Can Not Win Me Back Chapter 2077

Can Not Win Me Back Chapter 2077-Winston and Liam had smart and striking appearances. Their bearings were no less noble than that of royalty.

“Dad! Liam!” Alyssa rushed over to them immediately.

Winston forced a smile. Then, he directed a conflicted gaze toward Yuliana.

Liam stared at Yuliana. There was a flicker in his eyes as he tightened his fists subconsciously.

The moment Yuliana spotted Liam, her glistening eyes lit up and filled with eagerness. However, due to her noble identity, she could only restrain her emotions as she approached Liam step

by step.

Follow current on Women were best at understanding other women. Alyssa could clearly sense that...

The relationship between Yuliana and Liam wasn't that simple.

They had a story.

“Colonel.” Yuliana looked up smugly and gazed at Liam with a deep look in her eyes. “Aren't you going to greet me?” Everyone's gazes were focused on this eye-catching pair in front of them.

Liam gulped before taking a step forward.

He lowered himself slowly and knelt on one knee. Then, he picked her hand up and kissed the back of her fair hand.

“Greetings, Your Highness.” Everyone was flabbergasted.

Upon seeing that, Colene was the first one to get annoyed. She nudged Mandy with her elbow.

“A man should have dignity and not grovel. I understand if he bows down to God, his parents, or his wife. But how could he kneel before a young lady?

When were any of the men in the Taylor family so humble?” Lyla tugged at the hem of her shirt.

“Lower your voice, Colene. She’s a princess. Liam is just doing that out of formality...” “What formality? Which century are we living in now? So what if she’s a princess? i Colene was still dissatisfied. “This is not Kontina, and Liam isn’t Kontinian.

Is it necessary for him to abide by their rules?” Mandy seized an opportunity to pull Miley aside. In a low voice, she asked, “Miley, how did Liam and this princess meet?” “There were two occasions when Liam escorted our country’s political leaders to visit Kontina. He ended up staying with the royal family for a few days.” Miley laughed awkwardly. “I guess that was when they met.” “So, this princess came along with you so she could see Liam?” Mandy widened her eyes.

Looking at the proposal-like scene in front of her, Miley put her forehead to her palm out of helplessness.

Follow current on The moment Liam got back up to his feet, Yuliana leaned forward without warning. She rested her hands on his shoulders and tiptoed.

The white coat over her shoulders fell to the floor as she gave him a peck on his lips.

Liam’s heart pounded. He felt a surge of electricity run through his entire body, and his palms started sweating.

The people in the room exclaimed, “Wow!” The Taylor family members were shocked Silast was so eXcited thathe grabbed Rose’s hands. H cried out, “Liam likes women! That’s great...

That’s a relief!” Rose pinched him on his waist. She was speechless. I While everyone’s fodus was drawn toward the romantic scene in front of them, Winston pursed his lips tightly.

Quietly, he turned around and walked away, looking dejected.

Alyssa noticed Winston leaving and went after him immediately.

“You don’t look too good, Dad. Are you feeling unwell in, any way?’ she held onto Winston! Her gaze was full of concern.

“I’m feeling tired. Just wanted to go back to my room to rest.” Winston closed his eyes for a moment.

“Lyse, ask Liam to come and see me in my room in a bit. I have something to say to him.”

Can Not Win Me Back Chapter 2078-Yuliana, the princess of Kontina, risked getting reprimanded by her father when she returned home. That one kiss revealed her purpose for traveling all the way here.

She had come only to meet with Liam.

She was a princess who ran away from the royal family in order to meet her lover. This was such a romantic long- distance relationship and a fairy tale about true love.

However, to the Taylors, they were burdened by immense pressure! “You abducted the princess, Miley. Is that okay?” Back in the room, Mandy held onto

Miley’s hand and asked anxiously, “You won’t be in trouble with the royal family when you get back, will you? Will they make things difficult for you and Jeremy?” “It’s fine, Mom. You don’t have to worry. We are close to the royal family.” Miley’s voice was gentle and comforting. “Also, I’m not that dumb to abduct the princess. Yuliana thinks that she has run away from the royal family.

