

Alpha's curvy bullied human mate

Chapters 65: The Big Bad Wolf

Nathaniel

They were confident that they were the majority, after all, I was just one werewolf, an Alpha with a lot of power, but only one wolf. Of course, they didn't know about me, didn't even know what I had become and what I could do to them.

You don't mess with an Alpha's mate. Period. And they had made a huge mistake.

"Can you feel it?" my wolf asked me. Hunter wasn't afraid, even when there were dozens of wolves against us.

"I can feel it... "

Power coursed through my entire body, melting into my veins, traveling through every cell, filling it with incredible strength. My Alpha aura expanded even more, and I couldn't even tell where it ended.

The other wolves must have felt it, but it was already too late, and the closer they came, the worse it felt. Hunter didn't move, but pulled out his claws and let out an earth-shattering growl.

I could see how quickly the other wolves were struck as if by lightning. Marco had sent his warriors first, while the rest of the Alphas waited behind to finish me off.

The wolves flew through the air while confusion reigned, I acted so fast that they did not even notice. I heard their desperate cries of surprise, while those behind them tried to bury their claws in the ground to avoid being dragged by my power.

The Alphas slammed into walls and trees, some instantly knocked out, as I heard the screams of pain, the breaking of bones, and the chaos.

Those who were luckier fled in terror. A good portion never got up, while I could see Marcus and the councilmen on the ground staring at me in amazement.

"I want to kill them all..." said Hunter, excited by the power and violence.

Until we heard more wolves in the distance, a huge group must be approaching.

"Get out of there, Nate!" I heard voices yelling at me. Asher didn't leave yet, and he was with Roger.

I figured Marco wouldn't come unprepared, his men would come with weapons and wolfsbane. He had prepared all this, he wanted to finish us off right here.

"Let's go, Hunter!" it was difficult for him not to take revenge.

"Return to the pack! That's an order!" I yell.

I felt bullets flying past me, and I heard the screams of the men as they saw what happened. Hunter was practically flying, hitting the ground with his paws.

Bullets hit my paws and grazed my fur and I kept going, the pain getting to me, but I knew I was leaving them behind. They wouldn't catch me, they knew they could only weaken me with wolfsbane, and they could only shoot in their human form, and that was my advantage.

"Stay in the pack, I don't think they're going to attack Moonstone...at least not for now," I said to Roger, and I knew they would be coming home by now. Asher was on his way to return home.

The war was practically declared. I had demonstrated my power. They would be afraid of me, yes. But they would also be preparing to fight me.

"Let's find mate..." I suggested to Hunter, and I didn't have to repeat myself twice.

We went a long way to lose them, crossing rivers and detouring through the most remote part of my territory.

It was dusk when I entered her house, and her scent filled me with life. I found her coming out of the bathroom with a towel around her body, the smell of strawberries was fantastic, and I sighed trying to absorb her perfume.

I could see the look of surprise on her face, then joy, and then concern when she saw my condition.

"Nate! What the hell happened? What did they do to you?"

I could feel the adrenaline rushing through my veins, all that power pushing me over the edge.

All I could think about was that we were in danger and this scene of her so sweetly worrying about me, so safe and calm in this house, might one day be over. And I couldn't bear it.

Like a complete savage, I went straight to her mouth, wanting to taste her, squeezing her body next to mine as I removed her towel in one fell swoop.

"Nate...let me take care of you..." she said worriedly trying to get me to calm down, but my mouth went to her neck sucking on the spot I wanted to mark and I heard her moaning uncontrollably.

I pulled her into the shower and I didn't realize I was so hurt, my body was on fire, but I still wouldn't let go of her.

"Nate... Nathaniel... what the hell happened?" she kept asking me between kisses my hands roamed all the places I already knew well, as she turned on the shower

"The Council attacked us, and we are already sworn enemies...all the allied alphas, fled while I took care of Marco and the Council," I said, rubbing my hardness with her center, the thought of having her wet, so deliciously wet, in my grasp was driving me crazy.

I kissed her breasts and she groaned, her heart beating frantically, and I felt her hands cleaning my body, and looking for wounds.

"I'm fine my mate, the fight was hard but my power...was amazing. They couldn't control me, and it's all thanks to you..." I said, spreading her legs apart and caressing her folds with my fingers as I held her tight and she writhed against the cold wall.

I could see the water running and the blood and dirt coming out, and I swear I didn't care about anything. Just that I had her there, safe in my arms, ready to satisfy my deepest desires. I just wanted to make sure she was okay, safe and sound.

"You give me strength, my mate...and at the same time, I am completely bound to you. I can only think of you day and night, do you understand? How you drive me crazy... you are all I think about, the queen of my mind and my heart... my only desire is to please you," I say hoarsely.

She moans uncontrollably, her breasts pressed against my chest, the heat of her mound melting me.

"My Alpha... my powerful and perfect Alpha... my one and only man... my true mate," she says between gasps as my fingers possess her more, her warmth calling to me and I can't hold back anymore.

In one movement, I lifted her, grabbing her thighs. She held my neck and I let out a howl of pain and pleasure as I entered her in one motion.

"Mate!" she sobbed as I pulled her up and down, going deeper and deeper into her I watched with pleasure as her breasts jiggled, swaying, and she had her mouth open and her eyes closed in ecstasy.

Her luscious, thick thighs squeezed me, her fingers and nails digging into my back. I was no longer in pain, no longer thinking about the war, just taking this voluptuous woman, making her scream, feeling the pleasure her body gave me, kissing her until our lips were swollen.

I don't know if it made me feel more powerful to have defeated so many Alphas in one move... or to have this beautiful creature, willing, doing whatever I wanted with her, having her moans and kisses.

"More Nate... more... more... don't stop... I feel you so deep inside..." she said, and she knew how to make me lose my mind. She let out a desperate cry and I held her hips and entered her like a desperate, rabid animal.

"You are obscenely sensual, all I think about is making you scream, Penelope. You're mine, just mine..." I say as I speed up my thrusts, knowing that her body is reaching its limit. I felt the power of my wolf, and how I wanted to dominate her.

"Mark me..." she said between moans, closing her eyes and trying to hold back.

"Are you sure?"

"Yes... mark me," she said, crying out in pleasure as she found her ecstasy.

I came alone with her request, but instead of biting her neck, I bit near her shoulder. I hug her... kissing her sweetly.

"Why didn't you do it?" she asked me doubtfully, and I licked the wound I had left.

"Because... it has to be special. Our first time didn't go the way it should have, and I promised myself I would be a better wolf, a better Alpha, and the mate you deserve. A romantic, special, devoted one," I say, turning off the bath water as I carry her into the bedroom.

"You are already the mate and Alpha I need," she says with a sigh, rubbing her hips against my crotch.

"Oh, my mate...you are a sin indeed. Just wait ... I promise it will be perfect," I say and lay her face down on the bed, seeing her naked body still wet.

I move closer to her, positioning myself on top like a predator, kissing her neck and back, enraptured, caressing her round ass. Fucking glorious.

"But don't worry... we have plenty of time to practice... and there are some other places I want to bite..." I say, pinning her to the bed, ready to make her mine again and again.
