

## Even After Death by Liling Champ

**Even After Death Chapter 1641 by Olivia Fordham And Ethan Miller**-The memory before Olivia fell into a coma came to her mind. Olivia only remembered that she felt a pain in her neck, and then she lost consciousness.

When she calmed down a little, she found that the scenery in front of her was familiar.

“Where is this place?”

Because Olivia just woke up, she felt uncomfortable in many parts of her body. Especially her head, which was now groggy. She felt that her mind was a little hazy.

“It was in the village. You were poisoned by a bug. I wanted to see if Madam Wendy could do anything.” Ethan hugged her gently, and Olivia buried her head in his chest. “Ethan, is this bug very powerful? Can Madam Wendy solve it?”

Maybe because Olivia had experienced life and death several times before, she was not as scared as ordinary people, and her voice was very calm.

“Liv, this bug is a bit tricky. It ties your fate with Jacqueline together. If she lives, you live, and if she dies, you die. Apart from the person who put the bug in, even Madam Wendy can’t do anything about it.”

Olivia said, “So that’s how it is. That’s why I felt suffocated just now. Something happened to Jacqueline, right?”

“That should be the case.” Ethan gently soothed her: “Liv, don’t worry. Jacqueline just wants to use you to negotiate conditions. The other party will put the bug on you for her. As long as you meet the other party’s conditions, you will be fine.”

Olivia asked, “What if the other party wants us to let Jacqueline go?”

Ethan said, “Liv, no matter what conditions the other party puts forward, I will agree as long as I can keep you safe.”

“But...” Olivia slowly raised her head from his arms. “You know very well that Jacqueline has harmed me to what I am today, as well as my family. Once we let her go, we may never find her again.”

Ethan said, “Liv, each of us wishes she would die, but she is worthless compared to you. I don’t want anything. I just want you to be alive.”

Olivia remained silent.

Ethan patted her on the back and said, "Don't think too much. If you feel uncomfortable, take a rest. Are you hungry?"

Olivia: "No, come with me for a walk."

Ethan: "Okay."

After this incident, Ethan stayed with her all the time, holding Olivia's hand all the time.

The two walked to the courtyard, and Olivia pointed to one of the rooms and said, "You used to live there."

Although Ethan could not see the time here, it was the most beautiful time for him.

"Liv, I'm glad to have you. That was the happiest time of my life in the past few years."

Revisiting the old place, if Olivia had not been poisoned by the bug, Ethan would be very relaxed.

Seeing Brent and others guarding outside the door, Wendy had already gone in, and Ethan was inconvenient, so he waited outside the door.

Ethan: "Call me if you need anything."

"Okay."

Olivia pushed the door open, entered, and saw Jacqueline, who was in a mess. She saw Olivia wake up without any surprises.

"You woke up; it seems that the bug has finished hatching."

Leia looked at Olivia, and she said awkwardly, "You, are you okay?"

There was unconcealable worry in her black pupils.

Olivia shook her head. "Not very good. I felt like I was drowning when I woke up just now."

"That's right, Olivia, from now on you will feel the pain in me!" Jacqueline looked at everyone proudly and said, "If you still want to torture me, just come on. Either death or pain, Olivia will be my scapegoat!"

Leia thought about what she had just done to her, and Olivia also felt suffocated?

This was too outrageous, but how could a small poisonous bug do such an outrageous thing?

Wendy's face turned pale. "She's right."

**Even After Death Chapter 1642 by Olivia Fordham And Ethan Miller**-Olivia looked at Wendy and asked, "Madam Wendy, what's going on?"

Wendy's face was serious. She said, "She had someone put a heart-linking bug on you. The bug will hatch from the eggs within 24 hours. After hatching, it will resonate with the bug in her body. In the future, she and you will prosper and suffer together. I didn't expect that you could feel her body so clearly. It seems that the bug master behind her is a master."

Wendy was very glad that she didn't remove the bug for Olivia without authorization. This was no longer an ordinary heart-linking bug. It could be seen that the other party had optimized it.

It's like science is progressing day by day, and those niche heritages that have long been abandoned by humans have been submerged in the torrent of time. Now there are only a few people who persist, and these people are very powerful.

