

Chapter 1089 The Ape-shaped Primogem Beast

Liam and Laura didn't waste time after Rodney mentioned the treasure in Lotus Lake. They headed there quickly.

In their haste, they didn't notice that the purple dots on Liam's neck were getting bigger.

And they were giving off a weird scent.

But Liam and Laura were too focused on the road to notice this.

Less than thirty minutes after they left the cave, a beast in the shape of an ape came.

The beast's intense aura flooded the whole cave, shaking the walls like there was an earthquake.

The ape-like creature looked around, but the place was empty. Its eyes, glowing a menacing red, hinted at its rage. Then, it spoke like a human, its voice seething with fury.

"Who did that? Who killed my prey? I'll find you and finish you!"

Its furious shout echoed through the cave, rolling up into the skies.

Meanwhile, Liam and Laura were on their way to the Lotus Lake.

Liam had another thing on his mind.

As a Star Erosion guardian for the Saint Society, Adamson was bound to send his people into the maritime secret realm.

And since Townsend was Adamson's nephew, he was almost guaranteed to be in the maritime secret realm.

Liam had a plan: he wanted to take this opportunity to catch Townsend!

If he pulled it off, he could trade Townsend for Julie and Asher.

Even if Adamson wouldn't agree to a swap, just having Townsend as a hostage could give him the upper hand in getting Julie and Asher back.

In Lotus Lake.

Rodney had told "Leif" to bring his team to this spot using a satellite phone.

The place was aptly named because it had a lake with an ancient aura.

In the lake, lush lotus leaves grew in all directions, overlapping like a staircase, giving it the name "Lotus Lake".

In the middle of the Lotus Lake, right where all the

lotus leaves seemed to converge, there was one massive lotus leaf towering toward the sky.

This giant lotus leaf gathered dew that formed in the secret realm.

The dew would slowly trickle down from the giant lotus leaf into the lake below.

This was why the water in this lake was so special; it soaked up the very essence of the secret realm. To Primogem Warriors, it was priceless.

And the dew that stayed on the big lotus leaf instead of falling into the pool was even more precious, a collection of years of accumulation.

This super valuable dew was called "Universe Crystal Dew" by the Primogem Warriors.

It was rare even for the strongest Primogem Warriors who had pushed past their limits.

Now, three groups had assembled near the Lotus Lake.

Leaders and their seconds-in-command from two groups had come because they had heard about the treasure.

That was why Rodney had been so eager to call Leif and his team here.

Garrett was in one of the groups here. Even though he was only a vice-captain, his team leader, Mateo

Carrillo, had to follow Garrett's lead.

Garrett's strength wasn't impressive, but his father was a guardian in the Saint Society. That made him very powerful.

Garrett held a leash in his hand. On the other end of the leash was a woman with tangled hair, her face hidden.

Garrett dragged her around like she was his pet.

Meanwhile, the leaders of the three groups were arguing over who would get the Universe Crystal Dew.

Rodney was outmatched; everyone knew he was the weakest of the group leaders. As soon as he pitched his idea, he was mocked.

Garrett sneered at Rodney, "With your power, don't even think about getting a piece of this. No need to risk your life for this treasure!"
