The Vampire Omega by Angelic 12

She flinched with pain again when Kira again dragged her hair, almost jacking the hair from her skull.

"Seems you are getting all mouthy all of a sudden, that is so interesting to hear"

Kira said, her hatred towards her sister had already consumed her to the fullest. As she was about to raise her hands to break her skull, a voice stopped her, making her hand hang on the air.

"Enough, you have hit her enough"

Lucas said, coming out fully from where he stood.

"And why do you think I would obey your words. Now you find yourself a mate and you ignore me Lucas"

Kira said, quietly letting go of the omega, it was time she faced the reality, but yet there was a big slap to her face.

"Am sorry the goddess had nor pronounced you as my mate, is not my fault, you know"

Lucas said, he wish he could tell her that Bella was nothing but a toy, that he will mess with tonight, and then reject her as quickly as he was done with her.

"I rejected my mate to be with you, you dumb ass, how dare you do these to me"

Kira said, running towards Lucas, raising her hands to slap the son of a bitch, but Lucas held her hands, looking at her slightly, he drew her towards him, whispering into her ears what he wanted her to hear.

"Ohh really, and you wasted so much time in telling me this news baby"

Kira said every trace of anger vanished immediately as if the previous minutes ago she was not in a bad mood.

Bella looked up, surprised at the sudden change of mood, what had Lucas perhaps told Kira, for her to look all happy like these, she couldn't believe that Kira had rejected her mate, all because she wanted power. Quietly standing up, hearing Kira call Lucas "baby", there was no doubt her two worst enemies were still going to continue with their relationship, but why had he accepted, why had he not rejected her. As she stood, about to head out from the hall, a voice came stopping her in her tracks.

"Where are you heading to mate"

Lucas said, the word "mate" sounded like poison on his tongue. But he does have to sacrifice some words like these to get what he wants.

"I am heading to my room"

Bella said, looking down, she was not yet ready to face Lucas after the incident that had happened in the feast.

"But the alpha and priest has demanded we sleep in one room since we are both mated"

Lucas said, walking towards her.

"But I do not accept you, to be my mate"

Bella pronounced, her voice quivering, there was no such rule as these, why was everything about her be different.

"I won't take it lightly with you when you make such words again, you disregard my words and the words of the alpha"

Lucas said, no one in the hall would stop him from making his way towards her.

"But I have the right to pro…."

Lucas never gave her the time to talk as he dragged her with a mighty force, with the speed of his alpha's blood which runs through him, he dragged her towards his room, which was two stairs above her room.

And with a force so unreckoned of, he slammed her on the wall, receiving a pain of anguish from her. He gave her a lopsided smile. His smile smelt so dangerous, dangerous like a wolf.

Bella stood shocked, what had happened, the other minute he stood a few distances away from her in the hallway, but within a minute, she stood…..in his room.

What was he planning, what was the devil planning to do with her.

"Now you listen to me and listen well, am your mate, you are going to obey my bidding, because you belong to me, but for now, when am done with you, you become nothing to me"

Lucas said, his eyes turning hot as fire as the thoughts of what he was planning to do with her. She looks delicate but he does make sure he seer that delicacy, he does destroy her, by taking what belongs to him, her virginity had belonged to him right from the beginning, even the goddess had proven that so.

Bella shook with fear, their time was different from the last time when he has accosted her. These times, she was his mate and he do stop at anything to forcefully take her.

"What do you want"

She asked, her voice sounding friable, she knew what he wanted, she just wanted to create some time, for herself, to think about how to escape these deadly monsters.

"I want you, whether you want me or not, I want you, and I will have you, without your permission"

Lucas said, he would have her and no one would do anything about it.

"No, I won't allow you to lay your filthy hands on me"

Bella said, staring at him, she stood strong on her words.

A smile broke off from Lucas's face, the omega had dared him and she had gotten the impetus to challenge him and call him filthy, well well, he do show her how filthy he was. Without giving her a chance to speak another word, he flung her to the bed, making her head make contact with the bed board. A tiny scream erupted out from her lips, the impact of the headboard had caused her to be blurry for a little while. Her gown rode up to her thighs, which she quickly covered in an instant.

Lucas was a sheer devil, she does rather die than allow him sexually abuse her.

"Do not do these, please, please, Lucas does not do these, am not worth it, please"

Bella begged, begging to prevent the abuse which might happen in a minute from now.

"No, why do you stop me from taking what belongs to me, I own you so why stop me, do you perhaps have someone in mind, whom you intend to give yourself to?"

Lucas asked, now walking towards her, like a predator, who was preparing to attack his prey. The more he walked closer to her, the more she backed off to the headboard. He smiled at her, knowing there was no other place she does run to.

"No I don't, but am not re.."

"Then allow me to devour you and watch as I make you mine, only for a little while"

Lucas said, cutting her off from her speech, before pouncing on her.