But, in actual fact, I informed Her Royal Highness the moment Yuliana boarded my private plane.

“”Her Royal Highness was relieved to know that the princess is with me.

Though, she has also dispatched a team of guards from their family to come over and protect the princess in secret. They will certainly not leave her to her own devices.” “Don’t worry, Mandy.” Alyssa was happily munching on some

famous desserts that Miley had flown over from Kontina. She comforted Mandy, saying, “Kontina’s royal family handed all their ruling authority over to the presidential office 20 years ago.

“Right now, the royal family doesn’t exactly have power. They are just a symbol of their country. In other words, they have to abide by Jeremy and the parliament. How could they even dare to make things difficult for Miley and Jeremy? “Though, in the past, the royal family in Kontina used to be known as the most terrifying royal family in the world. They were cunning and scheming. Back then, they had a lot of guards and special agents under them.

They were the ones who dealt with all those who broke palace rules and their country’s laws.

“At that time, Kontina was a cruel and corrupt place. Their political scene was insidious, and the royal family was way more ruthless. It was scary indeed.

“That was before. They have completely changed now, thanks to the efforts of the past few generations.” Miley smiled warmly. She poured a cup of tea for Alyssa in case she was getting thirsty after having those desserts.

Mandy was stunned. “Wow, Lyse, did you become Kontinian? How do you know so much?”

“I often look up gossip about Kontina’s royal family while I munch on snacks. It’s much more interesting than your regular TV soap opera!” Alyssa narrowed her eyes. “Just their gossip alone would make your heart race. The reality of the royal family back then was much more cruel and horrifying.

“Though, Miley, I have to ask... Does the royal family know about the relationship between Liam and the princess? She came all the way to someone else’s wedding just to see him. There’s no way that the royal family is in the dark about this, right?” The expression on Miley’s face became conflicted the moment she heard Alyssa’s question. “How could they not know? Her Royal Highness even talked to me in private. She asked me to...

matchmake them.” Alyssa spit out the tea she was drinking while the dessert in Mandy’s hands fell to the ground! “You... Do you mean... that Liam is going to be a prince consort?” “Is Liam going to be a prince? Good lord... Is our family going to be in-laws with royalty? Doesn’t that mean that Winston is going to be in-laws with the king?” “The queen isn’t a mother who spoils her child. She took a liking to the fact that Liam is a colonel in the military and that

he comes from the wealthiest family in Belbanks, which is a strong background.

“On top of that, Liam’s looks are one in a million. The queen thinks there’s nothing to nitpick from his military background or character. So, she’s not against Yuliana and Liam being together.

“Otherwise, Princess Yuliana would have been grounded a long time ago.

didn’t like to kiss him. There is only one possibility, which is that they both have feelings for one another.”

“It’s Liam’s freedom to like whoever he likes!” Miley pressed her lips together slightly. “But if he really wants to build a future with Princess Yuliana... he will have to marry into her family in Kontina and live in their palace forever

The princess is surely not going to marry into the Taylor family.” In unison, Alyssa and Mandy exclaimed, “That can’t do! He can’t marry into their family!” Miley chuckled helplessly, “That makes this difficult then. The royal family is never going to give in on this.”

How would she be able to fly all the way here to meet Liam? Kontina’s royal family is infamous for how strict they are.” “In that case, what does Liam think?”

Mandy asked in a concerned tone.

“He’s definitely interested in Her Highness.” Alyssa’s sharp eyes twinkled brightly.

“Otherwise, such an aloof man like him wouldn’t have stood there like a piece of wood and allowed a woman he

The trio fell into silence.

It felt like Liam and Yuliana’s journey in love would be challenging.

“Tonight, I noticed that Dad suddenly looked upset when he saw Yuliana.

I’m not sure if it’s because he’s not fond of Nam being entangled with someone from the royal family.”

