Southern Boss and Felton confirmed that Leon was merely in the perhaps ones in the Peak Emperor State at best.

Yet, the Southern Boss claimed that there was no one who could defeat Leon.

He simply took it as a joke and did not believe what the Southern Boss said.

He merely assumed that the Southern Boss was traumatized by the downfall of his family and developed an irrational fear of Leon. He could not think of any other option.

“I...I’m telling the truth...” The Southern Boss’s face flushed.

He was once the ruler of the southern region underground community and an influential figure, yet the Western Boss mocked him for fearing Leon and he felt slightly offended.

Just as he was about to go into the details of Leon’s strength, he recalled something.

He came to seek refuge with the Western Boss to get help in going against Leon and the Thompsons and rescue Rodney.

However, there was no way that the Western Boss would easily agree to going up against a powerful family like the Thompsons.

If he told the Western Boss the truth about Leon, the Western Boss would never agree to help once he learnt what Leon was capable of.

This would defeat his purpose.

With that thought in mind, he swallowed his words.

The Ex Husbands Revenge Chapter 2555-“Western Boss, that kid is formidable. If you run into him, I would advise caution...” the Southern Boss decided to hint, instead of describing Leon’s strength in the end.

“Ha! I’ve seen what he could do. He is just quite swift. That’s not a big deal!”

Felton said.

He witnessed how Leon’s speed could increase to the level of the Semi Almighty State within the matter of seconds, and he assumed this was what the Southern Boss was referring to.

point for him to increase his speed.

There were countless martial artists in the Semi-Almighty and Almighty States amongst the Formers.

Anyone could easily destroy Leon and Leon’s tricks should not matter much.

Hence, Felton did not see Leon as a threat.

“Felton is right! Leon is just a boy and not a threat. Southern Boss, you are worrying over nothing!” The Western Boss did not take the Southern Boss’s warning seriously as well.

“Maybe...” The Southern Boss shook his head. He had already done his duty in warning them and could not help that they did not believe him.

’Dad, Leon broke my arm and injured me. You have to avenge me!’ Felton changed the subject and sought his father’s help for retaliation.

“Well...Felton, Leon belongs to the younger generation as you do. He only managed to defeat you because you are weaker than him. It won’t be appropriate for me to interfere,” the Western Boss said hesitantly and frowned.

In both the southern and western regions, there was an unspoken rule that martial artists from the older generations were not to interfere with fights between youngsters.

Leon had shown mercy and did not actually harm Felton. As the Western Boss, he would make a fool of himself if he retaliated or sent others to go after Leon.

“Dad, I know that it’s not appropriate, but Cynthion Group has alchemical pills that hold great potential and influence. Leon came to the western region to set up a branch and extend to the market here in the western region. This is a great opportunity for us. If we use some sort of excuse to force him into handing over the recipes for the pills, that would be great.” Felton’s eyes lit up.

He had witnessed the effect of the alchemical pills in person and learned that there was no limit to their influence.

Since Leon had injured him, the Farmers could use this as an excuse to force Leon into handing over the recipes for the alchemical pills.

Once the recipes were in the Farmers’ possession, they would soon be able to surpass the Morrisons and rule over the western region.

That way, he could obtain Cynthion Group and retaliate against Leon, effectively killing two birds with one stone.
