

## The Ex Husbands Revenge

The Ex Husbands Revenge Chapter 2896-"I see!" Realization dawned on the others when they heard Dorian and Cassius.

They finally realized that Leon managed to survive the Second Apostle's Rumbling Strike with a tool.

"Who would've thought that Leon possesses a tool in the Intermediate Almighty State? It's no wonder he was acting so boldly."

The crowd stirred and everyone looked at Leon enviously.

They all knew that treasures, be they defensive ones or offensive ones, were rare.

Tools or treasures in the Almighty State were as rare as heavenly herbs and all martial artists would dream of obtaining one.

For some reason, Leon managed to obtain one at such a young age.

He had to be extremely lucky and it was normal for the others to feel envious.

Apart from that, Leon was quite formidable on his own, and with a defensive tool in the Intermediate Almighty State, he was even more powerful.

This was the moment when everyone realized why Leon dared to challenge three powerful families on his own.

It turned out that Leon had plenty of tricks up his sleeves and they all underestimated him.

"Alright. Now, it's your turn." Leon ignored the Second Apostle and turned to the First, Third, and Fourth Apostles, before striding over.

The Apostles were attacking him from four different directions and this created quite a trouble for him.

However, the Second Apostle was now defeated and there were only three of them left.

With the formation broken down, he could easily take them down using the Phantom Steps and the Mirror of Sovereign “Get over yourself, kid! Tools can only be used three times in a row. Even if you have a tool in the Intermediate Almighty State, that’s not a big deal!” The First Apostle scoffed.

Despite what he said, his heart sank.

Instantly, the remaining three Apostles all wore dark expressions as they pondered what to do with the defensive tool.

“Got it!” An idea appeared in the First Apostle’s mind and he immediately turned to the Third and Fourth Apostles.

The Ex Husbands Revenge Chapter 2897-“Third Apostle, Fourth Apostle, join me! Let’s all work together to break past his defense!” The First Apostle shot the Third and Fourth Apostles a knowing look.

Leon was simply too powerful and even possessed a powerful defensive tool.

If the three of them continued to attack from different directions, it would be challenging for them to exhaust the limit of the tool and Leon would be able to take them down one by one.

Instead, they should gather their forces together to take Leon down.

Almighty State.

So long as the defensive tool Leon possessed was in the Intermediate Almighty State, they would be able to break past Leon’s defense and this was far better than attacking separately.

“Alright!” The Third and Fourth Apostles immediately got the message.

They reacted swiftly and gathered by the First Apostle’s side.

“Oh no!” Seeing as they changed strategy all of a sudden, Leon’s heart sank.

He took a step forward and executed the Phantom Steps to charge toward the three of them to stop the attack, but he was one step too late.

“Kid, take our Rumbling Strike again!” The First Apostle roared.

The three of them each launched a Rumbling Strike and their true energy combined into a more powerful strike.

The attack was sent toward Leon at the speed of lightning. "Damn it!" Leon paled.

Considering the Apostles' strength, their combined attack reached the strength of the Mirror of Sovereign.

Not daring to take the blow, he rolled off the ground and narrowly escaped the attack.

"Great! The tool he has is indeed in the Intermediate Almighty State!" The Apostles were overjoyed and relieved.

If that was true, they would run out of options.

This would make taking Leon down much easier.

"Third Apostle, Fourth Apostle, let's do it again!" The First Apostle said.

The Ex Husbands Revenge Chapter 2898-"Farmers, we're all going to work together and attack alongside the Apostles!"

Seeing as the combined attack by the Apostles worked on Leon, Felton was excited.

He immediately made a decision and commanded the martial artists behind him.

To take Leon down, he was fully prepared. Not only did he take the Apostles with him, but he also brought six skilled martial artists from the Farmers.

Though these martial artists were merely in the Semi-Almighty State or the Initial Almighty State, making them weaker than the Five Apostles, they were quite formidable when they worked as a group.

With their help, the Apostles may be able to defeat Leon sooner.

"Yes, sir!" The Farmers fired their true energy without hesitation.

Their true energy combined with that of the Apostles to form an even more powerful attack, which was launched at Leon.

Leon knew that this attack was far more powerful than the earlier one and he could not possibly take it head-on.

Hence, he would only execute the Phantom Steps to dodge the attack.

“Keep it up! Don’t stop! Let’s see how long this kid can last!” The First Apostle sneered maliciously.

He worked alongside the Third and Fourth Apostle, together with a few other Farmers to launch a combined attack on Leon, not giving Leon a moment to rest.

This could prevent Leon from charging at them to mess with their formation.

So long as they acted swiftly, Leon would soon get tired and they may be able to take him down.

“It’s over!” “Leon’s completely at the mercy of their combined attack.” “Yeah.

He’s all alone, after all.” “Even if he has a powerful defensive tool, it wouldn’t help.” “It’s too challenging to overcome the difficulties of being outnumbered.”

Seeing this, the others all pitied Leon.

Leon injured both the Fifth and Second Apostle, so they could all tell that Leon was powerful, agile, and possessed a defensive tool in the Intermediate Almighty State.

In terms of strength, no one could rival Leon.

Unfortunately, Leon was outnumbered by the Farmers.

This would not help him at all and he might as well give it his all.

With that thought in mind, he gave up on dodging and launched his most powerful technique, Hurricane Break

The Ex Husbands Revenge Chapter 2899-“What? Leon gave up on dodging and is facing the Formers head-on!” “Does he have a death wish?”

The others, including the Morrisons and the Dagleshs, were shocked.

Though they knew all along that Leon was outnumbered, Leon had superior strength and speed.

If he dodged around, he may be able to back away from their range before he exhausted himself and therefore survive.

Yet, Leon foolishly gave up on dodging and intended to take the combined attack instead of backing down.

This was practically suicidal.

The combined attack launched by the Apostles and the Fermers was enough to break past Leon’s defense.

Now that Leon chose to face them, he would either get injured or die, which was something only a fool would do.

“Great! Destroy him!” Felton and the others were overjoyed and beamed.

They were initially worried that Leon would choose to gradually back away from the attack’s range, and this would make defeating Leon more challenging.

Luckily, Leon was foolish enough to face them head-on.

This worked for them and was exactly what they wanted.

If they were not mistaken, their attack would break Leon’s defense and injure him.

That seemed to be the only possible outcome.

However, what happened next shook them all.

Baam!

As Leon launched the Hurricane Break, countless streams of spiritual energy combined into a gigantic Hurricane that charged toward Felton and the others.

On top of that, Hurricane Break was a large-scale attack that resembled a small Potential Energy Force that could eliminate everything on its path.

Leon just reached the Intermediate Golden Core Phase a few days ago, so the power of Hurricane Break increased as well.

“What- what on earth is this?” “It’s so powerful!” “Oh, no. Let’s run!”

Terrified, everyone froze with disbelief at the sight before them.

Once they were taken into Hurricane Break’s range, they were all shaken and someone yelled out of the blue.

With that, they avoided getting caught in the crossfire.
