

## The Ex Husbands Revenge

The Ex Husbands Revenge Chapter 2821-“Yeah! I made the Cleansing Pills from an Angel’s Fruit. This can cleanse the bodies of younger martial artists and enhance their talent.” Leon nodded.

“That’s great! Leon, are you giving two Cleansing Pills to me and my brother?”

Renee was overjoyed.

Since the Cleansing Pills were rare, neither she nor Hugo dared to dream of obtaining one.

Yet, Leon decided to give two to them for free.

This was something that others could not even dream of and Renee was overjoyed.

“Of course! Keep one for yourself and pass the other one to Mister Morrison,”

Leon said with a smile and handed her two Cleansing Pills.

“Thank you! Leon, you are such a great guy. I don’t even know how to thank you,” Thrilled, Renee gave Leon a big hug while grinning from ear to ear.

Though Leon did not sell the Rainbow Pills to her, he gave her two Cleansing Pills for free.

Given the function of the Cleansing Pills, they would work wonders on her.

The disappointment she felt for not getting the Rainbow Pills was instantly replaced by excitement.

“Um,” Leon froze as he did not expect Renee to throw herself at him.

Panicking, he hurriedly pulled her out of his arms.

“Sorry, I was a bit too excited,” Renee blushed when she realized that she was being rude.

She tugged a strand of hair behind her ear and regained her composure.

“Renee, the Spiritual Pearl can aid martial artists’ training. Why don’t you take the Cleansing Pill now and try to train? Maybe your strength would increase,”

Leon changed the subject.

He assumed that Renee was just too excited and did not think much of what happened.

On the other hand, the Cleansing Pills could not enhance martial artists’ strength like the Sun Pill or the Motherwort Pill. However, the Spiritual Pearl was a great tool that could amplify the effect of one’s training.

To produce the Rainbow Pills, Leon already activated the Spiritual Pearl.

“Sure! That’s what I thought too!” Renee nodded.

While she trained, Leon took the Rainbow Pills to try its effect.

For the other alchemical pills, there was a huge variety of pills that he needed to produce for the sales drive in the western region.

Such large-scale production could not be carried out immediately and he would need at least five to six days.

The Ex Husbands Revenge Chapter 2822-Once he took the Rainbow Pills, it transformed into a stream of powerful energy that coursed through his veins.

Ever since he reached the Initial Golden Core Phase, his strength increased following the training he did and he was not far away from reaching the Intermediate Golden Core Phase.

The Rainbow Pills were made from the Rainbow Fruit and the Emperor Herb, which both contained enormous true and spiritual energy.

These two types of energy were similar.

Once he absorbed some part of the Rainbow Pills’ energy, his strength in sage art instantly reached the peak of the Initial Golden Core Phase and he was a step away from a breakthrough.

Taking advantage of this opportunity, he focused and started attempting a breakthrough.

It was not an easy task and he failed multiple times despite his effort.

However, he did not give up and kept trying until the barrier before he started to budge.

A long while later, his handwork paid off and he reached the Intermediate Golden Core Phase.

The Golden Core that developed within his body became more solid in color.

The Intermediate Golden Core Phase in sage art was equivalent to the Semi Almighty State of martial arts.

Along with the Mirror of Sovereign, the Dragon Pills, and other tools, Leon's overall strength reached the Semi-Saint state.

"I've finally had a breakthrough!" Leon sighed and revealed a joyous smile.

Instead of stopping, he started training in martial arts and continued to absorb the remaining energy from the Rainbow Pills in the hope of enhancing his skills in martial arts as well.

At this moment, his power level in martial arts was too low and this was a rare opportunity, so he needed to increase his strength.

Sometime later, Leon absorbed all the remaining energy from the Rainbow Pills reaching the Semi-Emperor State.

Leon continued to train to reinforce his accomplishment before finally stopping.

"It's a shame that I don't have the Supreme Pure Energy Pills with me," Leon sighed.

Unfortunately, the Supreme Pure Energy Pills were too valuable and he did not have many with him.

The ones he kept for backup were all used up when he was in the southern region.

Hence, he did not have any extra to enhance his power level and could only stop here.

Once he did, he could take one to get to the Emperor state so there was no need to rush.

The Ex Husbands Revenge Chapter 2823-Buzz!

As Leon wrapped up his practice and stood up, Renee, who was practicing beside him, trembled slightly. Her delicate face gradually flushed, evidently reaching a crucial moment in her training!

Her situation mirrored Leon's.

Renee absorbed and refined the energy of the Cleansing Pills in her body. Then, aided by the powerful true energy emitted from the Spiritual Pearl above her head, she repeatedly attempted to break through her current martial arts bottleneck.

However, unlike Ruth and Roanne, whose martial talents were outstanding and terrifying, Renee's talents were not as remarkable.

In the end, she did not break through her current martial arts bottleneck like Ruth and Roanne did, using the Cleansing Pills!

After several attempts to break through the martial arts bottleneck, each time falling just short, she could not help but feel anxious, yet she was helpless!

"Renee, let me lend you a hand! Keep your mind steady, don't rush..."

Seeing Renee's impatience, Leon stretched several fingers decisively.

Then, with lightning speed, he employed the Eternity Compression Method, inserting the fingers one by one into several acupoints around Renee's energy center.

The Eternity Compression Method had the effect of dredging internal circulation and regulating one's aura.

As he applied the technique, Renee felt a cool breath rushing into her energy center, instantly calming her previously restless mood!

Taking advantage of this opportunity, she circulated her true energy and, with the assistance of the Eternity Compression Method, continued to attempt to breakthrough her martial arts bottleneck!

Boom!

In just a moment, Renee's body shook, and with a determined effort, she finally broke through the barrier of the initial stage of the Emperor state, advancing smoothly from the initial stage to the middle stage of the Emperor state.

"Great, this is amazing! My training has finally broken through..."

Renee's face lit up with joy, unable to help but breathe a sigh of relief.

Then, she continued to cultivate for several weeks, stabilizing her training realm before finally finishing and standing up.

"Renee, congratulations!"

Leon withdrew his fingers from Renee's body, smiling and congratulating her.

"Leon, thank you! It's all thanks to your help just now, otherwise, it would have been difficult for me to make this breakthrough..."

Renee gratefully smiled, expressing her thanks to Leon a few times. In her appreciative gaze, there flashed a hint of admiration and worship.

In the martial world, strength was always revered, and strong individuals were admired!

Before she met Leon, her martial arts talent was not particularly outstanding, leaving a noticeable gap compared to her older brother, Hugo.

At that time, her training was only at the late stage of Overlord!

Now, Leon has once again used Cleansing Pills to improve her martial aptitude, raising her training to the Intermediate Emperor State!

All of this is thanks to Leon. His contribution cannot be overstated.

At that moment, her gratitude towards Leon was beyond words.

However, that's not all!

Leon, despite his young age, not only possesses outstanding abilities but also established the influential Cynthion Group single-handedly.

Moreover, Leon's training is unfathomable, his strength already reaching the immensely powerful Almighty state at the very least. It was far more outstanding than others of the same age!
