

Even After Death

Even After Death Chapter 1661 – Olivia & Ethan – When the poisonous bug tore through Olivia's skin and crawled out little by little, the piercing pain spread from her arm to her whole body.

Olivia was in so much pain that she was about to collapse, and Jacqueline was not much better than her.

Jacqueline, who had always been willful and capricious, didn't even dare to breathe at this moment. She could only watch the poisonous bug leave her body little by little.

The poisonous bug slowly crawled out, stepping on the blood.

Olivia was shaking with pain all over. She reached out and clutched the corner of her clothes tightly, for fear of disturbing the poisonous bug.

It was a fat bug with a dark glow all over its body, twisting its body and sliding down her arm.

When leaving, she kept sucking the blood flowing from Olivia's arm, as if it were a gift to them.

The situation on Jacqueline's side was the same, except that this one looked much bigger than Jacqueline's.

After absorbing the blood, the bug's skin gradually became translucent and faintly red.

According to the original plan, after absorbing the blood, the bug would be full and could leave without worry and go look for the mother bug.

They didn't know if it's because Olivia's blood is different from that of ordinary people, but the poisonous bug has no intention of leaving. Instead, it hesitated at the call of the female poisonous bug, as if it wanted to crawl back into Olivia's body.

Olivia was also panicked when she saw this, but she had no experience dealing with poisonous bugs.

Because she was not the owner, she didn't dare approach the bug casually for fear of angering it.

Ethan had the same idea as her. After all, the bug had not left Olivia. If it exploded now, it would be too late for the bug eggs to parasitize again.

The poisonous bug on Jacqueline's side didn't get a response for a long time, and it twisted its body restlessly.

Ethan looked at Alexander. This was his poisonous bug, and he should find a way to deal with it.

Unexpectedly, Alexander had no intention of helping Olivia at all. He quickly used spices to attract the female bug, and then took the opportunity to take the female bug away.

Jacqueline's crisis was naturally resolved. A sneer appeared on her lips. "I only promised to remove the poison for you. Now that the poison has been removed, what it wants to do is none of my business."

"you!"

Alexander took a few steps back while holding Jacqueline in his arms. "I advise you not to act rashly. The bug in her hand is the King bug that I have spent ten years refining. It also carries poison. If it touches a person, they will die."

"Olivia, you are no longer of any value; go to h-e-l-l!"

It was obvious that Alexander had a way to take the bug back, but he didn't. Instead, he took the opportunity to cure Olivia's illness.

Seeing that the poisonous bug was about to crawl into Olivia's body again, Ethan's heart almost exploded.

At this time, a flute sounded.

The bug king, who was originally crawling forward, stopped.

Alexander looked at the little girl in the corner. He had seen Willow playing the flute before, but it was not the one she was holding now.

He originally thought that she was just playing the instrument to kill time, but he didn't expect that she actually had the ability to control poisonous bugs!

She had a very small instrument in her mouth that seemed to be made of some kind of animal bone.

Under her control, the poisonous bug crawled away little by little.

Seeing this, Ethan quickly covered the bug with an instrument.

Jacqueline was upset when she saw that she didn't kill Olivia. "Kill her quickly!"

"Go, I have a bad feeling."

Alexander pulled Jacqueline and ran towards the boat.

However, at this moment, a bird song was heard in the sky.

It seemed to be the cry of an owl.

Then Willow's flute sounded again.

Olivia covered her wound and said word by word, "You can't escape!"
