

The Ex Husbands Revenge Chapter 2961

The Ex Husbands Revenge Chapter 2961-Baam!

Following a deafening sound, Leon's Double Attack landed on the Southern Boss's chest and sent him flying.

As soon as he landed, the Southern Boss felt a piercing pain in his chest and spewed blood from his mouth.

Thankfully, he was a formidable martial artist and Leon's true energy was much weaker than his spiritual energy, so the Southern Boss merely suffered some injury and was in no critical danger.

This was quite fortunate.

"Great!"

"Mister Wolfs so strong!"

Angus and the others were taken aback and all revealed excited smiles.

Though they did not know how Leon managed to defeat the Southern Boss, they knew that being able to do it twice meant that it was not a coincidence.

This indicated that Leon was already in the Peak Almighty state and that he was more powerful than the Southern Boss.

This was the only reasonable explanation.

At this moment, they finally realized why Leon refused to run and insisted on staying to fight the Southern Boss and the Western Boss on his own.

Leon was not being arrogant. He had the power to fight the Southern Boss and the Western Boss.

They were all too blinded and underestimated Leon.

"Who would've thought that he's in the Peak Almighty state?"

"How'd he do it?"

Contrary to their excitement, the Western Boss, Felton, and Rodney all wore dark expressions as their hearts sank.

The Western Boss could tell that Leon reached the Peak Almighty State judging from his strength and speed.

It baffled him as to how someone who was not even thirty could reach such a high level of strength.

This was practically a miracle and he would have never believed this to be true if he did not see it himself.

Most importantly, both he and the Southern Boss recently reached the Peak Almighty State as well.

If the Southern Boss could not defeat Leon, the same would apply to him as well.

Once Leon defeated the Southern Boss, he would combine strength with the Pragon Guards and the Thompsons, which meant the Farmers would be doomed.

Instantly, the Western Boss was troubled. Snapping out of it, he glared coldly at Leon. "No way! I can't just wait around for that to happen."

While Angus and the others were cheering in excitement, the Western Boss gave up on dealing with Levi and instead charged toward Leon from behind.

"Die, kid! Take this, Phantom strike!" the Western Boss roared.

He reached both his arms out to launch his most powerful technique.

The true energy on his palms combined into a powerful attack that was sent directly toward Leon's back.

The Ex-Husbands' Revenge Chapter 2962—"Mister Wolf, watch your back!"

The Thompsons and the Dragon Guards did not expect the Western Boss would attack someone from behind.

Shocked, they all shouted to remind Leon.

Levi and the other Dragon Guards all wanted to stop the Western Boss or hurry to Leon's rescue, but even the strongest amongst them all was in the Advanced Almighty State at best.

In terms of both speed and power, they could not compare with the Southern Boss and could not save Leon.

"How dare you?" Leon's gaze hardened.

Just as he was about to turn around to deal with the Western Boss, something unexpected happened.

Since he was getting attacked from behind, Leon had to give up on pursuing the Southern Boss.

Taking this opportunity, the Southern Boss got up from the ground.

He predicted that Leon would reach the Peak Almighty state and concluded that he alone could not defeat Leon.

Since the Western Boss was taking action to take Leon down, this was a great opportunity and he was not about to miss it.

“Leon, take my Devine Kick!” The Southern Boss worked with the Western Boss to attack viciously.

His attack caused sand on the ground to rise as he swung his leg swiftly at Leon.

In cooperation with the Western Boss, the two now had Leon surrounded and he could not possibly get away.

“Oh no!” Angus and the others paled.

They recalled how the Southern Boss and the Western Boss worked together to defeat Arthur.

At the time, Arthur was careless and fell into the same situation as well.

In the end, the Southern Boss and the Western Boss injured him and he even ended up captured.

Leon was currently stuck in the same situation as well.

The Western Boss’s attack was unanticipated and no one on Leon’s side was capable enough to help him, which placed him in grave danger.

If they were right, Leon may end up injured or captured as Arthur did.