Jacqueline laid on the edge of the bathtub with a very proud expression on her face. "It's good that you know; don't say it's my life; all my senses are connected to Olivia; if you want her to suffer with me, then torture me severely."

Olivia felt uncomfortable as soon as she woke up. She thought it was because she slept too long, but it turned out to be because of Jacqueline.

She felt a faint pain in various parts of her body. It was probably because Jacqueline had been injured before, so she felt something.

Leia also felt that Jacqueline was a little strange, and now she understands the reason. When she thought about what she had just done to Jacqueline and how she had almost hurt Olivia, a trace of guilt flashed across her face.

"I'm sorry."

Leia originally owed Olivia too many debts to repay, and the reason why she didn't commit suicide was that she wanted to stay and atone for her sins.

As a result, she hurt Olivia again by accident, and she felt so guilty.

She had done too many excessive things to Olivia in the past, and their relationship could not be good enough for Olivia to thank her.

So Olivia ignored Leia's apology.

Olivia looked at Jacqueline and said, "After you take a shower, let's talk."

Jacqueline met Olivia's cold eyes. She thought Olivia would be nervous and scared after knowing the truth, but she didn't expect her to be so calm.

Those were a pair of pupils that had seen thousands of sails and had a lot of experience.

"You have changed a lot."

It could be said that Jacqueline was the person who knew her best in this world.

Even when Ethan didn't know Olivia yet, Jacqueline began to pay attention to her.

They were the same age, and Jacqueline had watched Olivia grow up.

Watching her transform from a naive and romantic girl step by step into what she is today.

Olivia already has a heart that is immune to all poisons.

She didn't say much. "I'll wait for you outside."

After not eating for a day and a night, Olivia was also hungry.

Rather than fearing the unknown tomorrow, she chose to cherish the present.

When she came out, Ethan had someone prepare a bowl of egg noodles for her. "Liv, the conditions are limited; you have to make do with it for now."

Olivia smiled at him and said, "Here, this is already very good food."

She sat at the stone table and ate slowly. Her leisurely look didn't seem like she was poisoned, but rather like she was on an outing.

When Jacqueline came out, she saw this scene. Ethan sat beside her and peeled an orange for her, and Olivia ate the noodles slowly.

Willow, a little girl with green eyes, sat on the stone steps next to her.

Although no one spoke, it created a warm picture.

**Even After Death Chapter 1643 by Olivia Fordham And Ethan Miller**-Olivia looked at Jacqueline and said, "You should eat something first."

Now, not only Olivia's life depended on her but also her physical condition. Although the others hated her, they would temporarily treat Jacqueline kindly for Olivia's sake.

Compared with the hatred in the eyes of others, Olivia seemed too calm. She even looked at Ethan and said, "You ask someone to help bandage her."

"Yes." Ethan showed no objection and glanced at Kelvin, who promptly proceeded to bandage Jacqueline.

After Olivia finished her meal, she kindly gave instructions on the bandaging method and how to tie the knot to make it more beautiful and convenient.

Brent was a little upset. He asked in a slightly angry tone. "Madam, she hurt you so badly, and you still have the leisure to teach others how to tie her knot? I want to strangle her with a bandage."

Olivia looked at Brent carefully, and the corners of her mouth curved up. "It's been so many years, and your temper hasn't changed at all. You're still as angry as before."

Brent said, "Madam, you have changed a lot."

Olivia put her hair behind her ears, and a faint smile appeared on the corners of her mouth. "Although I was poisoned, I'm lucky that I'm not dying now. Instead of wasting time caring about unfortunate things, it's better to see how to deal with it so that I can live well in the present."

Olivia had nothing to do, so she simply picked up the disinfectant alcohol to treat Jacqueline's other wounds.

Jacqueline had an inexplicable feeling for Olivia. When Olivia didn't know she existed, she regarded Olivia as her old enemy in life. So the worse Olivia was doing, the more angry she was. The happier she was.

After Olivia's poisoning, she had been waiting for her to wake up and plead for mercy, but Olivia's calmness infuriated her.

"Why are you pretending? "You must hate me to death in your heart right now!" Jacqueline gritted her teeth and said,

"Yes, I hate you very much." Olivia said it calmly. "I treated you because I didn't want your wound to get worse and involve me." Don't get me wrong; I'm not being too kind."

