

Chapter 1014 It's Her

As they looked at the words that were engraved on the petal, Liam and Julia glanced at each other, their faces full of astonishment.

There was no doubt about it. This was the work of Moon Silence Organization, the same organization that Julie had once worked in.

Julie couldn't help but swallow hard as she remembered that back then, there had been a particular individual who had stayed with her in Moon Silence Organization.

As she remembered the individual's face and realized the true identity of Maureen, Julie gasped and exclaimed, "I knew it! It's her! Sarai! Liam, Maureen is none other than Sarai Lyons!"

Hearing this, Liam ran his hand through his hair, his eyebrows raised in surprise.

So, Maureen was Sarai in disguise. Of course, that must be why she had helped him in the underground battle ring last time.

She must have realized who he was after Corrin opened the ice coffin, allowing her to see Julie.

Having realized the truth, Julie was beaming with smiles. She couldn't believe it, Maureen was Sarai! So

excited was Julie, she wished she could see Sarai right now. The relationship between both of them had been a special one, and she couldn't wait to rekindle it.

All the time that both of them had spent together was nothing short of beautiful.

Sarai, who had left Moon Silence Organization without saying goodbye, had risen to become the renowned Maureen.

Realizing that Julie would be eager to contact Sarai, Liam suddenly grabbed her wrist and warned, "Finding her isn't the best call of action now. I'm sure Sarai has her reasons for not wanting to reveal her identity. We can't just walk into her life and upend it. We might just end up creating a lot of trouble for her. We should just stay quiet for now and watch as things unfold. Besides, it's time for us to leave now. I have to take you back for treatment."

Knowing that Liam's argument was valid, Julie nodded in agreement. Indeed, now was not the time for her to contact Sarai. Their reunification would have to wait for now.

The moment she sighted the title "Silent Moon", Shayla, who had silently stood aside all along, spoke up.

"When the Saint Society eliminated the senior leaders of Moon Silence Organization, they absorbed some members of the organization that they had just dismantled, members that they identified as talented

and promising. One of the members that they took into their ranks is reported to be an outstanding individual."

After a pause, she continued, "Within two years, this genius rapidly rose in standing within the Saint Society. From what I learned, so powerful did this person become that he later gathered the members that had been absorbed from the now defunct Moon Silence Organization and formed a sect with them. He was able to gain their trust. From there, he built up his base and is now considered one of the most powerful individuals in the Saint Society. If I were to guess, I would say that Maureen's mysterious backer is this powerful individual."

Hearing this, Liam couldn't help but feel like he was in a dilemma.

As a member of the Salvation Society, Liam wasn't a fan of the Saint Society members. Both he and they were always at each other's necks.

That meant that one way or another, Liam was bound to come into conflict with Sarai's sect in the future.

Though the realization of what might happen dampened his spirit, Liam didn't show it. His countenance remained calm and composed.

Without a word, Liam took Julie's hand and led her to the back of the room where the poison in her body was extracted.

Upon arriving at his residence, Liam helped Julie onto

his bed, telling her to lie down and relax.

Thanks to his previous experience in treatment, Liam was well-versed in the treatment skills that were needed to heal Julie.

As Liam picked up a primogem rock, he took a deep breath, his eyes full of hope.

From what he knew, he was pretty sure that just one more primogem rock was all that was needed to fully cure Julie from her present state.

As Liam prepared to start the treatment, Julie gave him a weak smile and closed her nervous eyes. To further enable her to relax, Liam held Julie's hand and rubbed it gently.

Swallowing hard, Liam began to slowly transfer the immense energy within the primogem rock into Julie's body.

Ten minutes later, the whole treatment was over.

Simultaneously, the wrinkles and age spots on Julie's body began to smoothen out and disappear respectively as she quickly regained her youthful appearance.

Looking at the now fully cured Julie, Liam couldn't help but let out a sigh of relief as he felt the pressure that he had been feeling all along evaporate away.

What's more, by surviving the application of two primogem rocks on her, Julie was now a Primogem