With that thought in mind, the Thompsons’ and the Dragon Guards’ hearts sank.

“How dare you scums try to act tough in front of me? You two must have a death wish!” Leon scoffed.

Despite what he said, he knew that both the Southern Boss and them Western Boss were powerful and worked in perfect formation, making them a great threat.

Baam!

Not daring to hesitate, Leon gave up on dealing with the Western BO\$\$l and stepped forward to launch the Earthly Plunder against the Southern Boss's attack.

Since Leon's actual power could not compare with the Southern Boss, he was at a disadvantage and started backing away, which sent him toward the Western Boss's attack from behind.

Following a deafening sound, Leon's Earthly Plunder and the Southern Boss's Divine Kick clashed.

The Ex Husbands Revenge Chapter 2963—"Kid, it's time! Prepare to die!" The Western Boss narrowed his eyes maliciously when he saw Leon coming his way.

Leon was defeated by the Southern Boss and he was vulnerable from the back.

This was the perfect chance for him to take Leon down and he was not about to miss.

Taking this opportunity, he launched the Phantom strike from behind Leon.

At the same time, Leon tilted his body to take the blow with the Mirror of Sovereign.

"It's over!" The Thompsons and the Dragon Guards all fell into despair.

After seeing the Southern Boss at a disadvantage in his fight with Leon, they all knew that Leon was powerful and extremely swift, even more so than the Southern Boss and the Western Boss.

Facing their attacks, Leon could have utilized his speed to dodge. In the worst case scenario, he would be injured like Arthur and end up getting captured.

Still, that meant he would not die.

However, for some reason, he faced them head-on instead of dodging, allowing the Western Boss to land a blow to his chest.

Given the Western Boss's strength, he could easily defeat Leon or even kill him.

Once Leon was gone, the rest of them were no match for the Southern Boss and the Western Boss, so one could easily imagine what might happen to them.

Instantly, they were devastated beyond measure.

“Great! We’re finally going to be rid of that little bastard!” Contrary to their despair, the Southern Boss, Rodney, and Felton all laughed.

Though they did not know why Leon would rush to his own grave, they knew that Leon was only human.

Now that he took a blow from the Western Boss in the chest, he would surely perish and that seemed to be the only possible outcome.

However, before they could fully indulge in the joy, what happened next shocked them all.

Baam!

Following a deafening sound, Leon took the Western Boss’s attack in the chest.

To everyone’s bewilderment, he remained unmoved and did not even back away a single step.

“Western Boss, you are the one who should die! Take this!” Leon sneered and launched a powerful attack at the Western Boss.

“What? Impossible!” The Western Boss was shaken when he sensed Leon’s attack approaching.

His Phantom strike struck Leon in the chest, and he did not expect Leon to take the blow without suffering any injury at all.

This was so surreal that he was shaken to the core.

However, this was not a time for him to remain shocked.

Leon already countered and he had to dodge. Unfortunately, he was still on the momentum of his attack and could only watch as Leon’s attack got closer.

Still, he was a martial artist in the Peak Almighty State and was not about to give up so easily.

At the last moment, he summoned all his remaining true energy and tilted his body to the side, narrowly escaping damage to his chest.

However, he ended up taking the blow in the shoulder instead.

The Ex Husbands Revenge Chapter 2964-Snap!

Following the sound of bones cracking, the Western Boss's shoulder was shattered by Leon's attack and he was sent flying into the distance.

As soon as he landed, he felt a piercing pain in his shoulder and chest. He then spewed blood and lay sprawled on the ground.

Thankfully, he managed to avoid taking the blow in the chest and only the bones on his shoulders were shattered. Though he suffered severe internal injuries, he was not in critical danger.

Otherwise, he would have been permanently crippled or killed when he faced Leon's spiritual energy.

"How's this possible?" Everyone rubbed their eyes in disbelief, including Felton, Rodney, Angus, Levi, and the others.

