

Chapter 5312

Jemima didn't speak, just nodded slightly,

And then reminded the supervisor: "Can we go to see the apartments?"

The supervisor quickly said: "Yes, yes, please come here."

Jemima left, and Tanaka stood there helplessly.

He didn't know himself for a while.

Should he stay in this real estate and then look at other types of units,

Or simply leave and change to another real estate for research.

At this moment, the saleswoman receiving him suddenly remembered something,

And hurriedly said: "Sir, doesn't your lady like to be quiet?"

"Although we don't have the top floor to choose from,"

"You can choose the one just one floor downstairs!"

As she spoke, she couldn't wait to explain:

"Look, that lady is so young and rich, and she brought the housekeeper to buy it,"

"And she didn't have a wedding ring in her hand."

"There is a very high probability that she is not married at all!"

"An unmarried rich second-generation woman comes out to buy a house by herself,"

“And there is a high probability that she will live in it by herself!”

“Think about it, the use of a house with an area of 60 square meters,”

“Only she lives alone, and your eldest lady lives downstairs,”

“So there is a high probability that she will not be disturbed!”

“Even if the lady just skipped rope in the room,”

“As long as your eldest lady doesn’t happen to be right Downstairs in her rope-skipping room,”

“Basically there will be no interference!”

“I have been selling houses in this real estate for so long,”

“And everyone who buys our ordinary apartment is basically a big family,”

“Even young people come here When buying a house,”

“They have at least a family of three, and some have a family of four.”

“I have never met an owner who only lives as a couple.”

“And if you think about it, a family with children, no matter how careful they are,”

“It is impossible not to make no noise at all,”

“So I can assure you that none of the remaining apartments in the whole community can be quieter than the one downstairs.”

“You have no hesitation. If you are not sure now, someone will come soon.”

“A customer like you, then you can’t even buy this house!”

Tanaka thought: “This woman is right! The lady just now, at first glance,”

“She looks like a lady from a very wealthy family.”

“She probably bought this house because she lives alone.”

“In that case, it is really unlikely to disturb downstairs,”

“It’s hard to meet someone who buys such a big house to live alone.”

“I’m afraid there is no more suitable apartment than her downstairs...”

“And... it’s already four or five o’clock in the afternoon.”

“If I don’t make a quick decision, I’m afraid,”

“I won’t have time to go to the next real estate to have a look again!”

Thinking of this, Tanaka made up his mind, gritted his teeth, and said,

“Okay! Then I want this! Same as that lady, I will pay 1 million intention money,”

“And then you take me to see the house, I will take some videos and photos to show our lady,”

“As long as she does not object, I will pay the money immediately when I come back.”

The sales did not expect her words really moved the other party,

And she was very excited. Such a set of more than 30 million flats,

Because it is not easy to sell, the sales commission is two percentage points.

If the transaction is completed, the sales can get a commission reward above 700,000!

Thinking of this, she hurriedly said excitedly: "Okay sir,"

"Then please come over with me and pay the intent money first,"

"And then I will take you to see the flat right away!"
