

The Charismatic Charlie Wade Chapter 4046

Interestingly, other people who participated in the auction also knew that the Wade family was one of the organizers of this auction. After Lord Wade made a bid, no one at the scene competed with him to bid.

Therefore, Lord Wade also easily took the second amulet.

Immediately after the third amulet, the number of bidders suddenly increased.

Prices started at \$10 million and quickly went up to \$87 million.

At this time, Jian raised his hand calmly and said, "I will pay 200 million."

The quotation of 200 million US dollars is equivalent to double the previous quotation and make up the whole.

As soon as this price came out, it instantly scared off many people who were planning to compete.

After all, amulets are different from Huichundan. Everyone has witnessed the effects of Huichundan, but no one knows how powerful amulets are.

Such an amulet can be regarded as the most expensive amulet in the world at a price of 200 million US dollars.

No one at the scene was willing to offer a price higher than \$200 million, so the third amulet was successfully photographed by Jian.

When it came to the fourth amulet, some interested bidders quickly pushed the price to 150 million US dollars, but at this stage of the bidding, perhaps they felt that the amulet was really not worth so much money, and many people have already bought it. withdrew from the competition.

At this moment, someone in the crowd suddenly raised their hand and said lightly: "I will pay 300 million."

The one who spoke was the previous middle-aged man who was somewhat similar to middle-aged Zheng Shaoqiu, and even stronger than him in terms of image and temperament.

Jian only felt that the voice was a little familiar, and he looked at the sound subconsciously. When he saw this person's appearance, his heart suddenly froze, and his expression instantly became solemn.

At this time, the middle-aged man's offer of \$300 million successfully frightened the others.

Although the people sitting here are quite rich, it is indeed difficult to accept the 300 million US dollars for an amulet with unknown effect.

So, the scene was silent for a while.

Jasmine moore said, "The last amulet, on the 99th, offered \$300 million. Is there a higher bid than this?"

There was still no answer at the scene.

After making three bids, Jasmine moore announced directly, "Congratulations to bidder No. 99 for winning the last amulet tonight at a price of \$300 million."

At this time, charlie in the surveillance room was staring at the middle-aged man who had just photographed the amulet for \$300 million in the surveillance video.

At a certain moment, charlie always felt that this person was a bit familiar.

However, if he really wanted to say where he had seen it, he couldn't tell for a while.

So, he instructed Isaac Cameron: "Isaac, find out what this number 99 is called and where it came from."

Isaac Cameron immediately took out the roster and flipped through it for a while, then said, "Master, number 99 is dhilon, from Vancouver, Canada."

charlie nodded lightly. In his memory, he didn't know Canadians. As for why this dhilon looked familiar, charlie felt that either he remembered it wrong, or this dhilon hid his identity like Fei Kexin.

If the identity is hidden, it would be difficult for charlie to find out the true identity of the other party in a short period of time, because each of these rich people has multiple identities. Although each identity has a different name and nationality, all of them can be verified without exception. real identity.

However, he felt that the possibility of the former should be greater...