They all thought that Leon was doomed when he faced attacks from the Southern Boss and the Western Boss at the same time.

To their bewilderment, Leon was unscathed despite taking a blow in the chest and even injured the Western Boss.

This was practically a miracle.

Felton and Rodney felt chill down their spines and they could not figure out how Leon did this, nor could they accept what just happened.

"Leon, who would've thought that your treasure leveled up to the Peak Almighty state? What kind of treasure would upgrade along with your power?" The Southern Boss's expression darkened.

After fighting Leon multiple times, he learned about the defensive tool Leon owned a long time ago.

Upon seeing the way Leon survived the Western Boss's attack unscathed, he could easily guess that it was thanks to that defensive tool.

However, when he worked with the Demon Lord to fight Leon, Leon was no match for him and was even injured.

In the end, Leon relied on the Potential Energy Force to eliminate the Demon Lord and injured the Southern Boss, narrowly winning.

Because of that, the Southern Boss was certain that the defensive tool Leon owned was only in the Intermediate Almighty State.

Otherwise, he would have never been capable of getting so close to m destroying Lepn and the Thompsons When he was only in the Advanced Almighty state.

Yet, as Leon's level reached the Peak Almighty State, so did the defensive tool.

This was surreal.

Even for someone as experienced as the Southern Boss, he was baffled.

"It's no wonder that Leon can deal with being confronted by both the, Southern Boss and the Western Boss! He even managed to injure the Western Boss. So he's been relying on a treasure."

Realization dawned on everyone after hearing what the Southern Boss had to say arid they finally understood why Leon did not fall like Arthur.

The Ex Husbands Revenge Chapter 2965-"Great! Not only is Mister Wolf powerful, but he also has a treasure to protect him! The Southern Boss and the Western Boss are doomed." The Thompsons and the others were overjoyed and beamed.

Given the speed Leon displayed, they could all tell that Leon was in the Peak Almighty State, making him just as powerful as the Southern Boss and the Western Boss.

On top of that, he also possessed a treasure in the Peak Almighty state.

Though the Southern Boss and the Western Boss were in the Peak Almighty State, they could not get past the treasure's defense and would never be

capable of harming Leon.

If all went well, the Southern Boss and the Western Boss would surely be defeated unless there was a miracle.

With that, Leon completely turned the table on them.

Hence, the Thompsons and the others felt that their despair was lifted.

"Damn it!"

"How can this happen?"

Contrary to their response, Felton and Rodney's expressions darkened as their hearts sank.

They both held grudges against Leon and resented him deeply.

Given the Southern Boss and Western Boss's power at the Peak Almighty State, they both thought that they could easily defeat Leon.

However, reality proved them completely wrong.

Neither of them expected Leon to be so powerful to the extent that even the Southern Boss and Western Boss struggled to defeat him.

If the Southern Boss and Western Boss fell, they would all suffer and the two of them were worried, to say the least.

"Southern Boss, do you want to know what kind of treasure I'm holding? Why don't you go ask God himself? Don't worry, I won't make you wait long!" Leon scoffed and turned to face the Southern Boss.

He already injured the Western Boss and wanted to eliminate him in one go.

However, the Southern Boss was vicious and cunning, making him more of a threat compared to the Western Boss.

Therefore, Leon was worried that the Southern Boss would run while he focused on the Western Boss.

This was hardly what he wanted. To be safe, he gave up on eliminating

the Western Boss and decided to deal with the Southern Boss first.

This was the safest way to proceed.

"Leon, get off your high horse. I'll admit that you are powerful beyond guy ario come try prepare to take won't know who's going to win until the final moment!" the Southern Boss said as his eyes glinted cunningly.

"Oh? Is that so? Let's see what you can do, then! Take this! Earthly Plunder! "

Without further delay, he launched the Earthly Plunder to gather bism energy at the tip of his finger before.

charging at the Southern Boss.

Leon smirked in contempt.

He intended to take the Southern Boss down as soon as possible to end this fight.
