

## Chapter 5269

When Charlie returned to Tomson Villa, Claire was still cleaning the house with several cleaning staff.

Because the smell of tobacco and alcohol, moldy food, and vomiting on the first floor was really too strong,

The cleaning company even used professional deodorizing equipment to thoroughly clean the entire first floor.

And Jacob, who was one of the sources of the smell,

Had been invited to the yard by Claire at this time.

After Jacob was heavily drugged by Charlie,

He didn't drink too much alcohol all day long, but he was still a bit decadent.

At this moment, he was sitting in the yard alone,

Wearing a pair of underpants and a basketball vest, smoking a cigarette, and sighing.

Only then did Charlie realize that his father-in-law's body had become more and more swollen,

Especially when he was sitting there, his belly had piled up into a large lump,

Coupled with his scruffy beard, the whole person's state suddenly much greasy.

Seeing Charlie come back, Jacob's eyes suddenly lit up,

He quickly got up to greet him and asked:

“Charlie, my good son-in-law, Dad has something to do, and I want to ask you for the advice!”

Charlie asked him: “Dad just say what you want.”

Jacob looked around and saw no one around, so he said with a serious face:

“I’m going to have a good chat with Pollard, why don’t you come with me?”

Charlie asked in surprise: “What are you going to talk to him about?”

Jacob said seriously: “Isn’t he a gentleman? People say that a gentleman does not take away people’s love.”

“I will reason with him and tell him not to pester me,”

“Meiqing, maybe she has a feeling too.”

“Let go to make him feel condemned by conscience?”

“If he lets go, your Auntie’s heart might come back!”

Charlie’s face was full of question marks: “Dad, there’s nothing wrong with saying that a gentleman doesn’t take away people’s love.”

“But strictly speaking, your lover is mom, not Aunt Han!”

“If he came to confess to his mom, your theory is still useful, and the key point is that he didn’t do it.”

Jacob said eagerly: “Then...then I have to create some difficulties for him, right?”

“If I can’t create practical difficulties, at least I must create some psychological difficulties for him!”

As he said that, Jacob said again: “By the way, isn’t he a professor?”

“I’ll go to their school to find him, in front of his students, colleagues, and heads,”

“And beg him not to pester me your aunt, and create some public opinion pressure for him!”

Charlie said awkwardly: “Dad, I will definitely not go to such a shameful and bottomless matter.”

“In addition, you have to think about it. The pressure of public opinion is a double-edged sword.”

“Now that the Internet is so developed, if you go to make trouble,”

“There is a high probability of being recorded and posted on the Internet,”