Alyssa was perceptive and sensitive, especially toward her own family

Can Not Win Me Back Chapter 2079-Lyse, Jennifer was from Kontina,” Mandy commented. A sad look flashed across her eyes.

Alyssa mumbled softly, “Mom...” Her heart ached.

Mandy sat down by her side, opened her arms, and pulled her into a warm embrace.

“Ever since your mother’s passing, Winston has never set foot in Kontina. Even when he happened to see any news about Kontina on TV, he would switch channels as quickly as possible. Perhaps he was reminded of your mother when he saw someone who had cfrom Kontina.

“Lyse, I’ll suggest that you go and keep him company. If not, he might get caught up in his thoughts when he’s alone, and get so down that he has trouble sleeping again.” || With sdeserts in her hands, Alyssa walked toward Winston’s room. Right after she turned the corner, she bumped into Axel, who had just returned from the frosty winter night.

“Axel, you’re back!” “Hi, Lyse.” Axel strutted up to her with his hands in his pockets.

“I haven’t seen you all day. Everyone has been asking where you were. Where did you go?” Axel’s lashes fluttered. Hesitantly, he pulled out an exquisite looking, red-colored velvet box from his pocket. He presented it to Alyssa.

“I chose this, Lyse. What do you think?” Alyssa was taken aback slightly. She received the box in her hands and opened it, and in it was a handmade, teardrop-shaped sapphire necklace decorated with diamonds around it. Even in the dim corridor, the necklace sparkled brightly.

“Axel, is this... what you’re giving to Amber? It’s beautiful!” Alyssa asked excitedly.

“Yeah. Amber already has a necklace, but it’s already really old. So, I was thinking of giving her a new one. Tooka long tto choose this, but I still feel like it’s a bit lacking.” Axel scratched his head. Then, he sighed and consoled himself, “Actually, forget it. I don’t really have an eye for aesthetics. I’ve tried my best.”

“The reason why it’s a bit lacking is because you didn’t askto make it for you!”

Alyssa pouted and said querulously, "Have you forgotten that I am Alexa, a top jewelry designer? I can design something better than this!" "Lyse... I..." "Is it because it's a present for Ms. Altman, so you felt bad about asking me?" Alyssa put her hands on his shoulders and squeezed his muscles hard. She shook him so vigorously that he was almost seeing stars. "Am I an outsider to you, or is Ms. Altman an outsider to you?" "Since you've set your sights on her, that makes her my future sister-in-law. Never mind a necklace, I can even design pieces of jewelry for her from head to toe! Why are you being so meek?" "My bad, Lyse. I was overthinking it." Axel's heart thumped. A look of gloominess crossed his eyes. "Although I've set my eyes on Amber, I was afraid that it wasn't the case for all of you."

"I'm afraid to trouble you all over her matters. You might not say it out loud, but you might feel resentful on the inside." "Of course not, Axel." Alyssa shook her head. With a tender gaze, she added, "No matter when or what happens, you have to believe in your loved ones. We will always give you our support."

"We will also love the person whom you choose to love. Don't overthink the other things." Axel's heart was overwhelmed with warmth. He gave Alyssa a big bear hug.

After Axel got his hands on a few pieces of dessert, Alyssa pushed open the door to Winston's room and walked in.

The living room was empty, and so was the bedroom.

Instead, she heard Winston's agitated voice coming from the adjoining study. She could hear him clearly from behind the door.

"It can't be that woman! So what if she is the king's daughter? My son is equally noble, he's Nor and O 11 godhooking. The title of prince consort is just a useless title that I can't be bothered about!"

Can Not Win Me Back Chapter 2080-Alyssa held her breath. She tapped into one of her skills-eavesdropping. She pressed her ear close to the door, straining to catch every word of the conversation inside.

"What's with you, Dad? You've been pestering us to get a girlfriend all these years. Now that I've taken a liking to Yules and want to be with her, you're opposing us so strongly. Why is that?" Out of all of Winston's children, Liam was the one with the gentlest personality. Even when he wasn't seeing eye-to-eye with Winston, he sought to find out Winston's reasoning patiently.

