

Married At First Sight Chapter 3125

Married At First Sight Chapter 3125-Zachary smiled and said, "Then I wish you success and bring Miss Ormond back to meet us as soon as possible."

Tatum had a toothache and said, "It's still early. Anyway, I'm still alone during the New Year this year."

Zachary said, "The New Year is not far away now. I definitely don't expect you to be single this year. It will be good if you can be single next year. Even your fourth brother, Evan, and fifth brother, Elian, can't be single this year."

The story of Evan's pursuit of his wife was kept secret, and even the eldest brother Zachary didn't know much about his situation.

Of course, Zachary didn't want to get involved in his brothers' personal affairs.

He said that unless his brothers came to him and took the initiative to ask for something, he would not inquire about their feelings.

He was not like Josh, who specialized in gossip.

If he wants to hear gossip, ask Josh; he's right.

"Tatum, you're busy, so I won't disturb you. If anything happens, just call back and tell your family. By the way, have you informed your parents that you are safe?"

Zachary reminded Tatum to report to his parents that he was safe.

If Tania hadn't known that Tatum was going to Annenburg in Province X for an interview with the purpose of pursuing his wife, it would have been difficult for her to agree.

Even though Tania now agrees, she occasionally murmurs that the old lady's choice for Tatum is too distant from Wiltspoon. It's really a thousand miles away.

Tatum said, "I'll tell my mother as soon as I get off the plane. I'll call back when I succeed in the retest. Brother, go ahead and do your work. I can

handle my affairs. I'm not a three-year-old kid anymore. I'm already in my twenties."

As Zachary's younger brother, Tatum had received special care from his eldest brother since he was a child. Although his eldest brother will give him a lot of private space, Tatum still feels that, in his eyes, he is just a child who will not grow up.

Zachary smiled and said, "I understand; you are not a three-year-old child; you are already in your twenties. Before you know it, you have grown up. Okay, you take a rest; I'm really going to be busy."

Zachary quickly ended the call.

He was very busy at work. In order to squeeze in some time to accompany his pregnant wife every day, he tried to complete his work during the day. However, as the head of the York Corporation, even if he races against time during the day and does not waste every minute, there are too many things to do during the day. There is too much to handle.

All he could say was to go home as early as possible in the evening.

It would be great if he could get home before 10 o'clock in the evening. Before the marriage, he was always busy until midnight before returning home.

During the flash wedding, because he didn't come home late at night, Serenity thought he wasn't going home and locked the door, making it impossible for him to open the door even when he got home.

After Zachary hung up the phone, Tatum continued to sip his tea leisurely. He planned well for what he wanted to do in the future.

The time grandma gave them was usually one year.

He was not in a hurry.

Cooking was more important.

Joining the Ormond family was just a challenge for him.

Although Ormond's chefs rarely work for a long time, Tatum didn't plan to work for a long time, just a year or a half. There was no way Ormond's inner house could trap and kill him.

He also wanted to travel all over the country, taste more delicious food, and learn to cook more delicious food.

“jingle...”

The doorbell rang.

Tatum sat up straight, placed the cup of tea on the table, and looked at the door of the room.

He just arrived today and knows no one is here.

Who could be knocking on his door?

Hotel people?

“Who is it?”