Olivia said this clearly, but her eyes didn't show much emotion. How could Jacqueline have known that those years had consumed all of Olivia's ups and downs? She was reborn from the ashes and finally had a new life. Naturally, she would not explode over a small matter like before.

So Jacqueline felt unbalanced. She thought she had won, and Olivia would still have to kneel in front of her and beg for mercy in the end, but in fact, it was not like that.

Olivia quickly bandaged her hand and said, "Okay, let's talk about your conditions."

Jacqueline seemed to have regained her home court with an arrogant look on her face.

Jacqueline said, "I want \$20 billion transferred to an overseas account."

It seemed that she was planning to get back all her losses in one go.

"Okay, no problem." Ethan was not stingy at all, and he planned to pay for it.

Jacqueline's identity was exposed, and this was the only way for her to get the money quickly. Even if she did nothing in the future, \$20 billion would be enough for her to spend.

"Second, Olivia has injected me with a cancer-causing drug before, and I want the antidote."

She didn't want to die at such a young age, and while the cancer cells were still under control, Jacqueline wanted to get rid of them quickly.

"Okay." Olivia agreed directly: "Anything else?"

"Also, I want her..." Jacqueline pointed her finger at Leia's face and said, "Kowtow to me and apologize!"

**Even After Death Chapter 1644 by Olivia Fordham And Ethan Miller**-Leia had tortured Jacqueline so badly before, and just now she almost drowned herself. In the end, Jacqueline and Leia were the same kind of people, equally cruel and ruthless.

Of course, she had to take revenge.

Leia knew very well that this request was not excessive and that she was insignificant to Olivia.

When Leia heard the condition, her eyes were cold, but she had to suppress her anger because Olivia was now under someone's control.

This was originally what she owed Olivia.

Even though she was so angry, she curled her hands tightly together.

Ethan heard this request from the side, and his handsome brows frowned slightly. After all, Leia was his biological sister.

He had the same idea as Leia; this was what they owed Olivia, so Ethan did not stop her and acquiesced to this condition like Leia.

“No.”

Olivia’s voice of refusal sounded, and for a moment, everyone’s gaze turned to her. It was evident that they did not anticipate that Olivia was the one who had refused.

“Why? She treated you like that before; do you still feel sorry for her? Let’s resolve the conflict between you and Leia directly. I have no right to drag others into the matter between you and me.”

Jacqueline snorted coldly, “Do you know what I hate most about you? You always look high, mighty, and sympathetic to all living beings. Your position will not be stable if you’re not ruthless. You are so soft-hearted, and sooner or later you will suffer a great loss.”

Olivia said, “If you just want money, you can contact the person behind you, and we can pay the money and remove the poison in person.”

Jacqueline’s body was also planted with a poisonous bug, and people on both sides were anxious to remove the poison as soon as possible.

Jacqueline said, “In addition to \$20 billion, I also want a hostage to ensure our smooth departure.”

“Hostage? You wish.” Olivia refused without a second thought.

Jacqueline looked at her coldly and said, “Olivia, you have many forces behind you. Even if I detoxify you and don’t hold this hostage, you’ll catch me right away. Why should I do this? Don’t worry, I just need to get the money and find a safe place where I can spend the rest of my life. If you let me go, I’ll definitely release this hostage.”

Ethan said, “I will be your hostage.”

Olivia subconsciously grabbed Ethan’s hand. Jacqueline was cunning, so she was worried about Ethan.

“Mr. Miller, do you think I’m stupid? If I take you as a hostage, I won’t know how I died. I want her to be my hostage.”

Jacqueline pointed at Willow’s face and said, “Your daughter is not very old, but she is your flesh and blood. She poses no threat to me. She’s the best candidate.”

Olivia said, “No! I won’t agree with you.”

Olivia cared most about a few little cubs in her life. Each of them was a baby she gave birth to at the risk of death. How could she bear to let Willow get involved in such a dangerous situation?

Ding-ling-ling...

Willow came up and gestured to Olivia.

“Mom, I’m willing to do it.”

As long as Willow could save Olivia, she would do anything. Although she was young, she knew that Olivia had suffered too much.

If Olivia hadn’t insisted, Willow would have died long ago. Back then, she couldn’t speak. She was already very satisfied that she could be with her parents, brothers, and sisters.

“Mom, let me be a hostage.”