“Miley likes Yules very much too. They interact often in Kontina, and they get along very well.

“Yules is the only princess in the Kontinian royal family. If you’re talking about family backgrounds, I’m the one who reached above my station. Why are you so displeased?” “Your girlfriend can be the princess of a country. She can be a goddess or a homeless woman. I don’t care!” Winston took a deep breath. His eyes were reddened. With a tremble in his voice, he declared vehemently, “But... she cannot be Kontina’s royalty. I will never approve of her!” “Dad! But, why?” Liam’s voice was clear. He was extremely puzzled.

Even Alyssa, who was eavesdropping from the other side of the door, was also full of questions.

She could still understand Winston if he had gotten upset because Yuliana was Kontinian and reminded him of Jennifer. However, he was now so adamant about Liam and Yuliana’s relationship. That made him seem ridiculously merciless.

His reaction was as if Liam was going to marry his enemy’s daughter.

This, though, piqued Alyssa’s innate curiosity even further.

“No reason.” Winston shivered. He shut his eyes tight and put his palm on his burning forehead. “Kontina’s royal family is infamous for being wicked and scandalous. They are a pile of filth! “I do not want my son to get his hands dirty.

I don’t want any of you to be corrupted by that filthy environment. Plus, you have set your mind on joining the military since you were young. You’ve finally achieved your current position after all that hard work. Are you going to give up on everything you achieved just because of a woman?” Liam was sharp-witted.

With a deep gaze, he looked at Winston and remarked, “You’re not being truthful with me, Dad.” Winston’s chest tightened. Instinctively, he avoided Liam’s analytical gaze.

“Ever since we were young, you have never requested much from us. You would never interfere with the choices we made or the paths we chose.” Anxiety made Liam’s breathing quicken. In a hoarse voice, he continued, “Even when Jonah got together with Dr. Lovelace, you shielded them. You

supported them fully. Why can't you do the sregarding Yules and me? "Please tell me. Is it because you have ssort of grudge or dispute with the Kontinian royal family?"

On the other side of the door, Alyssa pursed her lips together tightly. She was so nervous that even the veins on the back of her hands started to pop as she pressed her hands against the door.

"It has nothing to do with the younger generation. You don't have to probe further." Winston dismissed him and refused to share further.

Liam, however, pressed on. "Mom was Kontinian. After that, with your help, she beca citizen of our country, You are so repelled by the royal family. I can even say that you're against them. Is it because Mom is somehow connected to the Kontinian royal family?" Alyssa's heart pounded.

She recalled the twhen she talked to Mandy about Jennifer's background.

Jasper had also theorized that Jennifer had cfrom the coastal waters around Kontina.

Everything was pointing toward one possibility...

Jennifer was connected with the Kontinian royal family! That said, information aboutKontina's royal family members was searchable on.

the internet. Their king and queen nad, a son and a daughter. Their son Was frail and sickly, so he was often hospitalized for treatment. The king's younger brother only had two princesses. He did not have any sons. In Kontina, the throne was passed down only to male members of the family. Thus, regardless of now useless a prince was, he could be the only one to inherit the throne in the future.

The issue was that there was no place for Jennifer among the royal family members at all! If Jennifer was indeed connected to the Kontinian royal family, what role did she have in the fami and how did she end up fleeing to Belbanks? "No, no...

Winston's sharp eyes had now gone dull. He slumped on the couch, suddenly feeling like all the energy had been drained from him. "It has nothing to do with you. Your mother has nothing to do with the royal family either. Stop askingabout it!"

Alyssa clenched her teeth together tightly.

Winston's repeated denial was an affirmation.

family. Only by getting close to her and being with her will I get a chance to understand Mom's background. Only then will I be able to find out what happened to Mom back then!" Privac

Although Liam had a softer personality, he was more stubborn than anyone else once he set his mind on something "Dad, if that's true, then there's all the more no reason for to cut ties with Yules! "She is a member of the royal family, and the only way for to contact with the Kontinian royal el.
