

## Chapter 5421

With the order of the Lord, the Warriors Den has entered a period of dormancy that has never been seen before.

The Governor's Mansion of the Five Armies went into full hibernation immediately. Except for the copper smelter in Turkey, all dead soldiers and cavalry guards were not allowed to step out of the station.

All members lurking around the world also temporarily terminated their contact with the upper line.

From this moment on, there are only three earls left in the Warriors Den to carry out the mission of the Lord.

Jermo is in China, looking for the whereabouts of Maria, and at the same time he is preparing to leave for Aurous Hill to investigate clues about Charlie;

Looking for clues about the transaction of the AK-630 close-in anti-aircraft gun; as for Jeremiah, she was looking for Maria in the Far East.

The day after Jarvis was shot, all members of the Turkish copper smelter left Turkey by boat.

The special envoy Jeremiah, who was given psychological hints by Charlie with aura, also boarded the evacuated freighter together with others.

Everyone didn't know where they were going at this time.

They only knew that something happened in Cyprus, and the Lord asked them to withdraw to South Africa immediately.

The incident happened suddenly, and it was reasonable to retreat temporarily, so the group did not have any doubts.

It was a long journey to South Africa, across the Mediterranean Sea, and after crossing the Suez Canal,

They had to cross the narrow Red Sea, and then all the way south along the east of Africa, the whole journey was nearly 10,000 kilometers.

Fortunately, before departure, the ship has already prepared materials ready to be transported to the Cyprus copper mine,

This is enough for hundreds of people in the copper smelter to eat and drink at sea, so everyone is not too worried about the future, just hoping to land in Africa as soon as possible and start a new life.

But what they didn't know was that the Lord had no plans to let them set foot on land again.

According to the requirements of the Lord, the ship, and all the people on the ship, must be buried in the depths of the Mediterranean Sea.

One day after the freighter departed.

When the ship was 200 kilometers away from Port Said, the northern mouth of the Suez Canal, in the middle of the night, the engine suddenly stopped, and the ship quickly lost power and floated on the sea.

A number of welders are using electric welding equipment to seal all the windows and hatches of the ship with steel bars as thick as thumbs.

All the movable objects on the deck have been taken into the cabin, and these welders are also welding inside the doors and windows, which means that after the welding is completed, they cannot get out by themselves.

These people welded very fast. After welding the doors and windows, they quickly returned to the cabin and welded all the doors from the outside.

Afterward, they went to the cargo warehouse at the bottom, covered all the goods with steel wire mesh, and welded the steel wire mesh tightly to the bottom plate of the cabin.

After doing all this, several people came to a middle-aged man and said respectfully: "Report to the deputy governor, all the entrances and exits have been sealed, and the goods have been fixed."

The middle-aged man called the deputy governor, It was Ramos, who was in charge of the line between Turkey and Cyprus,

And one of the three deputy governors of the Right Army Governor's Mansion.

At this time, Ramos nodded with grief and indignation and murmured:

"Everyone, today's sacrifice of life for righteousness is not only for the sake of loyalty to the Lord,"

"But also for our wives and children to live better, so I hope everyone will not be too sad."

The leader said with a miserable smile: "Sir, our life and death have long been out of our control."

"If the Lord lets us live, we can live. If the Lord wants us to die, we must die..."

He then asked: "My lord, the only question I have is, after we die, will the Lord really give our wives, and children freedom?"

Ramos nodded: "Don't worry, the Lord will take it seriously. And put his reputation first, otherwise, how can anyone be willing to take the initiative to die in the future?"

Hearing this, several people breathed a sigh of relief.

They have long been ordered by the Lord, knowing that everyone on their ship will not escape death.

What's even crueler is that their final mission is to personally destroy the ship and all the people on board.

And the condition for the Lord to let them die generously is to give their family members freedom after their death.

For these people, if they don't understand the medicine, they will die sooner or later. Instead of doing this, they might as well go to death and give their family a chance.

In fact, these people are different from Cavalry guards, and also different from dead men. They are Ramos's confidantes. When Ramos brought them here to take office, their family members did not follow, nor could they.

From the moment they took office, they shouldered the attribute of self-destruction. Once this place needs to be destroyed, they are the executors of self-destruction.

And the reason why the Lord arranged this is just in case, once there is a big problem in a certain station, they can completely self-destruct in the shortest time, completely cutting off all risks.

Their families are the key to their generous death.

Ramos looked at the time, and said, "It's almost time, prepare to sink the ship."

The leader nodded, and with his men, he placed directed explosives in the bow and stern of the ship.

After finishing all this, several people returned to Ramos, handed the detonator to him, and respectfully said: "My lord, you can detonate it at any time."

Ramos took the detonator and asked him: "Are all the exits sealed? Make sure that after the ship sinks, nothing can float to the surface of the sea, otherwise, once other ships find it, they will realize that the ship has sunk."

The man cupped his hands and said: "Don't worry, my lord, all cabins are closed, all The doors and windows are also closed, and the goods in the warehouse are all fixed with dense iron nets. Once the explosion is detonated, the seawater will flood in instantly,"

"And the ship will sink soon, and nothing will surface. As for The fragments produced by the explosion, because they are all made of iron, will sink to the bottom soon and will not float to the surface of the sea, so you can rest assured."

Ramos nodded and said: "Now there are only a few of us left. It's fixed, you come with me to the captain's cabin."

"We follow the order!"

Several people followed Ramos to the captain's room. He locked the heavy cabin door firmly, then took out a bottle of spirits, poured a few glasses, handed them to the people in front of him, and said,

"Everyone, we work together. For many years, it is fate to be able to die together today, and this glass of wine is for us!"

At this time, several people also regarded death as home, nodded heavily, and took the wine glass.

Ramos clinked glasses with several people, raised his head, and drank the spirits in the cup, then picked up the detonator, and pressed it without thinking.

Suddenly, there were two muffled sounds from the cargo warehouse at the bottom of the ship, and two large holes about one meter in diameter were blasted at the bow and stern of the ship.

A large amount of seawater was quickly poured into the cabin, and the freighter immediately began to sink at an extremely fast speed.

However, no one on board ran for their lives in a hurry.

Because all the people except them were sleeping soundly in each cabin at the moment, Ramos specially asked people to add special medicine to their meals to make them all fall asleep.

Now, everyone is sealed in each cabin.

The frantic influx of sea water did not wake these people up, and they suffocated to death one after another in their sleep.

Soon, the seawater began to pour into the captain's cabin, Ramos looked at death as if at home, and sat on the ground with several other people until the seawater filled the entire cabin.

Twenty minutes later, the 8,000-ton freighter completely sank into the seawater.

Due to the preparations made in advance, after the freighter entered the sea, it did not leave any other traces except for a vortex on the sea surface.

The whole ship was like a huge cage and sank to the bottom of the sea without looking back...
